# APPENDIX B: SUMMARY OF TEAM ANALYSIS AND RECOMMENDATIONS

#### Criteria Based Evaluation Method – Team Results

The criteria based evaluation method was one of two independent methods used to evaluate the leadership programs/curricula. During the first meeting, the team was divided into 3 sub teams. Each sub team was assigned to evaluate a specific group of leadership programs/curricula. The sub teams and assigned group of leadership programs/curricula are listed below. The final team results for individual leadership programs/curricula begin on page B-3.

#### **Team Assignments**

Team 1: Donna Williams and Tom Scott

#### Programs/Curricula

Preparing APHIS Team Leaders (PAT)
Staff Officer Training (SOT)
Fundamentals of APHIS Human Resource Management (FAHRM)
New Supervisor Seminar (NSS)
Experienced Supervisor Seminar

Team 2: Van Pichler and Marilyn Miller

#### Programs/Curricula

APHIS International Training Program (AITP)
Advancing Leader Program (ALP – Track I)
Leadership Development Program (LDP – Track II)
Leading in the 21<sup>st</sup> Century (L-21)
BRS' Management Development Program (BRS MDP)

Team 3: David Cummings and Will Bostwick

#### Programs/Curricula

Operation Jumpstart II (OJ II)
Support Employees Learning Forum (SELF)
Veterinary Services Careers Assistance Training (VSCAT)\*
Veterinary Services Careers Program (VSCP)\*
Assistant Area Veterinarian in Charge (AAVIC)\*

\* The 3 VS programs were removed from consideration since these programs combine leadership components within a technical program.

#### Team Results for Individual Programs/Curricula

Each sub team conducted their evaluation by completing worksheets for each of the eight criteria. An example of criterion 1 worksheet is included as example 1 below.

| Program/Curriculum                      | Target Audience   |  |  |
|---|---|--|--|
| Competencies Targeted                   |   |  |  |
| 1. Evaluation Criterion                 | Uses and Engages Positional Leaders   |  |  |
| programs and curricula w                | rd - Uses and engages APHIS positional leaders (at appropriate levels) in leadership development<br>on appropriate to participate in panels, make presentations, and deliver training as SMEs and make<br>and APHIS strategic goals (vision, mission, values, etc.) |  |  |
| 3. Measurement and Re                   | iew Results   |  |  |
| A. Are the leaders on                   | e training schedule?  |  |  |
| B. Are the leaders' in                  | lvement directly supporting learning objective(s)?  |  |  |
| - List Course(s)                        |   |  |  |
| - Identify Module(s)                    |   |  |  |
| - List Objective(s)                     |   |  |  |
| 4. Gap(s)  The difference between 2     | here we need to go) and 3 (where we are) = Gap  |  |  |
|   |   |  |  |
| 5. Recommendations to close the Gap(s). |   |  |  |
|   |   |  |  |
|   |   |  |  |
|   |   |  |  |

Example 1: Criterion 1 worksheet

Beginning on page B-3, the team results for each program/curriculum is detailed by criterion as shown in example 2 below. The programs/curricula are listed in alphabetical order.

#### **Program: Advancing Leaders Program (ALP – Track I)**

| Criteria    | Standard                    | Gap Identified            | Recommendations       |
|-------------|-----------------------------|---------------------------|-----------------------|
| 1: Uses and | Uses and engages APHIS      | No Gap: GS14-15 &         | Identify appropriate  |
| Engages     | positional leaders (at      | some SES; 2 half-day      | level leaders were    |
| Positional  | appropriate levels) in      | Q&A panel of leaders      | selected for a        |
| Leaders     | leadership development      | plus 3-4 leaders speaking | beginning level       |
|             | programs and curricula      | on special topics         | leadership program.   |
|             | when appropriate to         |                           | Look into use of non- |
|             | participate in panels, make |                           | SESers for            |
|             | presentations, and deliver  |                           | presentations         |
|             | training as SMEs and        |                           |                       |
|             | make links between the      |                           |                       |
|             | training and APHIS          |                           |                       |
|             | strategic goals (vision,    |                           |                       |
|             | mission, values etc)        |                           |                       |

### **Program:** Advancing Leaders Program (ALP – Track I)

| Criteria            | Standard                                 | Gap Identified                           | Recommendations           |
|---------------------|--|--|---------------------------|
| 1: Uses and Engages | Uses and engages APHIS positional        | No Gap: GS14-15 & some SES; 2 half-      | Identify appropriate      |
| Positional Leaders  | leaders (at appropriate levels) in       | day Q&A panel of leaders plus 3-4        | level leaders were        |
|                     | leadership development programs and      | leaders speaking on special topics       | selected for a beginning  |
|                     | curricula when appropriate to            |  | level leadership          |
|                     | participate in panels, make              |  | program. Look into use    |
|                     | presentations, and deliver training as   |  | of non-SESers for         |
|                     | SMEs and make links between the          |  | presentations             |
|                     | training and APHIS strategic goals       |  |                           |
|                     | (vision, mission, values etc)            |  |                           |
| 2: Demonstrates     | Provides cost effective training which   | Approximately 75% contractor and 25%     | Develop capacity to do    |
| Judicious Use of    | means uses 80% internal resources,       | in house; Locations were all politically | more in-house.            |
| Resources and is    | 20% external contractors; use of (Non    | appropriate                              | Investigate more use of   |
| Accountable to      | Pay) federal/state, etc facilities for   |  | alternative locations     |
| Taxpayers           | training; use of most cost effective and |  | other than Riverdale      |
|                     | politically appropriate location         |  |                           |
| 3: Involves         | Collaboration among units of training –  | Collaboration in evaluation of           | Examine opportunities     |
| Collective          | design, development, and delivery        | applications                             | to increase collaboration |
| Community of        | and/or other support (e.g. selection     |  | in delivery               |
| Training and        | criteria, evaluation, etc)               |  |                           |
| Development         |  |  |                           |
| Resources           |  |  |                           |

| Criteria             | Standard                                 | Gap Identified                                      | Recommendations          |
|----------------------|--|---|--------------------------|
| 4: Is Systematic and | Programs and curricula are linked to the | Same 18 competencies for Track I &                  | Assess needs for this    |
| Comprehensive        | APHIS Leadership Roadmap, APHIS          | Track II, but addressed at different                | level of leadership      |
|                      | Strategic Goals, Workforce/Succession    | behavior levels. Not linked to workforce            | program and match        |
|                      | Plans; competency based; uses variety    | & succession plans. Good variety of                 | competencies addressed   |
|                      | of learning opportunities, delivery      | learning opportunities: assessments                 | to needs. Investigate    |
|                      | methodologies, assessments, learning     | (MBTI, FiroB, 360, Style under Stress,              | possibilities on other   |
|                      | relationships, and individual learning   | Seven Habits 360, De-railer), coaching,             | delivery methods for     |
|                      | goals as appropriate, in order to        | classroom, TDY, shadowing, action                   | some sessions and        |
|                      | develop leaders at all levels of the     | learning projects (small scale), optional           | perhaps can shorten in-  |
|                      | organization                             | mentoring, individual learning contracts            | class sessions from 5-   |
|                      |  | (must be completed to graduate). Only               | days to 3-days and       |
|                      |  | delivery method for whole-group                     | eliminate travel on      |
|                      |  | sessions is face-to-face classroom; other           | weekends and comp        |
|                      |  | delivery methods only occur in what is              | time.                    |
|                      |  | arranged in the Learning Contract (where            |                          |
|                      |  | can use other methodologies like online             |                          |
|                      |  | in AgLearn or reading).                             |                          |
| 5: Demonstrates      | Evidence of a link to best practices     | No Gap: Has coaching, assessments,                  | If more is done          |
| Best                 |  | mentoring, action learning projects,                | internally, a system for |
| Practices/Innovative |  | leadership panels, level 2 & 3                      | scanning for best        |
| Approaches and/or    |  | assessments. The contractor is in contact           | practices and new        |
| Techniques for       |  | with OPM and syncing this program with              | directions will have to  |
| Leadership           |  | OPM's (e.g., including ethics and                   | be put in place          |
| Development          |  | working with the media were added                   |                          |
|                      |  | when contractor was seeing these outside of APHIS). |                          |
|                      |  | UI AFILIS).   |                          |

B-4 9/08

| Criteria   | Standard   | Gap Identified  | Recommendations   |
|--|--|---|---|
| 6: Demonstrates Interchangeability   | Design, develop, and deliver training to maximize interchangeability between APHIS units in order to reduce redundancy   | No Gap: All is interchangeable; even panels have a mix of leaders from each program.  | None.   |
| 7: Addresses<br>program unique<br>leadership needs<br>(e.g. labor<br>management<br>relations, values,<br>and/or mission)                             | Addresses unique program results   | No material in this program addresses program unique needs  No Gap: Projects are suggested by leaders of the APHIS programs. Leaders are selected from across APHIS programs. Details and shadowing are within program or within APHIS. | Fine as is.   |
| 8: Uses Sound Instructional System Design (ISD) *program/curriculum is based upon leadership competencies as defined in the APHIS Leadership Roadmap | Programs and curricula are based upon sound Instructional System Design (ISD) which includes all stages of analysis, design, development, implementation, and evaluation (ADDIE model) | Unknown as this is done by the contractor; program manager is contacting the contractor to find out this information.   | When more to greater percent of in-house delivery, be sure to use ASTD model of instructional design and provide to APHIS the documentation |

### **Program: BRS Management Development Program**

| Criteria            | Standard                              | Gap Identified                     | Recommendations                      |
|---------------------|---------------------------------------|------------------------------------|--------------------------------------|
| 1: Uses and Engages | Uses and engages APHIS                | Leaders only come to session to    | Have participants attend BRS         |
| Positional Leaders  | positional leaders (at appropriate    | launch and then meet participants  | Leadership meeting is good           |
|                     | levels) in leadership development     | who attend regular BRS leadership  | learning experience and exposure to  |
|                     | programs and curricula when           | meetings.                          | leaders - keep. Have leaders teach   |
|                     | appropriate to participate in         |                                    | some of competencies or at least in  |
|                     | panels, make presentations, and       |                                    | a panel to tie competency learning   |
|                     | deliver training as SMEs and make     |                                    | all together and apply to their work |
|                     | links between the training and        |                                    | in BRS                               |
|                     | APHIS strategic goals (vision,        |                                    |                                      |
|                     | mission, values etc)                  |                                    |                                      |
| 2: Demonstrates     | Provides cost effective training      | Gap: approximately 50% internal    | Work with other training             |
| Judicious Use of    | which means uses 80% internal         | and 50% external.                  | communities to improve ratio.        |
| Resources and is    | resources, 20% external               |                                    |                                      |
| Accountable to      | contractors; use of (Non Pay)         |                                    |                                      |
| Taxpayers           | federal/state, etc facilities for     |                                    |                                      |
|                     | training; use of most cost effective  |                                    |                                      |
|                     | and politically appropriate location  |                                    |                                      |
| 3: Involves         | Collaboration among units of          | Gap: no collaboration with others. | Collaborate if effective to leverage |
| Collective          | training – design, development,       |                                    | internal resources to reduce         |
| Community of        | and delivery and/or other support     |                                    | contractor costs.                    |
| Training and        | (e.g. selection criteria, evaluation, |                                    |                                      |
| Development         | etc)                                  |                                    |                                      |
| Resources           |                                       |                                    |                                      |

| Criteria  | Standard   | Gap Identified  | Recommendations   |
|---|--|---|---|
| 4: Is Systematic and Comprehensive  | Programs and curricula are linked to the APHIS Leadership Roadmap, APHIS Strategic Goals, Workforce/Succession Plans; competency based; uses variety of learning opportunities, delivery methodologies, assessments, learning relationships, and individual learning goals as appropriate, in order to develop leaders at all levels of the organization | Gap: no mentoring; few assessments Pluses: 1) tied to BRS leadership development strategy and workforce/succession plan efforts and to Roadmap, 2) has variety of learning opportunities & 2 assessments. | Add assessments (e.g., MBTI, FiroB). Introduce mentoring.   |
| 5: Demonstrates Best Practices/Innovative Approaches and/or Techniques for Leadership Development | Evidence of a link to best practices   | Gap: no mentoring; few assessments Pluses: 1) tied to BRS leadership development strategy and workforce/succession plan efforts and to Roadmap, 2) has variety of learning opportunities & 2 assessments. | Add assessments (e.g., MBTI, FiroB). Introduce mentoring.   |
| 6: Demonstrates Interchangeability  | Design, develop, and deliver<br>training to maximize<br>interchangeability between APHIS<br>units in order to reduce<br>redundancy   | Duplicative to APHIS however conducted in a shorter time frame and more efficiently.  | Include BRS program in review of programs to create a single APHIS level program as BRS has some good components that could benefit all APHIS. Ensure that unique BRS program needs (and needs of other programs) are met in this process of creating a single course |

| Criteria             | Standard                         | Gap Identified                     | Recommendations                    |
|----------------------|----------------------------------|------------------------------------|------------------------------------|
| 7: Addresses         | Addresses unique program results | No material in this program        | Could be part of APHIS-wide        |
| program unique       |                                  | addresses program unique needs     | leadership course, with special    |
| leadership needs     |                                  |                                    | BRS' (and other programs') special |
| (e.g. labor          |                                  | No Gap: under current status       | needs being met by add-on          |
| management           |                                  | where APHIS/TDB cannot meet        | components and incorporated        |
| relations, values,   |                                  | leadership training needs of       | sessions.                          |
| and/or mission)      |                                  | programs (BRS created program      |                                    |
|                      |                                  | only because needs couldn't be met |                                    |

## **Program: Operation Jumpstart II**

| Criteria            | Standard                             | Gap Identified                     | Recommendations                       |
|---------------------|--------------------------------------|------------------------------------|---------------------------------------|
| 1: Uses and Engages | Uses and engages APHIS               | No Gap: APHIS leaders are tapped   | Although we have identified no gap    |
| Positional Leaders  | positional leaders (at appropriate   | for the program orientation,       | for this criterion, APHIS leadership  |
|                     | levels) in leadership development    | APHIS Leadership Roadmap           | may be able to take a more            |
|                     | programs and curricula when          | presentation and round table       | substantial role in this program.     |
|                     | appropriate to participate in        | discussions.                       | Possible contributions may include    |
|                     | panels, make presentations, and      |                                    | participation in the modules          |
|                     | deliver training as SMEs and make    |                                    | Building Self-Esteem, Describing      |
|                     | links between the training and       |                                    | Professional Characteristics and in   |
|                     | APHIS strategic goals (vision,       |                                    | laying out APHIS structure and        |
|                     | mission, values etc)                 |                                    | employee roles and responsibilities.  |
| 2: Demonstrates     | Provides cost effective training     | No Gap: the current course meets   | Perform an assessment review to       |
| judicious use of    | which means uses 80% internal        | our 80-20 standard.                | ascertain the number of support       |
| resources and is    | resources, 20% external              |                                    | employees that are hired by APHIS     |
| accountable to      | contractors; use of (Non Pay)        |                                    | annually and compare that to the      |
| taxpayers           | federal/state, etc facilities for    |                                    | number of trainees prepared           |
|                     | training; use of most cost effective |                                    | through the Operation Jumpstart       |
|                     | and politically appropriate location |                                    | program to determine annual           |
|                     |                                      |                                    | training needs. Also, when classes    |
|                     |                                      |                                    | aren't full open training modules up  |
|                     |                                      |                                    | to interested participants outside of |
|                     |                                      |                                    | the OJ II program. Some examples      |
|                     |                                      |                                    | might include, FOCUS, Crucial         |
|                     |                                      |                                    | Conversations, Starweb training,      |
|                     |                                      |                                    | MBTI, Effective Business Writing,     |
|                     |                                      |                                    | etc.                                  |
| 3: Involves         | Collaboration among units of         | Gap: there is currently no         | OJ Program managers should reach      |
| collective          | training – design, development,      | collaboration between the training | out to various training units for     |
| community of        | and delivery and/or other support    | units.                             | assistance in training design,        |

| Criteria  | Standard   | Gap Identified  | Recommendations  |
|---|--|---|--|
| training and  | (e.g. selection criteria, evaluation,  |   | development, implementation and  |
| development   | etc)   |   | assessment as needed during  |
| resources   |  |   | periodic reviews.  |
| 4: Is Systematic and Comprehensive  | Programs and curricula are linked to the APHIS Leadership Roadmap, APHIS Strategic Goals, Workforce/Succession Plans; competency based; uses variety of learning opportunities, delivery methodologies, assessments, learning relationships, and individual learning goals as appropriate, in order to develop leaders at all levels of the organization | Moderate gaps (i.e. link to workforce/succession plan and use of a individual learning plan)                  | The OJ II program may benefit from a review of APHIS workforce plans to ascertain the number of support employees that are needed within APHIS on an annual basis. The participants in the OJ II program may also benefit from the incorporation of individual learning goals/plans. |
| 5: Demonstrates Best Practices/Innovative Approaches and/or Techniques for Leadership Development | Evidence of a link to best practices   | No Gap  | During periodic review process a literature review or scan of best practices in leadership development should be conducted to ensure that course methods are current.  |
| 6:Demonstrates Interchangeability   | Design, develop, and deliver<br>training to maximize<br>interchangeability between APHIS<br>units in order to reduce<br>redundancy   | No Gap. This program is designed<br>to prepare entry level support<br>employees across APHIS program<br>areas |  |
| 7:Addresses program<br>unique leadership<br>needs (e.g. labor                                     | Addresses unique program results   | The OJ II program develops support employees to work across program units. There are no                       | No recommendation at this time.  |

| Criteria             | Standard                         | Gap Identified                    | Recommendations                     |
|----------------------|----------------------------------|-----------------------------------|-------------------------------------|

| development                     | etc)  |                                     | skill level for shared competencies.                               |
| resources                       |   |                                     | The training community may be                                      |
|                                 |   |                                     | able to provide support in several                                 |
|                                 |   |                                     | areas of course design and   |
|                                 |   |                                     | evaluation, as well as, help to                                    |
|                                 |   |                                     | provide linkages between   |
|                                 |   |                                     | leadership courses.  |

| Criteria  | Standard   | Gap Identified  | Recommendations   |
|---|--|---|---|
| 4: Is Systematic and Comprehensive  | Programs and curricula are linked to the APHIS Leadership Roadmap, APHIS Strategic Goals, Workforce/Succession Plans; competency based; uses variety of learning opportunities, delivery methodologies, assessments, learning relationships, and individual learning goals as appropriate, in order to develop leaders at all levels of the organization | Gap: while the SELF program is linked to the APHIS strategy of retaining technically inclined employees, there is no clear link to APHIS leadership development goals or program unit succession plans. This appears to be as much of a function of the succession plan as it is to program design. | To grow leaders from the support employee level APHIS needs to provide a leadership training progression from the earliest levels. Ideally, program unit succession plans should anticipate needs in the support arena.                                 |
| 5: Demonstrates Best Practices/Innovative Approaches and/or Techniques for Leadership Development | Evidence of a link to best practices   | Gap: it's difficult to recognize key themes and week to week progression in the SELF program design.  | Within the SELF program there should be a logical progression in competency development from week to week throughout the course. There should also be linkages from this course to both prior (OJ II) and future programs along a leadership continuum. |
| 6:Demonstrates Interchangeability   | Design, develop, and deliver<br>training to maximize<br>interchangeability between APHIS<br>units in order to reduce<br>redundancy   | No Gap: the SELF program is designed to prepare support employees across APHIS program areas.   |   |
| 7:Addresses program<br>unique leadership<br>needs (e.g. labor<br>management<br>relations, values, | Addresses unique program results   | The SELF program develops support employees to work across program units. There are no a program unit specific needs addressed  |   |

| Criteria             | Standard                         | Gap Identified                   | Recommendations                    |
|----------------------|----------------------------------|----------------------------------|------------------------------------|
| and/or mission)      |                                  |                                  |                                    |
| 8:Uses Sound         | Programs and curricula are based | Minimal Gaps - The ASTD model    | In future course reviews and       |
| Instructional System | upon sound Instructional System  | of instructional design was used | redesigns continue to ASTD         |
| Design (ISD)         | Design (ISD) which includes all  | during the current design of the | instructional design methods where |
| *program/curriculum  | stages of analysis, design,      | SELF program.                    | applicable to ensure consistent    |
| is based upon        | development, implementation, and |                                  | documentation, design and ensure   |
| leadership           | evaluation (ADDIE model)         |                                  | institutional memory is preserved. |
| competencies as      |                                  |                                  | Also, create linkages to other     |
| defined in the       |                                  |                                  | programs when considering          |
| APHIS Leadership     |                                  |                                  | instructional strategy             |
| Roadmap              |                                  |                                  |                                    |

### Overall Recommendations for Individual Groups of Programs/Curricula

Overall Recommendations included comments and feedback from Program Managers

## Operation Jumpstart II (OJ II) Support Employees Learning Forum (SELF)

This suite of training programs consisted mainly of technical skills building courses that have segments targeted toward developing leadership competencies. Two of the programs, SELF and OJ II, are designed for entry level and support personnel and are applicable across APHIS program units. The other three programs, VS Career Assistance Team, VS Careers Program, and the Assistant AVIC program are designed specifically for VS employees at various career levels, and linked specifically to VS succession planning goals. Although they are program specific theses courses do have some components that may be used throughout the agency. In reviewing this suite of programs, using the criteria developed by the Leadership Program Evaluation Team, several themes emerged:

- 1. APHIS needs to develop a comprehensive leadership development strategy, across program units that progressively builds on skills and competencies gained at the earliest levels and continues throughout an employee's career.
- 2. Workforce and succession plans from APHIS program units need to be linked to leadership and development programs at all levels.
- 3. The ASTD model of instructional design should be incorporated into the design, development, implementation and evaluation of all leadership development programs across APHIS to ensure consistent design and documentation and to enhance institutional memory.
- 4. APHIS should ideally decide at what grade levels we begin to develop leaders. If we are truly committed to growing leaders from the entry level (OJ II), then support employees should be included in succession planning goals and strategy across the agency.
- 5. Develop a document including organizational charts, biosketches, and contact information for all groups in the training community to foster collaboration in program design and development. Training specialists in the various training communities may be more willing to reach out to internal resources, rather than contractors, if they know where to look for specific training expertise.
- 6. Consider more programs that specifically target hard to fill/difficult to retain leadership positions. The Assistant Area Veterinarian in Charge program provides a model that has already been vetted, in collaboration with HR, to accomplish this task.
- 7. Create a leadership development continuum that provides linkages between all leadership programs within the agency. The Leadership Roadmap might be used as a template, but may need to be expanded to be more inclusive of all programs.

**Preparing APHIS Team Leaders (PAT)** 

**Staff Officer Training (SOT)** 

**Fundamentals of APHIS Human Resource Management (FAHRM)** 

**New Supervisor Seminar (NSS)** 

**Experienced Supervisor Seminar** 

#### 1. Staff Officer Training:

SOT is a valuable program for APHIS.

Conduct an analysis and design. (Note: We hypothesize with a proper analysis and design the course will be designed in a manner that target various needs of the audience)

PAT and SOT should be analyzed and reviewed to ensure clarity of target audience.

Define and identify APHIS Staff Officer's, Team Leaders and Project Managers and;

Conduct an needs assessment for each target audience.

APHIS should consider developing a "Project Manager and Team Leader" training course to be aligned with the Roadmap.

This course targets too many competencies for too broad an audience in its current design.

#### NOTES from the PAT Program Manager:

Budget

Initially, the program was designed and budgeted for 25 participants. Between the design and delivery phase participant numbers dropped for a variety of reasons; scheduling conflicts, etc., so the program had 21 participants. Vendors were paid based on the initial participant numbers, which was not cost effective. Also, the payment process is extremely lengthy. The drop in attendance impacted the end of program administrative costs, because there was a funding shortfall. Recommendation: SOT needs to have a separate budget to ensure better controls and there needs to be a more stringent cancellation policy to minimize wasteful spending.

## **SOT Program**

During the Effective Communication and Project Management modules, participants prepare work samples and they receive individual feedback, so smaller classes might be more conducive to their learning environment. Also, the program manager has been collaborating with internal subject matter experts to possibly deliver of the following modules: Data Collection & Analysis and Project Management.

## Mentoring Component

Although, the program mentoring component is a valuable learning opportunity for the SOT participants there are some challenges that need to be

9/08

addressed since this program is only 6 months. Traditionally, it takes a period of time for mentorees and a mentors to form a relationship and the program manager was faced some challenges in mentor selection, time constraints, and mission needs. She would like to explore coaching opportunities, which might better assist participants in working on specific personal and learning development goals.

### **Overall Program Recommendations**

Due to the program costs, there needs to be more of a commitment and support from SOT participants' supervisors. Also, field locations are now hiring Staff Officers, so we might have to assess whether the program should be offered at field locations based on our customers needs and whether it is cost effective. Also, there are a variety of distractions with the program being conducted at the Riverdale location.

#### **Definition of Staff Officers**

Over the course of the program there have been frequent discussions on the definition of the Staff Officer (there is no official Staff Officer job series). Even senior leadership has different definitions of staff officers, so a recommendation is to provide one definition to alleviate confusion in identifying the target audience, marketing, and delivering future programs. Presently, Doctors of Veterinary Medicine, plant pathologists, agriculturists, manual writers, Specialist Assistants to the Director, secretaries, and regulatory writers have participated in the 2008 program.

Remarks: Majority of target audience participate in trade negotiations with foreign service and international focus, so that is a learning need.

### 2. Preparing APHIS Team Leaders (PAT)

PAT and SOT should be analyzed and reviewed to ensure clarity of target audience.

Define and identify APHIS Staff Officer's, Team Leaders and Project Managers and;

Conduct an needs assessment for each target.

APHIS should consider developing a "Project Manager and Team Leader" training course to be aligned with the Roadmap.

FAHRM program recognized a training need from participant feedback s and designed the PAT program.

The PAT program manager learned that administrative Officers do appraisals with administrative staff. They supervise whether formally or informally. AOs should be included in FAHRM course. It might require an additional analysis of their job.

PAT program manager would like to research other learning methodologies for the PAT program, i.e.. Shadowing & rotational assignments, TDYs. PAT program manager explained that there is a difference in the PAT target audience and the curriculum. First, the PAT program is for Team Leads, Project Managers, and Administrative Officers. Project Managers should be included, because not all Project Managers have the opportunity to attend SOT. Also, SOT is mainly focused on the HQ Staff Officers.

### 3. New Supervisor Seminar

#### Observation:

In our opinion there is a fundamental difference between supervisory training and leadership development. Currently FAHRM addresses limited skills based topics and NSS addresses limited leadership development based topics. It is our opinion APHIS should offer supervisors comprehensive skills training and leadership development concurrently based on individual needs of the supervisor.

#### Overall recommendations:

NSS should no longer be offered as a stand alone course.

NSS should be integrated into a larger Supervisory Program

NSS modules could be offered to supervisors using a catalog format or vignettes, which is similar to academia's offerings. This could also appeal to younger generations in the workforce. In addition, new supervisors would be able to take courses based on their individual development needs.

Mentoring could be used in the NSS. It is our opinion an APHIS new supervisor would benefit most from a mentoring relationship Coaching Services are offered in the L21 program.

See APHIS Supervisory Program recommendation (See attached)

## 4. Fundamentals of APHIS Human Resource Management

#### Observation:

In our opinion there is a fundamental difference between supervisory training and leadership development. Currently FAHRM addresses limited skills based topics and other programs address limited leadership development based topics. It is our opinion APHIS should offer supervisors comprehensive skills training and leadership development concurrently based on individual needs of the supervisor.

#### Overall recommendations:

Identify the skills and behaviors of all (continuum) supervisors

FAHRM should no longer be offered as a stand alone course.

FAHRM should be integrated into a larger Supervisory Program

FAHRM modules could be offered to supervisors using a catalog format or vignettes, which is similar to academia's offerings. This could also appeal to younger generations in the workforce. In addition, experienced supervisors would be able to take courses based on their individual development needs.

Criteria 1, Question 3.

Program Objectives: Technical Creditability, Please provide examples on how the FAHRM course addresses/aligns with that competency

Departmental Regulation on Performance Management (4040-430) provides the training requirements for probationary supervisors; specifically they must be competent in HR areas, i.e. position management, classification, staffing, recruitment, performance management, and pay and leave. These areas are introduced in FAHRM's 40-hour Blended Learning Course and supervisors have the opportunity to enhance their knowledge, skills, and abilities. The instructor-led course focuses on the Performance Management system/cycle: planning, monitoring, developing, evaluating, recognizing & rewarding, and addressing unacceptable performance.

In addition, OPM emphasizes business acumen and leading people competencies, (ECQs), and technical skills-performance plans aligned with mission. Presently, the ECQs are deemphasized at APHIS, because it is geared towards SES and the competencies are confusing at the all employee level.

Additional individual development in a specific technical area is the responsibility of each participant.

Criteria 2, Question 3B.

Cost Effectiveness: Use of Federal/State Facilities, Was there cost analysis completed for FAHRM programs (2005-2008)? If so, please provide us with cost analysis

The program manager took over the FAHRM course in 1995. Initially, the course was 8 a.m. – 5 p.m. and provided too much information. Betsy utilized innovative technology and initiated web seminars, so there was less information in the classroom and a variety of delivery methodologies were offered in the course.

Although there was no cost analysis done, the selection of the course location was based on division of time zones. Each course was offered in a variety of geographic areas and it was arranged, so it would encourage maximum participation. If SMEs were out of Minneapolis, the course would be offered in the local area. Also, the course was conducted in Riverdale.

Please provide us with information on the FAHRM's blended learning approach? How long has the program been using blended learning? In 1999-blended learning included the following web seminars: HR Workplace Violence Prevention and Response Training, Conflict Management, and Safety, Health Welfare. Now the blended learning courses are in Aglearn. The following courses are assigned to the probationary supervisors' learning plan prior to the 40-hour course: Position Management and Classification, Staffing, Recruitment, and Hiring, Writing Multi level Performance Plans, Policies for Pay, Leave, and Tours of Duty, Workplace Violence Prevention and Response Training. The 40-hour instructor led course focuses on the Performance Management system.

#### Criteria 3, Question 3A.

Was there collaboration with the training community in the design, development and delivery?

Yes and no, the program manager did contact PDC and PDS. She received feedback from APHIS Training & Development Branch colleagues who represented each program area and I made revisions based on their feedback. In addition, she had met with Betty (PPQ) to discuss the FAHRM curricula.

#### Criteria 4, Question 3.

Does the FAHRM program link to the Roadmap/Succession Planning, USDA directive 4040 and APHIS 4315?

FAHRM links to the 5 competencies of the Roadmap and it aligns with Departmental Regulation on Performance Management (4040-430). Due to the length of the course, it does not provide practical application for the participants. The purpose of the course is to provide probationary supervisors with an overview. The training course does underscore the Administrator's vision. Do supervisors get trained on succession planning/workforce planning? The course only raises their awareness.

#### Criteria 8, Question 3F.

Do you have any analysis of the Level 1 evaluations from 2005-2008 FAHRM programs? An analysis report was not a part of our process-our supervisor only required the copulation/raw data.

What type of Level II evaluation was completed for FAHRM?

2 years of level II (2006, 2007, and 2008)

Program Manager Recommendations

FAHRM is somewhat of an awareness course to assist new supervisors in understanding the topic areas, but not practical application. With a limited amount of instruction time (40-hours) you can not do honor to the topics. In the future, there are other areas/components that need to have depth, because presently the course focuses on breath, i.e. Performance Management System. The overview of the Performance Management System should be a course on Aglearn and the 40-hour FAHRM course should focus on the practical application.

In regards to the APHIS Leadership Roadmap, the program manager thought FAHRM needs to underscore the previous competencies. All lower competencies should not be taken for granted and assumed that new supervisors already possesses these skills, i.e. Self-Awareness and Self Management, so these skills should be focused and/or highlighted during the FAHRM course. In addition, we should offer Financial

Management and Project Management for supervisors. Depending on their program and/or responsibility, i.e. Labor Relations. (PPQ and VS supervisors need to have Labor Relations).

We should not focus on just competencies below and above the supervisor level, because there is a possibility that a supervisor might have a skill gap in a particular area, so program(s)/course(s) could meet their specific training needs. We should offer 3 – 4 day courses. Also, tie/link FAHRM course to international services, because increasingly supervisors have to work in a global environment.

Leveraging Diversity competency-I would like to see Conflict Dynamics Profile used in the FAHRM course. The course could use a better assessment tool. FAHRM needs to be linked with a Mentoring Program; new supervisors should be assigned a mentor.

A probationary supervisor should be able to manage people in managing conflict and how supervisors manage their own conflict. Currently, we address conflict management in the Myers Briggs module. We should look into introducing the certification-CDP. Her recommendation is based on her intuition and on a compilation of Level 1 evaluations feedback

The checklist could be a part of their continual learning in their performance element

FAHRM should be 80-hours of learning. There should be a portion which addresses the experiential learning and links the blended into the classroom.

1st week-increasing their cognitive level

2nd week-applying-performance based, which could impact their affective level and including Emotional Intelligence.

Should there be any prerequisites for FAHRM? We already have Aglearn courses assigned to them prior to them coming to FAHRM.

Additional Note: Continue to offer training courses in Spanish. I did FAHRM training Mexico & taken some of modules to meet IS needs.

See APHIS Supervisory Program recommendation (See attached)

## 5. Experienced Supervisor Seminar

Observation:

In our opinion there is a fundamental difference between supervisory training and leadership development. Currently FAHRM addresses limited skills based topics and ESS addresses limited leadership development based topics. It is our opinion APHIS should offer supervisors comprehensive skills training and leadership development concurrently based on individual needs of the experienced supervisor.

APHIS International Training Program (AITP)
Advancing Leader Program (ALP – Track I)
Leadership Development Program (LDP – Track II)
Leading in the 21<sup>st</sup> Century (L-21)
BRS' Management Development Program (BRS MDP)

Combine L-21, BRS-MDP, Track I and Track II programs into 2 APHIS-level programs with levels for each to be determined after further investigation (possibly GS 7 - new GS11, high performing GS11 - GS13). More closely investigate the content of AITP to see how in could be incorporated, such as offering program-unique components repeatedly for all leadership participants in other courses, thereby training more APHIS employees in intercultural skills for the same level of contractor costs.

In the merging efforts, investigate closely the content of each of leadership courses. Need to examine course materials/binders more closely in that effort. Retain the best practices currently used in the suite of courses and assess if others should be introduced. Assess unique program needs and design a way those needs can be met in a cost-efficient manner possibly as optional modules. Ensure the content of the training uses a variety of leadership practitioners and subject matter experts and is performance based in the design and the development of the training. All competency development in the suite of leadership programs need to be at the appropriate employee level and introduce competencies at the next level based on the Roadmap.

Establish criteria for the Training community when contracting out is acceptable and provide consistent language on Statement of Works on documentation of programs to meet the sound instructional design criterion is met.

Develop an APHIS Leadership Development Strategy to address the approach used to implement and evaluate future programs which should be based on Agency standards, expectations, and indicators. Develop an APHIS succession plan to ensure the leadership programs are developing the competencies for the targeted leadership positions (should be the consistent with the Radome) with the adequate numbers of participants.

Have program unit specific programs deliver in current fashion for FY09-- develop agreements between Training communities for resource requirements in the redesign of an APHIS leadership development program targeted for the following Employee Levels 1, 2, and 3. Assess and develop capacity within APHIS training units for design and delivery of the new programs. Develop an implementation plan for priority settings. Determine a goal for developing internal capacity. Overall is approximately 50% internal right now. Aim at first new program to be launched in October 2009 with 60% internal and increased to 80% internal over the following 2-year period.
