Portland, OR 97208

Dear State Director Ed Shepard,

Please accept the following comments regarding the WOPR. Alternative 3 is the most acceptable for the following reasons:

1. It is closest to the O&C Act.
2. It provides the best opportunity to maintain the social and financial viability of the adjacent communities.
3. Intensive management is essential to reduce the risk of catastrophic fire to the resource, adjacent private forest land, our communities and the global carbon equation.

I wonder why you did not prepare an alternative that truly maximizes the timber production potential for a comparison. The O&C counties deserve the chance to see these numbers.

Thank you for the opportunity to comment.

Sincerely,

Heidi Meyer
