

NOTICE OF TOTAL SMALL BUSINESS SET-ASIDE (10-25-94)

(a) Definition. "Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the size standards in paragraph (b) below.

(b) Size Standards. (1) Nonmanufacturers. If this is a solicitation for offers to furnish supplies, a concern that submits an offer in its own name, but which proposes to furnish supplies that it did not itself manufacture, is deemed to be a small business when (i) its "number of employees," as defined in 13 CFR 121.407, does not exceed 500 persons; and (ii) it complies with paragraph (d)(1) below.

(2) Manufacturers and Providers of Services. If this is a solicitation for offers (i) to furnish supplies, and the offeror is the manufacturer, or (ii) for services, the offeror is deemed to be a small business when it complies with paragraph (d)(2) or (d)(3) below, as applicable, and when (checked block applies):

its "number of employees," as defined in 13 CFR 121.407, does not exceed _____ persons.

its "annual receipts," as defined in 13 CFR 121.402, do not exceed \$ _____.

The product classification used for determining the size standard in this paragraph (b) was:

Standard Industrial Classification (SIC) Code _____,

Title: _____

(c) General. Offers are solicited only from small business concerns. Offers received from concerns that are not small business concerns will be rejected. Any award resulting from this solicitation will be made to a small business concern.

(d) Agreements. (1) (i) Except as provided in subparagraph (ii) below, a manufacturer or regular dealer submitting an offer in its own name agrees to furnish, in performing the subcontract, only end products manufactured or produced by small business concerns inside the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of Pacific Islands, or the District of Columbia. However, this requirement does not apply in connection with construction or service subcontracts.

(ii) As authorized by Section 8(a)(17)(B)(iv) of the Small Business Act, the Small Business Administration has determined that for the classes of products listed below by Standard Industrial Classification (SIC) Code, there are no small business manufacturers or processors in the Federal market. If this procurement is for a product in a listed class, the determination by SBA waives the requirements in subparagraph (i) above that the offered end products be manufactured by small business concerns and that they be manufactured in the United States, its territories and possessions, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia. (Offerors are cautioned that the determination has no effect on requirements—such as those in the Buy American Act—external to the Small Business Act that concern domestic sources of supply.)

(2) If the subcontract is for services, by submission of an offer the offeror agrees that at least 50 percent of the cost of subcontract performance incurred for personnel shall be expended for employees of the offeror.

(3) If the subcontract is for supplies (other than a subcontract with a regular dealer in such supplies), by submission of an offer the offeror agrees to perform work for at least 50 percent of the cost of manufacturing the supplies, not including the cost of materials.
