INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, DECEMBER 29, 2000 - 1000 MST NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION:

One new large fire was reported this week in the Southern Area. Initial attack activity was light with the Southern Area reporting daily activity.

SOUTHERN AREA LARGE FIRES:

INCIDENT NAME	ST UNIT 	SIZE % CTN		TOTAL						\$\$\$ C-T-D
LOWREY RD	FL FLS	2600 100		0	0	0	0	0	NR	NR

OUTLOOK:

A low pressure system will spread inland across Washington and northern Oregon bringing rain and snow showers to the area. High pressure will dominate the remainder of the west causing windy conditions to Nevada and California. High temperatures should range from the mid 30's to lower 50's in the Pacific Northwest to upper 60's and lower 70's in the Southwest.

The Midwest will remain under cloudy skies, but no precipitation is expected as a low moves out towards the Ohio Valley. Daytime high temperatures will range from the upper 20's to the upper 50's in southern Texas.

The storm system from the Midwest will continue moving eastward bringing cloudy conditions to the Northeast by early afternoon. Snow showers and flurries should begin by nightfall as far east as Syracuse, NY. High temperatures will range from the lower 20's to the upper 30's.

The Southern Area will have dry conditions today with the exception of scattered snow flurries over Tennessee.
