

Medical Resources in Lima, Peru

This listing of health care providers and medical facilities is provided as a starting point for American citizens in Peru. Although the Embassy cannot vouch for the professional ability of, or recommend, any specific provider or facility, these institutions have a history of use by U.S. Embassy personnel and their families in the past. The names of providers which appear below have demonstrated qualifications similar to those found in the U.S. and generally speak English. This list is not meant to be an endorsement by the Department of State or the Embassy. Likewise, the absence of any individual or institution on this listing does not imply lack of competence. From outside Peru, callers should dial (011)(51)[1] plus the local number.
