DA 04-744
March 19, 2004

CERTAIN AM AUCTION NO. 84 FILING WINDOW APPLICATIONS ARE DETERMINED INELIGIBLE FOR AUCTION PROCESSING

Report No. AUC-04-84-B (Auction No. 84)

The Media Bureau announces that certain proposals for new and modified AM broadcast stations filed in AM Auction No. 84 (“Auction 84”) failed to comply with the Commission’s rules and procedures for AM auction filings, and are thus ineligible for further processing and participation in Auction 84.¹

On November 6, 2003, the Media Bureau and the Wireless Telecommunications Bureau (collectively the “Bureaus”) released a public notice announcing a January 26-30, 2004, AM auction filing window for applications for new AM stations and major modifications to authorized AM facilities.² The *Auction 84 Filing Window Public Notice* required that entities interested in participating electronically file a timely and complete FCC Form 175 (short-form application) and FCC Form 301 Section I and the Tech Box from Section III-A during the filing window.³ Failure to file all required information precludes that entity’s participation in the AM auction proceeding.⁴

The Commission received numerous filings that did not comply with the fundamental requirements set forth in the *Auction 84 Filing Window Public Notice*, i.e., were timely filed but were not complete. Accordingly, these applications, listed below, are hereby deemed ineligible for further processing for the specific reasons noted.

¹ See *Implementation of Section 309(j) of the Communications Act-Competitive Bidding for Commercial Broadcast and Instructional Television Fixed Services Licenses* (“*Broadcast First Report and Order*”), 13 FCC Rcd 15920, 15978-80 (1998), *recon denied*, 14 FCC Rcd 8724 (1999), *modified*, 14 FCC Rcd 12541 (1999).

² See *Public Notice*, “AM New Station and Major Modification Auction Filing Window; Minor Modification Application Freeze,” 18 FCC Rcd 23016 (MB/WTB 2003) (“*Auction 84 Filing Window Public Notice*”).

³ See *Broadcast First Report and Order*, *supra* note 1, 13 FCC Rcd at 15975 (to determine which AM applications are mutually exclusive, applicants are required to submit pertinent engineering data from FCC Form 301); 47 C.F.R. § 73.3571(h)(1)(ii).

⁴ See *Auction 84 Filing Window Public Notice*, 18 FCC Rcd at 23017.

Applicants are reminded that the collusion prohibition set forth in 47 C.F.R. § 1.2105(c) applies to Auction No. 84. To ensure the competitiveness and integrity of the auction process, the anti-collusion rules, effective at the Form 175 filing deadline, prohibit competing applicants from communicating with each other during the auction about bids, bidding strategies or settlements.⁵

All timely and complete FCC Form 301 Tech Box submissions are now available for public access in the Media Bureau’s Consolidated Data Base System (“CDBS”). We encourage applicants to review the data and to begin preparation of the complete FCC Form 301 in anticipation of a forthcoming singleton public notice.⁶

A. Failure to file electronically a short-form application (FCC Form 175):

E. Failure to reference properly applicant’s Form 301 window-filed application on FCC Form 175.

The *Auction 84 Filing Window Public Notice* directed each applicant to identify its respective technical proposal(s) by listing all CDBS-assigned file numbers on Exhibit F to Form 175. The *Auction 84 Filing Window Public Notice* stated further, “An applicant’s failure to reference the Form 301 window-filed application file number(s) on its Form 175 will result in dismissal of that Form 301 application.”⁷

⁷ See 18 FCC Rcd at 23017.
