Figure 2-15 Mile 85 Placitas Arroyo

Placitas Arroyo enters the river from the west upstream from the New Hatch bridge near mile 85. Two arroyos enter the river from the east near Garfield drain and are identified for creation of embayments.

Targeted River Restoration Alternative

Point Project Measures	ID	#	Area (ac)
Modify dredging at arroyos by creating embayments	85D	2	0.52
