

The National Shooting Sports Foundation's SCHOLASTIC CLAY TARGET PROGRAM: A Program to Aid Recruitment and Retention Efforts

The National Shooting Sports Foundation's (NSSF) **Scholastic Clay Target Program (SCTP)** will introduce more shooters to state hunter education programs, state youth hunting programs, *Becoming an Outdoors Woman* (BOW) programs and NSSF's *Step Outside Program*. This youth development program, co-sponsored by the NSSF, the Amateur Trapshooting Association, the National Skeet Shooting Association, and the National Sporting Clays Association, focuses on providing young people with a positive experience in sports. It is designed to emphasize the values of sportsmanship, responsibility, self-discipline, and commitment.

Program Goals:

- SAFE and Responsible Handling and Use of Firearms
- Character and Citizenship Development through Teamwork
- Introduction to a Lifetime Sport that Families can Enjoy Together

In addition to learning safe and responsible handling of firearms, SCTP participants discover the joy of contributing to a shared team goal and the commitment that goes along with it. Youth from the elementary grades through high school are eligible to participate in these safe, sanctioned, and nationally recognized clay target sports (trap, skeet and sporting clays) which provide competitive opportunities for SCTP teams.

Participation in the SCTP is team-oriented, and requires that one be a member of a team. Each team, lead by an adult coach, must register with the SCTP National Program Office. The Basic Competitive Unit is the SQUAD. For Trap and Skeet the minimum squad size is five; for Sporting Clays it is four. Teams must have at least one full squad to become an officially recognized SCTP team. There is no upper limit to the number of members on a team or to the number of squads a team may field.

Competitive Divisions are **Rookie Division** (5th graders and below), and Novice and Experienced Categories in the **Junior** (6th, 7th and 8th graders) and **Senior** (9th – 12th graders) Divisions. Awards are presented to the starting members of the top three squads in each Division and Category at the SCTP State and National Championships. A total of \$69,000 in scholarships will be awarded at the National Championships.

A limited number of **Program Support Packages** are available to help qualifying new teams get started. These packages include: ammunition, targets, eye and ear protection, and shell pouches.

<u>Contact Information</u>: Complete information on eligibility, registration procedures, awards and more can be found in the *Scholastic Clay Target Program's OFFICIAL HANDBOOK –2003*.

🔅 BULLETIN BOARD 🏟

Natural Resources Information Council 2003 Conference (NRIC) will be held concurrently with the Association for Conservation Information (ACI) in Cody Wyoming, July 25-30, 2003. For conference information, contact Paul Wilson: 800-582-3421, E-mail: paul_wilson@fws.gov or visit the ACI website: www.aci-net.org. To submit papers (deadline for abstracts: approx. May 20, 2003) for NRIC, contact Barbara Voeltz, c/o Nebraska Game & Parks, 2200 North 33rd Street, Lincoln, NE 68503-0370; E-mail: bvoeltz@ngpc.state.ne.us.

National Symposium: Wetlands 2003 - Landscape Scale Wetland Assessment and Management is scheduled to be held October 20-24, 2003 in Nashua, New Hampshire. For information contact: The association of State Wetland Managers (ASWM), P.O. Box 269, Berne, NY 12023-9746; 518-872-1804; FAX: 518-872-2171; E-mail: aswm@aswm.org; or visit Website: www.aswm.org.

morg, or visit website. www.aswin.org.

The National Commission on Science for Sustainable Forestry (NCSSF) is having its second annual symposium, *"Fire, Forest Health and Biodiversity,"* on June 5-6, 2003 in Denver, Colorado. For information, visit the website: www.NCSSF.org.

The International Union of Forest Research Organizations (IUFRO) is holding a conference, "Information Interoperability and Organization for National and Global Forest Information Systems." The conference will be held September 17-19, 2003 as a satellite event of the XII World Forestry Congress (www.wfc2003.org/). For information about the IUFRO and/or conference, contact: Carol Green, University of Washington, Forest Resources Library, Box 352112, Seattle, WA 98195-2112; (206) 543-2758; Fax: (206) 543-8375; E-mail: ccgreen@u.washington.edu.

USGS Announces Online Access to Nationwide Fish Community Data. Data on fish communities are now available for 960 stream sites in more than 50 major river basins across the U.S. More than 1,900 fish community samples, collected from 1993 through 2002 by the National Water-Quality Assessment Program, can be **downloaded from http://water.usgs.gov/nawqa/data.**

The Wildlife Society has published a 22-page Technical Review, "The Relationship of Economic Growth to Wildlife Conservation." In the review, the relationship of economic growth to consumer trends, social values, human population, ecological principles, technological progress, and wildlife conservation is examined. For information about this publication, contact: The Wildlife Society, 5410 Grosvenor Lane, Bethesda, MD 20814-2197; (301) 897-9770; Fax: (301) 530-2471 or visit www.wildlife.org.

The IXth International Otter Colloquium, "Otters: Ambassadors for Aquatic Conservation," will be held at Frostburg State University in Frostburg, MD from June 4-10, 2004. Watch for updates at http://otter.frostburg.edu/index.htm. For any questions, e-mail otter@frostburg.edu.

(continued from page 1)

Consult it on the Web at <u>www.nssf.org/sctp</u>, or request a copy by sending an e-mail to <u>sctp@nssf.org</u>., or call Dianne at NSSF (203) 426-1320, or by mail: SCTP/NSSF, Flintlock Rldge Office Center, 11 Mile Hill Road, Newtown, CT 06470-2359.

NSSF's Step Outside Program (www.stepoutside.org) and state BOW programs receive partial funding from Federal Aid under a Multistate Conservation Grant. Hunter education is directly funded under the Pittman-Robertson Wildlife Restoration Program.
