DATES OF SUPREME COURT DECISIONS

UNITED STATES REPORTS VOLUMES 2 - 107 (1791 - 1882)

The dates of decisions do not appear beneath the case name in the first 107 volumes of the U.S. Reports. This list has been compiled from various sources. In some instances, more than one date has been found. Beginning in 1854 (58 U.S.) the Lawyers' Edition of the Supreme Court Reports includes the date, though there are some errors and omissions.

The opinions are listed as they appear in the U.S. Reports. There were many different editions and printings of the early volumes so the page numbers are not always the same. There is usually star paging, but in a few instances the page numbers are slightly different. When there are variations, the numbering from the earliest edition is used. The short titles of cases are in the form recommended by the Reporter of Decisions.

EXPLANATION OF SOURCES

The primary source for dates are the handwritten Engrossed Minutes. The originals are at the National Archives and a microfilm copy is available. When the date appears followed by no symbol, it was found in the Minutes.

When the date was not found in the Minutes, the handwritten Engrossed Docket was consulted. The original Docket is also at the National Archives and available on microfilm. When the date was not found in the Minutes but was located in the Docket, it is followed by a pound sign (#).

When the date was found neither in the Minutes nor in the Docket, it is followed by a question mark (?). It is likely that these opinions have such variations in the title that they are not easily identified.

In addition, some dates do appear in the U.S. Reports. In some volumes they are in the margin, and in others they are in the body of the opinion. One edition of a particular volume may have dates while another edition does not. Where a date was found in the U.S. Reports it is noted by an asterisk (*) when it is the same date. When a different date appears in the U.S. Reports, that is shown in parenthesis.
