

PLANETARY GEODYNAMICS LAB (CODE 698)

Publications for 2004-2005

(as of 10/28/2005)

(arranged alphabetically by first Code 698 author (**bold**), most recent first)

Bills, B.G., K.D. Adams, and S.G. Wesnousky, Viscosity structure of the crust and upper mantle in western Nevada from isostatic rebound patterns of Lake Lahontan shorelines, submitted to *J. Geophys. Res. Solid Earth.*, 2005.

Munk, W.H., and **B.G. Bills**, Tides and the climate: some speculations, submitted to *J. Phys. Ocean.*, 2005.

Bills, B.G., Variations in the rotation rate of Venus due to orbital eccentricity modulation of solar tidal torques, in press, *J. Geophys. Res. Planets*, 2005.

Fricker, H.A., A.A. Borsa, J.B. Minster, C. Carabajal, K. Quinn, and **B.G. Bills**, Assessment of ICESat performance at the Salar de Uyuni, Bolivia, *Geophys. Res. Lett.*, 32, L21S06, 2005.

B.G. Bills, Free and forced obliquities of the Galilean satellites of Jupiter, *Icarus*, 175, 233-247, 2005.

B.G. Bills, and R.L. Comstock, Spatial and temporal patterns of solar eclipses by Phobos on Mars, *J. Geophys. Res. Planets*, 110, E04004, 2005.

B.G. Bills, and R.L. Comstock, Forced obliquity variations of Mercury, *J. Geophys. Res. Planets*, 110, E04006.

Bills, B.G., G.A. Neumann, D.E. Smith, and M.T. Zuber, Improved estimate of tidal dissipation within Mars from MOLA observations of the shadow of Phobos, *J. Geophys. Res. Planets*, 110, E07004.

Egbert, G.D., R.D. Ray, and **B.G. Bills**, Numerical modeling of the global semidiurnal tide in the present day and in the last glacial maximum, *J. Geophys. Res. Oceans*, 109, C03003, 2004.

Frey, H.V., Impact constraints on the age and origin of the crustal dichotomy of Mars, submitted to *Geophys. Res. Lett.*, 2005.

Frey, H.V., Impact constraints on, and a chronology for, major events in early Mars history, in press, *J. Geophys. Res. (Planets)*, 2005.

Solomon, S.C., O. Aharonson, J.M. Aurnou, W.B. Banerdt, M.H. Carr, A.J. Dombard, **H.V. Frey**, M.P. Golombek, S.A. Hauck II, J.H. Head III, B.M. Jakosky, C.L. Johnson, P.J. McGovern, G.A. Neumann, R.J. Phillips, D.E. Smith and M.T. Zuber, New perspectives on ancient Mars, *Science* 307, 1214-1220, 2005.

Buczowski, D.L., **H.V. Frey, J.H. Roark** and G.E. McGill, Buried impact craters, a topographic analysis of quasi-circular depressions, Utopia Basin, Mars, *J. Geophys. Res.* **110**, E03007, doi:10.1029/2004JE002324, 2005.

Carabajal, C.C., and **D.J. Harding**, SRTM C-Band and ICESat Laser Altimetry Elevation Comparisons as a Function of Tree Cover and Relief, submitted to *Am. Soc. Photogram. Rem. Sens.*, SRTM Topical Issue, 2005.

Carabajal, C.C. and **D.J. Harding**, ICESat Validation of Shuttle Radar Topography Mission C-band Digital Elevation Models, submitted to *Geophys. Res. Lett.*, ICESat Special Issue, 2005.

Lefsky, M.A., **D.J. Harding**, W.B. Cohen, M. Keller, and C.C. Carabajal, Estimating forest canopy height from Geoscience Laser Altimeter System waveforms and Shuttle Radar Topography Mission digital elevation models, submitted to *Geophys. Res. Lett.*, ICESat Special Issue, 2005.

Harding, D.J., and C.C. Carabajal, ICESat Waveform Measurements of Within-footprint Topographic Relief and Vegetation Vertical Structure, in press, *Geophys. Res. Lett.*, ICESat Special Issue, 2005.

Birkett, C.M., D. Alsdorf and **D.J. Harding**, Hydrological applications of remote sensing: Surface state - river and water body stage, width and gradient from satellite radar altimetry, interferometric SAR, and laser altimetry, in press, in *Encyclopedia of Hydrological Sciences: Remote Sensing*, John Wiley and Sons, 2005.

Johnson, S.Y., **D.J. Harding** and 9 others, Evidence for Late Holocene Earthquakes on the Utsalady Point Fault, Northern Puget Lowland, Washington, in press, *Bulletin of the Seismological Society of America*, 2005.

Parker, G.G., **D.J. Harding** and M.L. Berger, A portable lidar system for rapid determination of forest canopy structure, *Journal of Applied Ecology*, **41**: 755-767, 2004.

Hurford, T.A., R.A. Beyer, B. Schmidt, B. Preblich, A.R. Sarid, R. Greenberg, Flexure of Europa's lithosphere due to ridge-loading, in press, *Icarus*, 2005.

Kim, H. R., R.R.B. von Frese, A. V. Golynsky, **P. T. Taylor** and **J. W. Kim**, "Crustal magnetization of Maud Rise in Antarctic and Southwest Indian Oceans," *Earth, Planets and Space*, **57**, pp.717 - 726, 2005.

Kim, H. R., L. R. Gaya-Pique, R.R.B. von Frese, **P. T. Taylor** and **J. W. Kim**, "CHAMP magnetic anomalies of the Antarctic Crust," in *Earth Observation with CHAMP: Results from Three Years in Orbit*, edited by C. Reigber, H. Lühr, P. Schwintzer and J. Wickert, Heidelberg, pp. 287-292, 2004.

Kim, H. R., R.R.B. von Frese, **P. T. Taylor,** A. Golynsky and **J. W. Kim,** "Application of satellite magnetic observations for estimating near-surface magnetic anomalies", *Earth, Planets and Space*, 56, 955-966, 2004.

von Frese, R.R.B., **H.R. Kim, P.T. Taylor,** and M.F. Asgharzadeh, Reliability of CHAMP Anomaly Continuation, in *Earth Observation with CHAMP Results from Three Years in Orbit*, Eds., C. Reigber, H. Lühr, P. Schwintzer and J. Wickert, vol. XIII, 287-292, Springer, 2005.

Leftwich, T, von Frese, R., Potts, L., **H.R. Kim,** D. R. Roman, **Taylor, P.T.** and M. Barton, Crustal modeling of the North Atlantic from spectrally correlated free-air terrain gravity, *Journal of Geodynamics*, 40, 23-50, 2005.

Kim, J.W., J.S. Hwang, R.R.B. von Frese, **H.R. Kim,** and S.H. Lee, Geomagnetic Field Modeling from Satellite Attitude Control Magnetometer Measurements, submitted to *J. Geophys. Res.*, 2005.

Park, C.H., **J.W. Kim,** N. Isezaki, D.R. Roman, and R.R.B. von Frese, Geomagnetic Crustal Interpretation of the Ulleung Basin in the East Sea (Japan Sea) from Enhanced Gravity mapping, submitted to *Marine Geophys. Res.*, 2005.

Kim, J.W., D.R. Roman, and Y. Kim, Enhanced Free-air Gravity Anomalies by Satellite Radar Altimetry, submitted to *Polar Research*, 2005.

Kim, J.W., Estimation of Free-air Gravity Anomaly from Dense Radar Altimeter Data in the High Latitude Region, submitted to *J. Applied Geophys.*, 2005.

Won, J.S., **J.W. Kim,** and K.D. Min, Spectral correlation analysis of complex data, *Optik*, v115 (8), p.375-379, 2004.

Liu, H. S., Comment on "Mesoplates: Resolving a Decades-Old Controversy", *EOS, Transactions of the American Geophysical Union*, 85 (27), 6 July 2004, 260-261, 2004.

Liu, H. S., Rupture dynamics of the great 2004 Sumatra-Andaman tsunamigenic earthquake, submitted to *Geophys. Res. Lett.*, 2005.

Lowman, P.D., Jr., Field trip to the Moon, *The Science Teacher*, 71,26-32, 2004.

Lowman, P.D., Jr., LSPECS: A proposed robotic astronomy mission to the lunar south polar regions, *Proceedings, International Lunar Conference 2003*, v. 108, Science and Technology Series, American Astronautical Society, p. 71-75, 2004.

Mest, S.C., D.A. Crown, and W. Harbert, Watershed modeling in the Terra Tyrhena region of Mars, submitted to *J. Geophys. Res.*, 2005.

Mest, S.C., and D.A. Crown, Millochau crater, Mars: Infilling and erosion of an ancient highland impact crater, *Icarus*, 175, 335-359, 2005.

Mest, S.C., and D.A. Crown, 2005, *Geologic Map of MTM -20272 and -25272 Quadrangles, Terra Tyrrhena Region of Mars*, U.S. Geological Survey, accepted for publication.

Muller, J.R., A. Aydin, and T.J. Wright, Using an Elastic Dislocation Model to Investigate Static Coulomb Stress Change Scenarios for Earthquake Ruptures in the Eastern Marmara Sea Region, Turkey, in press, *Geological Society of London Special Publication – Analogue and Numerical Modelling of Crustal-Scale Processes*, 2005.

Muller, J.R. and A. Aydin, Using Geomechanical Modeling to Constrain the Fault Geometry within the Marmara Sea, Turkey: *J. Geophys. Res.* 110, B03407, doi:10.1029/2004JB003226, 2005.

Muller, J.R. and A. Aydin, Rupture Progression Along Discontinuous Oblique Fault Sets: Implications for the Karadere Rupture Segment of the 1999 Izmit Earthquake, and Future Rupture in the Marmara Sea, *Tectonophysics (Special Issue)*, v. 391, p. 283-302, 2004.

Fielding, E.J., T.J. Wright, **J.R. Muller**, B.E. Parsons, and R. Walker, Aseismic deformation of a fold-and-thrust belt imaged by synthetic aperture radar interferometry near Shahdad, southeast Iran, *Geology*, v. 32, p. 577-580, 2004.

Langlais, B. and **M. Purucker**, A polar magnetic paleopole for Apollinaris Patera, Mars, submitted to *Planetary and Space Science*, 2005.

Mandea, M., and **M. Purucker**, Observing, Modeling, and Interpreting Magnetic Fields of the Solid Earth, *Surveys in Geophysics*, <http://dx.doi.org/10.1007/s10712-005-3857-x>, 2005

Fox Maule, C., **M. Purucker**, N. Olsen and K. Mosegaard, Heat flux anomalies in Antarctica revealed by satellite magnetic data, *Science (and Science Express)*, 309, 464-467, July 15, 2005 (and June 9, 2005).

Whaler, K. and **M. A. Purucker**, A spatially continuous magnetization model for Mars, *J. Geophys. Res.*, Vol. 110, No. E9, E09001, <http://dx.doi.org/10.1029/2004JE002393>, 02 September 2005.

Purucker, M. and T. Ishihara, Magnetic images of the Sumatran region crust, *EOS, Transactions of the American Geophysical Union*, 86 (10), 8 March 2005, 101-102.

Chassefiere, E., **M. Purucker**, and 43 co-authors, DYNAMO: A Mars upper atmosphere package for investigating solar wind interaction and escape processes, and mapping Martian fields, *Advances in Space Research*, 33, 2228-2235, 2004.

Fox Maule, C., **M. Purucker**, and N. Olsen, Magnetic crustal thickness in Greenland from CHAMP and Oersted data, in *Earth Observation with CHAMP: Results from Three Years in Orbit*, (Reigber, C., et al., eds), 255-261, published Sept 21, 2004.

Langlais, B., **M. Purucker**, and M. Manda, Crustal magnetic field of Mars, *J. Geophys. Res. (Planets)*, 109(E2), E02008, doi:10.1029/2003JE002048, 2004.

Rubincam, D.P., Saturn's Rings, the Yarkovsky Effects, and the ring of fire, submitted to *Icarus*, 2005.

Rubincam, D.P., Black body temperature, orbital elements, the Milankovitch precession index, and Seversmith psychroterms, *Theor. Appl. Climatol.*, 79, 111-131, 2004.

Sabaka, T.J. and N. Olsen, Enhancing comprehensive inversions using the Swarm constellation, in press, *Earth Planets Space*, 2005.

Olsen, N., R. Haagmans, **T. J. Sabaka**, A. Kuvshinov, S. Maus, **M. E. Purucker**, M. Rother, V. Lesur, and M. Manda, The Swarm End-To-End Mission Simulator Study: Separation of the Various Contributions to Earth's Magnetic Field Using Synthetic Data, in press, *Earth Planets Space*, 2005.

Olsen, N., F. Lowes, and **T. J. Sabaka**, Ionospheric and Induced Field Leakage in Geomagnetic Field Models, and Derivation of Candidate Models for DGRF 1995 and DGRF 2000, in press, *Earth Planets Space*, 2005.

Olsen, N., **T. J. Sabaka**, and F. Lowes, New Parameterization of External and Induced Fields in Geomagnetic Field Modeling, and a Candidate Model for IGRF 2005, in press, *Earth Planets Space*, 2005.

Kuvshinov, A., **T. J. Sabaka**, and N. Olsen, 3-D electromagnetic induction studies using the Swarm constellation: Mapping conductivity anomalies in the Earth's mantle, in press, *Earth Planets Space*, 2005.

Sabaka, T.J., Olsen, N., and **M.E. Purucker**, Extending comprehensive models of the Earth's magnetic field with Oersted and CHAMP data, *Geophys. J. Int.*, 159, 521-547, doi:10.1111/j.1365-246X.2004.02421.x., 2004.

Sanchez, B.V., D. D. Rowlands, R. M. Haberle and J. Schaeffer, Variations of Mars Gravitational Field Based on the NASA Ames General Circulation Model, submitted to *J. Geophys. Res. (Planets)*, 2005.

Sanchez, B.V., R. M. Haberle and J. Schaeffer, Atmospheric Rotational Effects on Mars Based on the NASA Ames General Circulation Model: Angular momentum approach, *J. Geophys. Res.* 109, NO. E08005, doi:10.1029/2004JE002254, 2004.

Sauber, J., G. Carver, **S. Cohen**, and R. King, Crustal deformation and the seismic cycle across the Kodiak Islands, Alaska, in press, *J. Geophys. Res.*, 2005.

Sauber, J., B. Molnia, C. Carabajal, S. Luthcke, and R. Muskett, Ice elevations and surface change on the Malaspina Glacier, Alaska, *Geophys. Res. Lett.* 32, L23S01, doi:10.1029/2005GL023943, 2005.

Sauber, J., and B. Molnia, Glacier ice mass fluctuations and fault instability in tectonically active southern Alaska, *Global and Planetary Change, Topical Volume "Ice Sheets and Neotectonics"*, 42, 279-293, 2004.

Ouzounov D., Bryant, N., Logan, T. Pulinets, S. and **Taylor, P.** Satellite thermal IR phenomena associated with some of the major earthquakes in 1999-2004, in press, *Physics and Chemistry of the Earth*, 2005.

Ouzounov D., Defu, L. Chun, K., and **Taylor, P.** The outgoing long wave radiation variability prior to the major earthquake by analyzing IR satellite data, submitted to *Tectonophysics*, 2005.

Kis, K.I., **Taylor, P.T.**, Wittmann G., Kim, H.R., Toronyi, B., Mayer-Gürr, T. Bayesian inferences in satellite gravity inversion, *Acta Geod. Geoph. Hung.*, 40, 161-170, 2005.

Taylor, P.T. and six others, Effect of Varying Crustal Thickness on CHAMP Geopotential Data: in *Earth Observation with CHAMP Results from Three Years in Orbit*, Eds., C. Reigber, H. Lühr, P. Schwintzer and J. Wickert, vol. XIII, 279-285, Springer, 2005.

Frawley, J.J. and **P.T. Taylor**, Paleo-pole positions from martian magnetic anomaly data, *Icarus*, 172, 316-327, 2004.

Voorhies, C. V., A geomagnetic estimate of mean paleointensity, submitted to *J. Geophys. Res.*, 2005.

Voorhies, C.V., Narrow-scale flow and a weak field by the top of Earth's core: Evidence from Ørsted, Magsat, and secular variation, *J. Geophys. Res.*, 109, B3, B03106, 10.1029/2003JB002833, 2004.
