

§ 385.315 Where will the safety audit be conducted?

The safety audit will generally be conducted at the new entrant's business premises.

§ 385.317 Will a safety audit result in a safety fitness determination by the FMCSA?

A safety audit will not result in a safety fitness determination. Safety fitness determinations follow completion of a compliance review.

§ 385.319 What happens after the completion of the safety audit?

(a) Upon the completion of the safety audit, the auditor will review the findings with the new entrant.

(b) If the FMCSA determines that the safety audit discloses that the new entrant has adequate basic safety management controls, the FMCSA will provide the new entrant written notice as soon as practicable, but not later than 45 days after the completion of the safety audit, that it has adequate basic safety management controls. The new entrant's safety performance will continue to be closely monitored for the remainder of the 18-month period of new entrant registration.

(c) If the FMCSA determines that the findings of the safety audit disclose that the new entrant's basic safety management controls are inadequate, it will provide the new entrant written notice, as soon as practicable, but not later than 45 days after the completion of the safety audit, that its USDOT new entrant registration will be revoked and its operations placed out-of-service unless it takes the actions specified in the notice to remedy its safety management practices within:

(1) 45 days of the date of the notice if the new entrant transports passengers in a CMV designed or used to transport 16 or more passengers, including the driver, or transports hazardous materials requiring placarding; or

(2) 60 days of the date of the notice for all other new entrants.

§ 385.321 What failures of safety management practices disclosed by the safety audit will result in a notice to a new entrant that its DOT new entrant registration will be revoked?

The failures of safety management practices consist of a lack of basic safety management controls as described in Appendix A of this part and will result in a notice to a new entrant that its DOT new entrant registration will be revoked.

§ 385.323 May the FMCSA extend the period under § 385.319(c) for a new entrant to take corrective action to remedy its safety management practices?

(a) If a new entrant that transports passengers in a CMV designed or used to transport 16 or more passengers, including the driver, or transports hazardous materials in quantities requiring placarding, has submitted evidence that corrective actions have been taken pursuant to § 385.319(c) and the FMCSA cannot make a determination regarding the adequacy of the corrective actions within the 45 day period, the period may be extended for up to 10 days at the discretion of the FMCSA.

(b) The FMCSA may extend the 60-day period in § 385.319(c)(2), for up to an additional 60 days provided FMCSA determines that the new entrant is making a good faith effort to remedy its safety management practices.

§ 385.325 What happens after a new entrant has been notified under § 385.319(c) to take corrective action to remedy its safety management practices?

(a) If the new entrant provides evidence of corrective action acceptable to the FMCSA within the time period provided in § 385.319(c), including any extension of that period authorized under § 385.323, the FMCSA will provide written notification to the new entrant that its DOT new entrant registration will not be revoked and it may continue operations.

§ 385.327

49 CFR Ch. III (10–1–03 Edition)

(b) If a new entrant, after being notified that it is required to take corrective action to improve its safety management practices, fails to submit a written response demonstrating corrective action acceptable to FMCSA within the time specified in § 385.319(c), including any extension of that period authorized under § 385.323, the FMCSA will revoke its new entrant registration and issue an out-of-service order effective on:

(1) Day 46 from the date of notification if the new entrant transports passengers in a CMV designed to transport 16 or more passengers, including the driver, or transports hazardous materials in quantities requiring placarding; or

(2) Day 61 from the date of notification for all other new entrants; or

(3) If an extension has been granted under § 385.323, the day following the expiration of the extension date.

(c) The new entrant may not operate in interstate commerce on or after the effective date of the out-of-service order.

§ 385.327 What happens when a new entrant receives a notice under § 385.319(c) that its new entrant registration will be revoked and it believes the FMCSA made an error in its determination?

(a) If a new entrant receives a revocation notice, it may request the FMCSA to conduct an administrative review if it believes the FMCSA has committed an error in determining that its basic safety management controls were inadequate.

(1) The request must be made to the Field Administrator of the appropriate FMCSA Service Center.

(2) The request must explain the error the new entrant believes the FMCSA committed in its determination.

(3) The request must include a list of all factual and procedural issues in dispute, and any information or documents that support the new entrant's argument.

(b) The new entrant should submit its request no later than 15 days from the date of the notice of the inadequacy of its basic safety management controls. Submitting the request within 15 days will allow the FMCSA to

issue a written decision before the prohibitions outlined in § 385.319(c) take effect. Failure to petition within this 15-day period may prevent the FMCSA from issuing a final decision before the prohibitions take effect.

(c) The FMCSA may request that the new entrant submit additional data and attend a conference to discuss the issue(s) in dispute. If the new entrant does not attend the conference, or does not submit the requested data, the FMCSA may dismiss the new entrant's request for review.

(d) The FMCSA will complete its review and notify the new entrant in writing of its decision within 30 days after receiving a request for review from a hazardous materials or passenger new entrant and within 45 days from any other new entrant.

(e) A new entrant must make a request for an administrative review within:

(1) 90 days of the date when it was initially notified under § 385.319(c) that its basic safety management controls were inadequate; or

(2) 90 days after it was notified that its corrective action under § 385.319(c) was insufficient and its basic safety management controls remain inadequate.

(f) The Field Administrator's decision constitutes the final agency action.

(g) Notwithstanding this subpart, a new entrant is subject to the suspension and revocation provisions of 49 U.S.C. 13905 for violations of DOT regulations governing motor carrier operations.

§ 385.329 May a new entrant that has had its U.S. DOT registration revoked and its operations placed out of service (OOS) reapply?

(a) A new entrant whose U.S. DOT registration has been revoked and whose operations have been placed OOS by the FMCSA may reapply under § 385.301 no sooner than 30 days after the date of revocation.

(b) The motor carrier will be required to initiate the process from the beginning, and will be required to demonstrate that it has corrected the deficiencies that resulted in revocation of
