

in the **Federal Register** (68 FR 67152) that a request for a scientific research permit to take loggerhead, leatherback, Kemp's ridley, green and hawksbill sea turtles had been submitted by the above-named organization. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

This permit authorizes the Permit Holder to handle, photograph, measure, weigh, collect a tissue biopsy from, flipper and Passive Integrated Responder (PIT) tag, and release turtles that have already been captured during the bottom longline fishery. The capture is covered under the incidental take statement issued as part of the Biological Opinion for the Highly Migratory Species Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks. The research will contribute to the understanding of the pelagic ecology of sea turtle species, assist in the development of more complete models of their population dynamics, and allow more reliable assessments of commercial fishery impacts.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 1, 2004.

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[I.D. 061504C]

Endangered Species; File No. 1432

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Jeanette Wyneken, Ph.D., [Principal Investigator], Department of Biological Sciences, Florida Atlantic University, 777 Glades Rd., Boca Raton, FL 33431,

has been issued a permit to take loggerhead sea turtles (*Caretta caretta*) for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713–2289; fax (301)713–0376; and Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702–2432; phone (727)570–5301; fax (727)570–5320.

FOR FURTHER INFORMATION CONTACT:

Ruth Johnson or Patrick Opay, (301)713–2289.

SUPPLEMENTARY INFORMATION: On May 10, 2004, notice was published in the **Federal Register** (69 FR 25882) that a request for a scientific research permit to take the species identified above had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The Holder is authorized to take up to 30 loggerhead sea turtle hatchlings per site at 10 sites (Onslow Beach, Kiawah Island, Hilton Head Island, Wassaw Island, Melbourne Beach, Hutchinson Island, Juno Beach, Boca Raton, Sanibel/Captiva and vicinity including waters near Ft. Meyers, and Sarasota) for scientific research. Turtles will be captured on the beach under permits issued by the States of North Carolina, South Carolina, Georgia, and Florida, and attached with a “Witherington Float.” The turtles will be released at water's edge and followed to determine survivability. Turtles that are not lost to predators will be recaptured, the tether removed and released.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and

policies set forth in section 2 of the ESA.

Proposed Collection; Comment Request

AGENCY: Department of Defense, Office of the Under Secretary of Defense, Acquisition, Technology, and Logistics/Defense Technical Information Center (DTIC).

ACTION: Notice.

In compliance with Section 3506(C)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Under Secretary of Defense, Acquisition, Technology, and Logistics/Defense Technical Information Center (DTIC), announces the proposed extension of a currently approved collection and seeks public comment on

the provisions thereof. Comments are invited on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility.

(b) The accuracy of the agency's estimate of the burden of the proposed information collection.

(c) Ways to enhance the quality, utility, and clarity of the information to be collected.

(d) Ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by: August 31, 2004.

ADDRESSES: Interested parties should submit written comments and recommendations on the proposed information to DTIC-BC Registration Team, Defense Technical Information Center, 8725 John J. Title, Associated Form, and OMB Number: Registration for Scientific and Technical Information Services, DD Form 1540, OMB Control Number: 07040264.

Needs and Uses: The data that the Defense Technical Information Center handles is controlled, either because of distribution limitations, or security classification. For this reason, all potential users are required to register for service. DOD Instruction 3200.14, Principles and Operational Parameters of the DOD Scientific and Technical Information Program, mandates the registration procedure. Federal Government agencies and their contractors are required to complete the DD Form 1540, Registration for Scientific and Technical Information Services OMB Number: 07040264. The contractor community completes a separate DD Form 1540 for each contract or grant, and registration is valid until the contract expires.

Affected Public: Businesses or other for-profit, small Businesses or organizations, non-profit institutions.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The DOD Scientific and Technical Information Program (STIP) requires the exchange of scientific and technical information within and among federal Government agencies and their contractors. The DD Form 1540 serves as a registration tool for Federal Government Agencies and their contractors to access DTIC services. The Contractors, Subcontractors, and Potential Contractors are required to obtain certification from designated approving officials. Federal Government Agencies need certification from Approving Officials and Security Officers when requesting access to classified and/or data. Collected information is verified by DTIC's Marketing and Registration Division.

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board (DSB) Task Force on Strategic Strike Skills will meet in closed session on October 6-7, 2004; November 16-17, 2004; December 15-16, 2004; January 12-13, 2005; and February 16-17, 2005; at Science Applications International Corporation, 4001 N. Fairfax Drive, Arlington, VA. The Task Force will assess the future strategic strike force skills needs of the Department of Defense (DoD).

The mission of the DSB is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. Last summer the DSB assessed DoD needs for future strategic strike forces. Assessed was the application of technology for non-nuclear weapons systems, communications, planning systems, and intelligence as well as the integration of strategic strike with active

defenses as part of the new triad. This "skills" study will complement the previous strategic forces study by focusing on the people and the skills necessary to develop, maintain, plan, and successfully execute future strategic strike forces. At this meeting, the Task Force will: Assess current skills available, both nuclear and non-nuclear of current long-range strike forces; identify, assess and recommend new/modified/enhanced skill sets necessary for successful future strike force development, planning, and operations; and recommend a strategy for the successful evolution of the current skills to those required by future strike forces.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.

Dated: July 1, 2004.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board Task Force on Munitions System Reliability will meet in closed session on July 8-9, 2004, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. This Task Force will review the efforts thus far to improve the reliability of munitions systems and identify additional steps to be taken to reduce the amount of unexploded ordnance resulting from munitions failures. The Task Force will: Conduct a methodologically sound assessment of the failure rates of U.S. munitions in actual combat use; review ongoing efforts to reduce the amount of unexploded ordnance resulting from munitions systems failures, and evaluate whether there are ways to improve or accelerate these efforts; and identify other feasible measures the U.S. can take to reduce the threat that failed munitions pose to friendly forces and noncombatants.

The mission of the Defense Science Board is to advise the Secretary of
