Hitchhike to Titan: Huygens' Journey to the Shrouded Moon

*Presented by Shaun Standley,
Huygens Systems Engineer, European Space Agency*

Come hear about Huygens' journey to Saturn aboard the Cassini orbiter, the probe's troubles along the way, the spectacular, historic descent through Titan's clouds, and

- the moment of relief when Huygens' phoned home
- a moon with wet weather
- being a "foreign devil" at JPL

Everyone is welcome.
