Re: Quote for "Update the GCG Database"

Dear Ms. Lawson:

IQ Solutions is pleased to provide a cost estimate in response to your request for activities related to the quarterly updates of the GCG Database.

This cost estimate assumes the following:

- Period of performance is May 1-September 30, 2008.
- Updating of the database covering the periods of March 1-September 15, 2008 includes:
 - Searching on each of the 720 grant numbers in PubMed and adding new articles published between March 1-September 15, 2008 that are not already included in the GCG database.
 - Producing a list of all new PMID numbers for all new articles published during the time period listed in the above bullet.
 - Entering new grants into the database once the data is received from NIA.

This cost estimate does **not** include costs beyond the tasks outlined above. In the event that the current scope is expanded above the current requirement, IQ Solutions will provide a budget and request for additional funding.

Based on our current estimate, we are requesting funding in the amount of \$10,006 to complete the work as outlined above. A detailed estimate is attached.

IQ Solutions appreciates the opportunity to respond to this request for a quote from the National Institute on Aging, Geriatrics and Clinical Gerontology Program. Should you have any questions or need further clarification regarding this quote, please feel free to contact me at 301.984.1471 x4319 for contracts issues or Ruth Ann Speir at 301.984.1471 x5211 for technical questions.

Sincerely,

Lee R. Loman
VP, Finance
