Dairy herd termination program:		
Term of program (yrs)	NA	NA
Accepted bids (\$/cwt)--		
Range	NA	NA
Average	NA	NA

1/ From 1960/61 to 1976/77, the marketing year ran from April 1 through March 30; then from 1977/78 to date, the marketing year ran from October 1 through September 30. Before the beginning of each marketing year, the Secretary announces the support price for manufacturing milk applicable for the year. At any time during a marketing year, price-support adjustments may be triggered by CCC purchase levels or changes in legislation. Column headings in the table indicate the period of time within the marketing year for which a particular combination of support and purchase price levels were in effect. In marketing year 1960/61, there were three times where either the support or purchase price levels changed from the initial levels. In marketing year 1961/62, no changes occurred from the initial setting of support and purchase levels.

2/ Parity price equivalent for manufacturing milk, for the month prior to the period.

3/ As of the beginning of the marketing year.

4/ Collections at 50 cents per hundredweight started April 16, and continued through June.

5/ Collections at 50 cents per hundredweight continued through July and August, but were raised to 1 dollar for September.

6/ Collections continued at 1 dollar per hundredweight through October and November, but were lowered to 50 cents for December.

7/ Herd disposal under the dairy herd termination program started April 1, 1986. There were three herd-disposal periods over the 18-month period.

8/ Collections ended December 31, 1988.

9/ Collections at 5 cents per hundredweight started January 1, 1991.
