

This should have never happened. Christians should never have to go to the courts with anything. As God has instructed us, times will get worse and this is the end result. I am petitioning that this station remain active. This station has been on air ever since the late 90's and this station should keep doing what it is doing to SERVE THE LORD NOT THE WORLD. We should be able to have free speech on the "Christian Radio" about Christian items. We should not allow for the worldly things to step in and try to take over when this world is on a crash course as it is. This station should keep doing what it is doing to serve the Lord and all His glory.
