

§ 1254.72 Information about documents.

(a) Upon request, overall information pertaining to holdings or about specific documents will be furnished, provided that the time required to furnish the information is not excessive, and provided that the information is not restricted (see subpart C and subpart D).

(b) When so specified by a director, requests must be made on prescribed forms. Such forms will be approved by OMB as information collections and will bear the approved control number.

[59 FR 29195, June 6, 1994]

§ 1254.74 Information from documents.

Normally, information contained in the documents will be furnished in the form of photocopies of the documents, subject to the provisions of §1254.70. NARA will certify facts and make administrative determinations on the basis of archives, or of FRC records when appropriate officials of other agencies have authorized NARA to do so. Such certifications and determinations will be authenticated by the seal of NARA, the National Archives of the United States, or the transferring agency, as appropriate.

[59 FR 29195, June 6, 1994]

§ 1254.76 Certification of copies.

The responsible director, or any of his or her superiors, the Director of the Federal Register, and their designees are authorized to certify copies of documents as true copies.

Subpart F—Microfilming Archival Records

SOURCE: 52 FR 20081, May 29, 1987, unless otherwise noted.

§ 1254.90 General.

(a) This subpart establishes rules and procedures governing the use of privately owned microfilm equipment to film accessioned archival records and donated historical materials in the legal and physical custody of the National Archives and Records Administration (NARA) by foreign and domestic government agencies, private com-

mercial firms, academic research groups, and other entities or individuals who request exemption from obtaining copies through the regular fee schedule reproduction ordering system of NARA.

(b) Persons or organizations wishing to microfilm Federal agency records in the physical custody of the Washington National Records Center (WNRC) contact the director, WNRC, about procedures for obtaining permission from the originating agency to film those records. For information about procedures for obtaining permission from the originating agency to film records in the records center operation of one of NARA's regional records services facilities or in the physical custody of the National Personnel Records Center (NPRC), contact the Regional Administrator of the region in which the records are located, or the director, NPRC, for records in NPRC.

(c) Federal agencies needing to microfilm archival records in support of the agency's mission must contact the appropriate office as specified in §1254.92 of this part, as soon as possible after the need is identified, for information concerning standards and procedures for microfilming archival records.

[64 FR 19904, Apr. 23, 1999]

§ 1254.92 Requests to microfilm records and donated historical materials.

(a) Requests to microfilm archival records or donated historical materials (except donated historical materials under the control of the Office of Presidential Libraries) in the Washington, DC area must be made in writing to the Assistant Archivist for Records Services—Washington, DC (NW), 8601 Adelphi Rd., College Park, MD 20740-6001. Requests to microfilm archival records or donated historical materials held in a NARA regional records service facility must be made in writing to the Assistant Archivist for Regional Records Services (NR), 8601 Adelphi Rd., College Park, MD 20740-6001. Requests to microfilm records or donated historical materials in a Presidential library or donated historical materials

§ 1254.92

36 CFR Ch. XII (7-1-01 Edition)

in the Washington area under the control of the Office of Presidential Libraries must be made in writing to the Assistant Archivist for Presidential Libraries (NL), 8601 Adelphi Rd., College Park, MD 20740-6001. OMB control number 3095-0017 has been assigned to the information collection contained in this section.

(b) Requests to use privately owned microfilm equipment should be submitted four months in advance of the proposed starting date of the microfilming project. Requests submitted with less advance notice will be considered and may be approved if adequate NARA space and staff are available and if all training, records preparation and other NARA requirements can be completed in a shorter time frame. Only one project to microfilm a complete body of documents, such as an entire series, a major continuous segment of a very large series which is reasonably divisible, or a limited number of separate series related by provenance or subject, may be included in a request. NARA will not accept additional requests from an individual or organization to microfilm records in a NARA facility while NARA is evaluating an earlier request from that individual or organization to microfilm records at that facility. NARA will establish the number of camera spaces available to a single project based upon the total number of projects approved for filming at that time.

(c) The request must include:

(1) A description of the documents to be copied which includes the following elements:

(i) Agency of origin or, for donated historical materials, title of the collection,

(ii) Title of series or file segment;

(iii) Date span; and

(iv) Estimated volume in number of pages or cubic feet.

(2) The estimated amount of time (work-days) that the microfilm copying project will take; the date that the requester would like to begin the project; and the number of persons who would require training (see §1254.100(b)).

(3) The number and a description of the equipment that will be used for copying including:

(i) The name of the manufacturer and model number; and

(ii) The type of light source to be employed (fluorescent, tungsten, or electronic flash) and if electronic flash (i.e., strobe) or fluorescent, whether the light source is filtered to omit ultraviolet radiation.

(4) A statement of the procedures which will be followed to ensure that all pages are copied, that the images on the microfilm are legible, and that the microfilm is properly processed. At a minimum, the procedures should meet the requirements specified in part 1230 of this chapter regarding the microfilming of permanent records.

(d) The requester must agree to credit the National Archives or the particular Presidential Library having custody of the original documents. The credit must appear at the beginning of a microfilm publication and in any publicity material or descriptions of the publication.

(1) If the original documents are Federal records, the requester must agree to include on the film this statement: "The documents reproduced in this publication are among the records of the (name of agency) in the custody of the National Archives of the United States. No copyright is claimed in these official U.S. Government records."

(2) If the original documents are donated historical materials, the requester must agree to include on the film this statement: "The documents reproduced in this publication are donated historical materials from (name of donor) in the custody of the (name of Presidential library or National Archives). The National Archives administers them in accordance with the requirements of the donor's deed of gift and the U.S. Copyright Law, Title 17, U.S.C."

(3) If the original documents are presidential or vice-presidential records as specified in 44 U.S.C. 2201, the requester must agree to include on the film this statement: "The documents reproduced in this publication are presidential records in the custody of the (name of Presidential library or National Archives of the United States). NARA administers them in accordance with the requirements of Title 44, U.S.C. No

copyright is claimed in these official presidential records.”

(4) If the original documents are records of Congress, the requester must agree to include on the film this statement: “The documents reproduced in this publication are among the records of the (House of Representatives/Senate) in the physical custody of National Archives and Records Administration (NARA). NARA administers them in accordance with the requirements of the (House/Senate).

(e) If the person or organization producing the film plans to copyright the microfilm publication, the National Archives and Records Administration must be given a royalty-free worldwide license to sell the publication seven years after filming at the NARA facility is completed, or earlier if there is no commercial distributor.

[52 FR 20081, May 29, 1987; 52 FR 22415, June 11, 1987, as amended at 59 FR 29195, June 6, 1994; 64 FR 19904, Apr. 23, 1999]

§ 1254.94 Criteria for granting the requests.

(a) NARA will evaluate the requests on the basis of the extent to which completion of a proposed project would further NARA’s efforts to preserve and to make available to the public the historically valuable records of the Government.

(1) In considering multiple requests to film at the same time, NARA will give priority to microfilming records that have research value for a variety of studies or that contain basic information for fields of research in which researchers have demonstrated substantial interest.

(2) The records to be filmed should be reasonably complete and not subject to future additions, especially of appreciable volumes, within the original body of records. Records with pending or future end-of-series additions are appropriate for filming.

(3) The records to be filmed should not have substantial numbers of documents withdrawn because of continuing security classification or privacy or other restriction.

(b) NARA will approve only requests to microfilm a complete body of documents, such as an entire series or a major continuous segment of a very

large series which is reasonably divisible. Microfilming a complete body of documents means that all documents within the file unit(s) to be microfilmed will be consecutively copied, from the first to the last page, not skipping any pages in between except for pages that are exact duplicates or blank pages that are not included in a pagination scheme.

(c) NARA will normally approve only requests which include assurances that the project will adhere to the specifications in part 1230 of this chapter which concern microfilm stock standards, index placement, and microfilm processing for permanent records.

(d) NARA will approve only requests which specify that NARA will receive a first generation silver halide duplicate negative containing no splices made from the original camera negative of the microform record created in accordance with part 1230 of this chapter. NARA may waive any of the requirements of this paragraph at its discretion.

(1) NARA may use this duplicate negative microform to make duplicate preservation and reference copies. The copies may be made available for NARA and public use in NARA facilities and programs immediately upon receipt, subject to the limitation in paragraph (d)(2) of this section.

(2) NARA may also sell copies of the microform seven years after filming at the NARA facility is completed, or earlier if there is no commercial distributor. NARA may choose to add its own editorial material to the microform copies which NARA distributes or sells.

(3) Detailed roll lists must be delivered with the microfilm. The lists must give the full range of file titles and a complete list of all file numbers on each roll of microfilm. NARA prefers that the list be provided in a fielded, electronic format to facilitate its use by staff and researchers. If the electronic format is a data file with defined or delimited fields, the records layout identifying the fields, any coded values for fields, and explanations of any delimiters should be transferred with the list.
