1205 Franklin Avenue  
Las Vegas, Nevada  
May 7, 2001

Spencer Abraham  
The White House  
Washington, DC

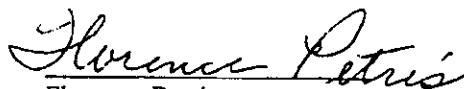

Mr. Abraham:

This is a protest against your arrogant attitude toward Yucca Mountain. You are totally ignoring our state rights. Yucca Mountain is NOT a safe place to store nuclear waste. There has been rapid water seepage into the area plus it is also earthquake prone in spite of the phony reports you have managed to pay for and gotten from dishonest sources.

Let states creating the waste keep it in their own state or give it to states that really want it like New Mexico and Utah. Do not force it on the people of Nevada who do not want it nor have contributed to it.

I can see why my home state of Michigan rejected you, you are a close-minded evil person with no consideration for the welfare and health of people. Bringing this dump to Nevada is a disaster waiting to happen for which your party would pay for dearly.

Disgustedly,

  
Florence Petris
