

# Japanese Dried Fish Plant

4-1 Inspecting dried skate wings in northern Japan.

4-2 Inspecting and tenderizing dried skate wings.

4-3 Tenderizing dried skate wings that are imported from Thailand.

4-4 Tenderizing dried fish by smashing the fish through rollers to break down fibers.

4-5 Repackaging a Vietnamese product in Japan. All imported items are inspected and run through a metal detector.

4-6

Automated dried fish packaging. Dried fish is either imported in bulk and packaged in Japan or produced locally and packaged.

4-7
