2008 Federal Human Capital Survey United States International Boundary & Water Commission

1. Interpretation of Results:

The 2008 agency results were similar to the 2007 survey results. The agency scored high (average of 60% favorable - Strongly Agree, Agree, Very Satisfied, Satisfied) on a majority of the items in the Personal Work Experiences and Recruitment, Development, & Retention sections of the survey. A majority of those that responded to the survey seem satisfied with their overall work experiences with the agency.

Employee seem to be generally satisfied with benefits available to them (average of 50% showed a positive response only 19% dissatisfied and the remainder are neutral or had no basis to judge)

Leadership shows that it has slightly declined (32% compared to 48% Strongly Agree, Agree, Very Satisfied) when it came to respect for senior leaders. Employees seem to be declining in respect for the agency's senior leaders and feel that they need to maintain higher standards of honesty and integrity.

Performance culture seems to be an area that employees are still dissatisfied with (only an average of 37% favorable). Performance culture continues to be an ongoing challenge. With the adoption of the new Performance Management and Recognitions System (PMRS) we are we are confident that this area can improve.

- **2.** How the survey was conducted: The survey was conducted by the Office of Personnel Management (OPM) through an online survey.
- **3. Description of sample:** All employees who have been with the agency one year or more from the date the survey was administered, 210 employees, were surveyed.
- **4. Survey items and response choices:** See the tables on following pages.
- **5. Number of employees surveyed, number responded, and representativeness of respondents:** Of the 210 employees surveyed, 89 responded, for a 42% response rate. These respondents are representative of the population.
