14 CFR Part 39

0369

[Docket No. FAA-2007-*****; Directorate Identifier 2007-NM-258-AD]

RIN 2120-AA64

Airworthiness Directives; Dassault Model Mystere-Falcon 50 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for the products listed above. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

Some occurrences have been reported where life rafts were difficult to remove from inside divan compartment. Investigations revealed that:

- Life raft was incorrectly stowed, with deployment straps inboard;
- Life raft had not been repacked to specified dimensions

* * * * *

The proposed AD would require actions that are intended to address the unsafe condition described in the MCAI.

DATES: We must receive comments on this proposed AD by [insert date 30 days after date of publication in the FEDERAL REGISTER].

ADDRESSES: You may send comments by any of the following methods:
