Just to voice my concerns over the proposed FAA plans to fly over the Summerland areas.

This activity will engender a very active group to move into action to close the airport during night-time hours (very much like San Diego, CA). This will not be a good thing for the economy of Las Vegas and should be brought to the attention of the LV Mayor at the upcoming meeting as a potential backlash of the proposed flight changes (and YES, I will be in that group).

P594-1

Dr. George Gish
