

§ 322.7

mellifera capensis) and the Oriental honeybee (*Apis cerana*), as occurring in the hive from which the shipment was derived, we will refuse the shipment's entry into the United States.

(c) *Bees other than honeybees.* For bees other than honeybees, the export certificate must certify that the bees in the shipment were produced in the exporting region and are the offspring of bees or semen also produced in the exporting region.

(Approved by the Office of Management and Budget under control number 0579-0207)

§ 322.7 Notice of arrival.

(a) At least 10 business days prior to the arrival in the United States of any shipment of bees or honeybee germ plasm imported into the United States under this subpart, you must notify APHIS of the impending arrival. Your notification must include the following information:

- (1) Your name, address, and telephone number;
- (2) The name and address of the receiving apiary;
- (3) The name, address, and telephone number of the producer;
- (4) The U.S. port where you expect the shipment to arrive. The port must be staffed by an APHIS inspector (see § 322.11);
- (5) The date you expect the shipment to arrive at that U.S. port;
- (6) The scientific name(s) of the organisms in the shipment;
- (7) A description of the shipment (*i.e.*, package bees, queen bees, nest boxes, etc.); and
- (8) The total number of organisms you expect to receive.

(b) You must provide the notification to APHIS through one of the following means:

- (1) By mail to the Permit Unit, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1236; or
- (2) By facsimile at (301) 734-8700; or
- (3) By electronic mail to Notification@usda.gov.

(Approved by the Office of Management and Budget under control number 0579-0207)

7 CFR Ch. III (1-1-08 Edition)

§ 322.8 Packaging of shipments.

(a) *Adult honeybees.* All shipments of adult honeybees imported into the United States under this subpart:

- (1) Must be packaged to prevent the escape of any bees or bee pests;
- (2) Must not include any brood, comb, pollen, or honey; and
- (3) May include sugar water or crystallized sugar (*e.g.*, candy) for use as food during transit.

(b) *Bees other than honeybees—(1) Adult bees.* All adult bees other than honeybees imported into the United States must be packaged to prevent the escape of any bees or bee pests.

(2) *Live brood.* For live brood of bees other than honeybees, packages:

- (i) Must be securely closed;
- (ii) May not include any soil, except for that which is present in nest cells that include developing, immature bees;
- (iii) May include only packing materials that were grown or produced in the exporting region and that meet all other applicable requirements of this chapter, such as the regulations pertaining to unmanufactured wood in part 319 of this chapter and the plant pest regulations in part 330 of this chapter; and
- (iv) May consist of brood housed in new or used bee boards, provided the bee boards meet all applicable requirements of this part.

§ 322.9 Mailed packages.

(a) If you import a package of honeybees, honeybee germ plasm, or bees other than honeybees under this subpart through the mail or through commercial express delivery, you must mark all sides of the outside of that package with the contents of the shipment, *i.e.*, "Live Bees," "Bee Germ Plasm," or "Live Bee Brood," and the name of the exporting region. The marking must be clearly visible using black letters at least 1 inch in height on a white background.

(b) If you import a package of honeybees, honeybee germ plasm, or bees other than honeybees under this subpart through commercial express delivery, you must provide an accurate description of the complete contents of the shipment, *i.e.*, "Live Bees," "Bee

Germ Plasm,” or “Live Bee Brood,” for the shipment’s delivery manifest entry.

(c) In addition to the export certificate required in §322.6, a package of honeybees, honeybee germ plasm, or bees other than honeybees imported under this subpart by commercial express delivery must be accompanied at the time of arrival in the United States by an invoice or packing list accurately indicating the complete contents of the shipment.

§ 322.10 Inspection; refusal of entry.

(a) Shipments of honeybees, honeybee germ plasm, and bees other than honeybees imported into the United States under this subpart will be inspected at the port of entry in the United States for:

- (1) Proper documentation (see §322.6);
- (2) Timely notice of arrival (see §322.7); and

(3) Adequate packaging (see §322.8).

(b) If, upon inspection, any shipment fails to meet the requirements of this part, that shipment will be refused entry into the United States. In accordance with §322.2(c), the inspector will offer you, or in your absence the shipper, the opportunity to immediately export any refused shipments. If you, or in your absence the shipper, decline to immediately export the shipment, we will destroy the shipment at your expense.

§ 322.11 Ports of entry.

Shipments of honeybees, honeybee germ plasm, and bees other than honeybees imported under this subpart may enter the United States only at a port of entry staffed by an APHIS inspector.²

§ 322.12 Risk assessment procedures for approving countries.

(a) The national government of the region wishing to export must request that we perform a risk assessment for the importation into the United States of honeybees, honeybee germ plasm, or

bees other than honeybees from that region.

(b) When we receive a request, we will evaluate the science-based risks associated with such importation. Our risk assessment will be based on information provided by the exporting region, information from topical scientific literature, and, if applicable, information we gain from a site visit to the exporting region. The risk assessment will include:

(1) Identification of all bee diseases, including fungi, bacteria, viruses, mycoplasmas, and protozoa, that occur in the exporting region but not in the United States or that are listed as significant for international trade by the Office International des Epizooties (OIE);

(2) Identification of all bee parasites, including mites, that occur in the exporting region but not in the United States or that are listed as significant for international trade by the OIE;

(3) Identification of all species and subspecies of honeybees that occur in the exporting region but not in the United States or that are listed as significant for international trade by the OIE, if applicable;

(4) Identification of all pests of bee culture, such as the small hive beetle, that occur in the exporting region but not in the United States or that are listed as significant for international trade by the OIE;

(5) Evaluation of the probability of establishment, including pathway, entry, colonization, and spread potentials, of any diseases, parasites, undesirable species or subspecies of honeybees, or pests identified in accordance with paragraphs (b)(1), (2), (3), or (4) of this section;

(6) Evaluation of the potential consequences of establishment, including economic, environmental, and perceived social and political effects, of each disease, parasite, undesirable species or subspecies of honeybees, or pest identified in accordance with paragraphs (b)(1), (2), (3), or (4) of this section; and

(7) Consideration of the effectiveness of the regulatory system of the exporting region to control bee diseases, parasites, undesirable species and subspecies of honeybees, and pests that

²To find out if a specific port is staffed by an APHIS inspector, or for a list of ports staffed by APHIS inspectors, contact Permit Unit, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1236; toll-free (877) 770-5990; fax (301) 734-8700.
