DEFINITIONS AND ADDITIONAL INFORMATION

TERM	DEFINITION	ADDITIONAL INFORMATION
Kirschstein – NRSA (Ruth L. Kirschstein National Research Service Award) Institutional Research Training and Fellowship Mechanisms	NIH’s primary research training program which provides awards to both individuals and institutions to provide research training in specified health-related areas. Activities are as follows: T32,T34,T35, T36, T90, TL1, TL2, TU2, F30, F31, F32, F33, F3 and F35 (until 1998).	Ruth L. Kirschstein National Research Service Award (NRSA)
Non-NRSA Institutional Research Training and Fellowship Grant Mechanisms	Research training that comes under the training authorities of NLM or FIC or otherwise falls outside of the Kirschstein-NRSA program. Activities are as follows: F05, F37, F38, D43, D71, T14, T15, T37, R90, and U2R These training mechanisms do not fall under the training budget as reported by the Office of Budget.	Activity Code Descriptions
Research Grants	Extramural awards made for Other Research Grants, Research Centers , Research Projects, and SBIR/STTRs. Includes the following: R, P, M, S, K, U series (excluding UC6) DP1, DP2, D42,G12.	
Success Rate	Indicates the percentage of reviewed applications receiving funding computed on a fiscal year basis. It is determined by dividing the number of competing applications funded by the sum of the total number of competing applications reviewed and the number of funded carryovers. NOTE: Applications having one or more amendments in the same fiscal year are only counted once.	

To access data tables for each slide while in presentation view right-click on the slide and select “edit slides” Then double-click on the graph image and the datasheet should appear in a separate window or select the data tab from the spreadsheet. If the datasheet does not appear, right-click in the chart area and select “datasheet”
