

**INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY, AUGUST 22, 2002 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was moderate in the Rocky Mountain, Eastern Great Basin, Northern Rockies and Northwest Areas, and light elsewhere. Nationally, 224 new fires were reported. Six of these became large fires, two in the Southern Area and one each in the Rocky Mountain, Northern Rockies, Southern California and Western Great Basin Areas. Three large fires were contained, one each in the Northern California, Northwest and Southern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, North Dakota, Oregon, Utah, Washington and Wyoming.

**NORTHWEST AREA LARGE FIRES:**

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. The National Fire Prevention and Education Team has been activated and is working in conjunction with the Northwest Multi-Agency Coordinating Group. An Area Command Team (Chesley) is assigned to manage large fires on the Umpqua National Forest. An Area Command Team (Mann) is assigned to manage large fires in southwest Oregon. An additional Area Command Team (Williams-Rhodes) has been ordered. The Oregon State Fire Marshall's Office is assisting Mann's Area Command Team with contingency planning and structure protection assessment.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between three Type 1 Incident Management Teams (Bateman, Frye, Vail) and the Oregon Department of Forestry is in place. The fire is burning in mixed conifer forest and brush, 26 miles southwest of Grants Pass, OR. Moderate fire behavior was observed. Burn out operations are underway above the south fork of the Chetco River. Crews are constructing indirect and direct attack fireline and patrolling. Residents in the upper Pistol River drainage, Illahe and Agness remain under an evacuation advisory. Wilderness Retreat, Gardner Ranch, Tolman Ranch, Agness and structures in the Pistol and Chetco River drainages are threatened; structure protection is in place.

APPLE, Umpqua National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is 21 miles east of Glide, OR. Higher relative humidity moderated fire behavior in heavy timber. Personnel successfully held the fire north of Highway 138 and the North Umpqua River. Crews are constructing indirect attack fireline along Panther Ridge and Twin Lakes Ridge in preparation for a burn out. Twenty homes and several outbuildings are threatened; structure protection is in place. Highway 138 is open with 24 hour metered traffic restrictions.

TILLER COMPLEX, Umpqua National Forest. Transfer of command is underway from Hart's Type 1 Incident Management Team to Melton's Type 1 Incident Management Team. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-

Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Moderate fire behavior was observed in grass, brush and timber. Crews are building indirect and direct attack fireline, burning out and mopping up. Sixty-seven homes are threatened; structure protection is in place.

SPOKANE COMPLEX, Northeast Washington State. A Washington Interagency Incident Management Team (Jennings/Perry) is assigned. This complex consists of the Spring Creek, Cooper and Nicholson fires and is 11 miles northwest of Spokane, WA. The Cooper fire has been controlled and the Nicholson fire is in patrol status. Mop-up is underway on the Spring Creek fire.

SIUSLAW RIVER, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is 18 miles west of Veneta, OR. Minimal fire activity was observed in Douglas fir, brush and untreated slash. Crews made good progress mopping up on all divisions.

DEER POINT, Wenatchee National Forest. This fire is burning seven miles northwest of Chelan, WA. Torching, short runs, creeping and smouldering were observed in sagebrush, ponderosa pine and lodgepole pine. Crews are monitoring fire behavior in the Grade Creek drainage, mopping up and patrolling.

QUARTZ MT. COMPLEX, Okanogan National Forest. A transfer of command from Johnson's Washington Interagency Incident Management Team to Cones' Fire Use Management Team will occur today. This complex is in the Pasayten Wilderness Area, northwest of Winthrop, WA. Minimal fire behavior was observed in lodgepole pine and subalpine fir.

LAVA, Lakeview District, Bureau of Land Management. This fire is in a Wilderness Study Area, 15 miles north-northwest of Christmas Valley, OR. Active fire behavior was observed in mountain mahogany, juniper, sagebrush and grass. Personnel patrolling and mopping up the south flank.

## **ROCKY MOUNTAIN AREA LARGE FIRES:**

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

**BATTLE CREEK**, Black Hills National Forest. A Type 1 Incident Management Team (Wood) is assigned. This fire is ten miles southwest of Rapid City, SD in ponderosa pine and grass. Fire behavior was moderate due to precipitation. Crews made excellent progress toward containment objectives. Six hundred residences and fifteen commercial properties remain threatened; structure protection is in place.

**MT. ZIRKEL COMPLEX**, Routt National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. The Burn Ridge fire is burning actively on both sides of the Continental Divide. Moderate fire behavior was observed in heavy dead and down spruce, lodgepole pine and fir on the Hinman fire. Crews are constructing fireline and holding on the west flank in preparation for a burn out operation. Structure protection is in place in North Park and in the Seed House corridor.

**GREEN CREEK**, Routt National Forest. A Type 2 Incident Management Team (Hartman) is assigned. This fire is 15 miles southeast of Steamboat Springs, CO. Precipitation resulted in minimal fire activity in spruce, fir and lodgepole pine. Crews and dozers are constructing fireline with support from aerial resources. Thirteen homes and a commercial property at Lake Agnes are threatened; structure protection is in place.

**BIG FISH**, White River National Forest. A Fire Use Management Team (Cook) is assigned. The Team is also managing the Lost Lakes fire. This lightning-caused Wildland Fire Use Incident, which started on July 19<sup>th</sup>, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Smouldering was observed in heavy dead and down spruce, fir and aspen. Structure protection is in place at Rio Blanco Guest Ranch and Ripple Creek Lodge.

**SHAFF #2**, San Juan National Forest. This fire is four miles north of Cascade, CO. Observed fire behavior included smouldering and creeping in mixed conifer forest. Crews are building fireline in Lime Creek with support from aerial resources. Steep, rocky terrain and limited access are hampering containment efforts. Five outbuildings are threatened; structure protection is in place.

**LOST LAKES**, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 20 miles west of Yampa, CO. The fire is being managed for resource benefit and is in monitor status. Light rain minimized fire activity in bug kill spruce and fir.

**ARAPAHOE**, Rawlins District, Bureau of Land Management. This fire is 13 miles southwest of Jeffrey City, WY. Rapid rates of spread were observed in sagebrush, grass, pinyon pine and juniper. Engine crews are building containment line and burning out. Two commercial properties are threatened; structure protection is in place.

### NORTHERN ROCKIES AREA LARGE FIRES:

KELLY CREEK, Nez Perce National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is burning in the Salmon River Breaks, 11 miles east of Riggins, ID. Precipitation moderated fire behavior in ponderosa pine, Douglas fir and sagebrush. Crews are improving and mopping up fireline on the west flank. Fireline construction has been initiated on the east flank in preparation for a burn out. Two cabins are threatened, structure protection is in place.

HOPE 44, Pend Oreille Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is six miles northwest of Hope, ID. Higher relative humidity moderated fire behavior in ponderosa pine, grass and logging slash. Crews completed fireline construction around the main fire and numerous spot fires. Structure protection remains in place at several residences.

SHEEP CREEK, Beaverhead-Deerlodge National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 16 miles west of Wisdom, MT. Minimal fire activity was observed in heavy dead and down lodgepole pine, Douglas fir and subalpine fir. Crews are constructing and improving fireline in preparation for a burn out operation. Four residences are threatened; structure protection is in place.

SWET POINT, Bitterroot National Forest. This lightning-caused Wildland Fire Use Incident, which started on August 4<sup>th</sup>, is southwest of Sula, MT. The fire is in monitor status and is being managed for resource benefit. This will be the last report unless significant activity occurs.

**EASTERN GREAT BASIN AREA LARGE FIRES:**

GARDER, Vernal Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Brunner) is assigned. This fire is 21 miles southwest of Duchesne, UT. Minimal fire activity was observed in lodgepole pine, aspen and Douglas fir. Crews are constructing direct attack fireline on the east and west flanks. Structure protection is in place in Argyle Canyon.

FRANK CHURCH COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Zimmerman) is assigned. This complex, consisting of the Parker Mountain, Little Horse, Little Soldier and Big Hill fires, is 30 miles northwest of Salmon, ID. Minimal fire activity was observed in subalpine fir and lodgepole pine. Structure protection is in place at Gattin Ranch.

EAGLE SPRINGS, Sawtooth National Forest. This fire is burning 29 miles south of Twin Falls, ID in lodgepole pine, grass and sagebrush. Crews are constructing direct attack fireline and mopping up. Nine residences and two outbuildings are threatened; structure protection is in place.

**SOUTHERN CALIFORNIA AREA LARGE FIRES:**

MCNALLY, Sequoia and Inyo National Forests. A Type 1 Incident Management Team (Raley) is assigned. This fire is nine miles north of Kernville, CA. Moderate fire behavior was observed in heavy brush, mixed conifer forest and fir. Burn out operations are underway near Sherman Peak. Crews are constructing direct and indirect attack fireline on the north and northeast flanks. A revised evaluation of lost structures reports three residences, five commercial properties and six outbuildings confirmed lost to date. Twenty-three residences remain threatened; structure protection is in place.

**SOUTHWEST AREA LARGE FIRES:**

PACK RAT, Coconino National Forest. This fire is eight miles east of Pine, AZ. Increased fire behavior was observed in mixed conifer forest and chaparral. Crews are constructing direct and indirect attack fireline on the east and west flanks in preparation for a burn out operation.

WATER, Gila National Forest. This fire, burning in pinyon pine, juniper and grass, is ten miles northwest of Poverty Creek, NM. No new information was reported.

CASTLE, Gila National Forest. This fire is ten miles northwest of Poverty Creek, NM in pinyon pine, juniper and grass. No new information was reported.

### ALASKA AREA LARGE FIRES:

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is 29 miles northeast of Holycross, AK in black spruce, tussock tundra and hardwood forest. Running and torching were observed on the northwest and southeast perimeters. Helitack crews are providing structure protection.

## SOUTHERN AREA LARGE FIRES:

CAMDEN, Texas State Forest Service. This fire is 80 miles northeast of Houston, TX. Moderate fire behavior with occasional torching was observed in a pine plantation. Dozers completed fireline construction and personnel are mopping up.

PINELAND, Texas State Forest Service. This fire is 150 miles northeast of Houston, TX. Minimal fire activity was observed in a pine plantation. The fire is in monitor status.

PINELAND	TX	TXS	250	50	8/22	0	0	0	0	0	NR

## OUTLOOK:

Low pressure over the Northwest Area will bring partly cloudy skies with scattered showers and thunderstorms east of the Cascade Mountains. High temperatures will be near 90 in southwestern Oregon, in the 60's and 70's in the mountains, and in the 70's and 80's in the valleys. Minimum relative humidity will range from 15 to 30 percent in southeastern Oregon, near 25 percent in southwestern Oregon, 25 to 35 percent east of the Cascade Mountains and above 35 percent elsewhere. Winds will be west to northwest, gusting to 30 mph near the Columbia River Gorge.

The Rocky Mountain Area can expect widely scattered wet thunderstorms. High temperatures will be in the 60's and 70's in the mountains and in the 70's and 80's at lower elevations. Minimum relative humidity will range from 35 to 45 percent in the mountains, 15 to 23 percent in northwestern Colorado and southwestern Wyoming, and 20 to 30 percent elsewhere. Winds will be southwest at 8 to 16 mph west of the Continental Divide, and east at 8 to 16 mph in the remainder of the area.

The Northern Rockies Area can expect mostly cloudy skies with scattered showers and thunderstorms. High temperatures will be 70 to 85. Minimum relative humidity will be 50 to 60 percent in North Dakota and 25 to 30 percent elsewhere. Winds will be east to southeast at 5 to 15 mph.

A southwest flow over the Eastern Great Basin Area will bring mostly sunny skies with isolated thunderstorms in the mountains. High temperatures will be 68 to 80 in the mountains and 84 to 100 in the valleys. Minimum relative humidity will range from 7 to 17 percent at lower elevations and 12 to 27 percent at higher elevations. Winds will be southwest at 10 to 25 mph in western Utah and eastern Idaho with lighter winds expected elsewhere.

The Southern California Area can expect sunny skies with morning low clouds and fog near the coast. High temperatures will be upper 60's to upper 70's along the coast, in the 70's to near 90 in the mountains and inland, and in the 90's to 108 in the deserts. Minimum relative humidity will range from 5 to 15 percent in the Sierra Nevada Mountains and inland deserts, 10 to 25 percent in the coastal mountains and southern deserts, and 30 to 50 percent near the coast. Winds will be

west to southwest at 12 to 25 mph in the high deserts and Sierra Nevada Mountains, and west to northwest at 10 to 20 mph over the coastal mountains.

Partly to mostly cloudy skies are forecast for the Alaska Area with showers expected south of the Alaska Range and in the eastern interior. High temperatures will be in the 50's and minimum relative humidity will be above 30 percent. Winds will be variable at 5 to 15 mph.

The Western Great Basin Area can expect mostly sunny skies with a slight chance of thunderstorms in northern Nevada. High temperatures will be mid 70's to 80's in the north and 95 to 100 in the south. Minimum relative humidity will be in the single digits, teens and 20 percent range. Winds will be northwest to northeast at 5 to 15 mph.

Low pressure over the Northern California Area will bring partly to mostly sunny skies. High temperatures will be in the 60's along the coast and near 90 inland. Minimum relative humidity will range from 12 to 22 percent. Winds will be south to west at 5 to 15 mph, gusting to 20 mph.

A southeast flow over the Southern Area will bring mostly sunny skies with a chance of isolated showers and thunderstorms from Louisiana northeast to Virginia. High temperatures will be in the 80's and 90's. Minimum relative humidity will be in the 30 percent range in Oklahoma and Texas, and above 45 percent elsewhere. Winds will be south to southeast at 5 to 20 mph.
