TABLE OF CONTENT

1	INTRODUCTION.....	2
2	DISTRIBUTION OF HOARY CRESSES.....	2
3	BIOLOGY AND MANAGEMENT PRACTICES.....	3
4	PARTNERSHIP	4
5	SUGGESTED WORK PLAN.....	5
5.1	Foreign exploration: Initiation of discovery, identifications, life history studies, and host specificity screening of natural enemies of hoary cress in native range.....	5
5.2	Development of TAG approved test plant species list and collection of native North American plant species for host specificity testing	6
5.3	Pre-release studies on ecology and habitat characterization in North America	7
5.4	DNA genotype/biotype characterization of hoary cresses in North America and Europe.....	8
5.5	Introduction and quarantine clearance of natural enemies in North America.....	8
5.6	Field releases, nursery sites, mass production, and distribution of natural enemies	9
5.7	Economic analysis	10
