

Biological Response Modifiers Advisory Committee
Meeting, #32 May 10, 2002

CBER Briefing Document - BIBLIOGRAPHY

1. Recombinant DNA Advisory Committee, Minutes of Meeting, December 6, 2001; www4.od.nih/oba/RAC/meeting.html
2. Gordon, J.W., Germline alteration by gene therapy: assessing and reducing the risks. *Molecular Medicine Today*. November 1998 468-470.
3. Masahiro, S., Ishikawa, A. and Kimura, M. Direct injection of foreign DNA into mouse testis as a possible in vivo gene transfer system via epididymal spermatozoa. *Molecular Reproduction and Development*. 2002; 61:49-56.
4. Arruda, V.R., Fields, P.A., Milner, R., Wainwright, L., DeMiguel, M.P., Donovan, P.J., Herzog, R.W., Nichols, T.C., Biegel, J.A., Mahmood, R., Dake, M., Huff, D., Flake, A.W., Couto, L., Kay, M.A., and High, K.A. Lack of germline transmission of vector sequences following systemic administration of recombinant AAV-2 vector in males. *Molecular Therapy*. 2001; 4(6) 586-592.
5. Favre, D., Provost, N., Blouin, V., Blanco, G., Chereil, Y., Salvetti, A., and Moullier, P. Immediate and long-term safety of recombinant adeno-associated virus injection into the nonhuman primate muscle. *Molecular Therapy*. 2001; 4(6): 559-566
