

reductions of options transaction fees that are available to non-member broker-dealers in connection with equity options and QQQ options contracts executed as part of an accommodation or cabinet trade ("Cabinet Trades") and reversals and conversions, dividend spreads, box spreads and butterfly spreads ("Spread Trades"). On May 28, 2004, the Exchange filed Amendment No. 1 to the proposed rule change.³ The proposed rule change and Amendment No. 1 were published for comment in the **Federal Register** on June 10, 2004.⁴ No comments were received regarding the proposal, as amended. This order approves the proposed rule change, as amended, on an accelerated basis.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁵ and, in particular, the requirements of section 6(b) of the Act⁶ and the rules and regulations thereunder. Specifically, the Commission finds that the proposal to lower the amount of the reduction of options transaction fees applicable to non-member broker-dealers in connection with Cabinet Trades and Spread Trades is consistent with section 6(b)(4) of the Act,⁷ which requires the equitable allocation of reasonable dues, fees and other charges among Exchange members and other persons using Exchange facilities. According to Amex, the proposed fee changes should better reflect the actual cost of transactions on the Exchange. Further, the proposal provides non-member broker-dealers with the same options fee reductions for Cabinet Trades and Spread Trades that are applicable to specialists, registered options traders ("ROTs") and member broker-dealers.⁸

Amex requested accelerated approval of the proposal in order to provide for uniform options transaction fee reductions for non-member broker-dealers and specialists, ROTs and

member broker-dealers. Therefore, Amex has requested that the Commission find good cause for approving the proposal, as amended, prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register**.

The Commission notes that the proposal and Amendment No. 1 were noticed for the full 21-day comment period, and the Commission received no comments regarding the proposal, as amended. As discussed more fully above, the Commission believes that the proposed rule change is designed to provide for the equitable allocation of reasonable dues, fees and other charges among Exchange members and other persons using Exchange facilities. The Commission also believes that adjusting the options transaction fee reductions applicable to non-member broker-dealers to equal the fee reductions applicable to specialists, ROTs and member broker-dealers for the same types of transactions will promote uniformity in options fees charged by the Exchange. Accordingly, the Commission finds good cause pursuant to section 19(b)(2) of the Act⁹ to approve the proposed rule change, as amended, prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register**.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹⁰ that the proposed rule change (File No. SR-Amex-2004-37), as amended, is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹¹

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for its proposal and discussed any comments it received regarding the proposal. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in

Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Under the Exchange's current rule, a CHX specialist must accept and execute all preopening orders in Nasdaq/NM securities on a single price opening at or better than the national best bid and offer ("NBBO") at the first unlocked, uncrossed market.³ A preopening order, for purposes of the rule, is an order received at or before 8:20 a.m. (Central Time) on the date of the opening. Under the current rule, the specialist is required to take a position when there is an imbalance of shares left after eligible orders are offset.⁴ Orders received after 8:20 a.m. and before 8:30 a.m. (Central Time) are not guaranteed a fill at any particular price.

The Exchange proposes to change the operation of this rule to remove the distinction in the treatment of orders received at or before 8:20 a.m. and those received after 8:20 a.m. (Central Time) until the opening of trading. Under the proposed rule change, all orders received before the opening would be treated in the same manner. Specifically, under this proposal, an Exchange specialist would match, to the extent possible, all orders received before the Exchange's opening at a single price that is at or between the NBBO at the first unlocked, uncrossed market that occurs on or after 8:30 a.m. (Central Time).⁵ The specialist would be responsible for executing any imbalance in shares left after the offset process, in accordance with Exchange rules that govern the handling of orders during the regular trading session.⁶ As a result, the specialist no longer would guarantee that orders received before 8:20 a.m. (Central Time) would receive a fill—orders that could be matched, would be matched—any order imbalance would remain for handling by the specialist.⁷

³ See CHX Article XX, Rule 37(a)(4). The NBBO is the price associated with the best bid and best offer disseminated pursuant to Rule 11Ac1-1 under the Act.

⁴ See CHX Article XX, Rule 37(b)(5).

⁵ See proposed CHX Article XX, Rules 37(a)(4) and 37(b)(4).

⁶ These rules include the Exchange's rules relating to the execution of agency market, marketable limit and limit orders, as well as its rules relating to the precedence of orders in the CHX specialist's book. See CHX Article XX, Rules 37(a)(2) and 37(a)(3); CHX Article XXX, Rule 2.

⁷ As a technical matter, the Exchange's MAX system would identify the single opening price, based on the orders in the book and, to facilitate the execution of the maximum number of orders at

The Exchange believes that this proposed rule change is appropriate because it simplifies the procedures for the handling and execution of preopening orders. It also allows a specialist to better fulfill its overall order handling responsibilities by eliminating any different treatment of orders received before and after 8:20 a.m. (Central Time).⁸

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of section 6(b).⁹ The CHX believes the proposal is consistent with section 6(b)(5) of the Act¹⁰ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

that price, would insert the specialist into the execution of each order. For example, if there were two buy orders (for 120 shares and 150 shares) and two sell orders (for 100 shares and 170 shares) that could be matched at a single price at or between the NBBO, the system would match each order against the specialist, at the appropriate price, resulting in four execution reports, one for each order. The specialist does not profit through this practice. Any other handling of the matching process—for example, trying to match 100 shares of the first buy order against the 100-share sell order, and 150 shares of the second buy order against the second sell order, leaving 20 shares of the first buy order and 20 shares of the second sell order to execute against each other—results in additional, unwanted execution reports to the Exchange's order-sending firms. The Exchange would report only one side of these transactions (the side with the highest number of reportable shares, representing the best indication of the trades that actually occurred) to the tape to ensure that this practice does not have any potentially inappropriate impact on the Exchange's tape revenue.

⁸ Nothing in this proposed rule change, however, would prohibit a specialist, before the opening of the Exchange, from buying or selling in the over-the-counter market—for example, during Nasdaq's "trade or move" session—to position itself for the opening.

¹⁰ 15 U.S.C. 78(f)(b)(5).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the CHX consents, the Commission will:

- (A) By order approve the proposed rule change, or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49981; File No. SR-CHX-2004-08]

Self-Regulatory Organizations; The Chicago Stock Exchange, Incorporated; Order Granting Approval to Proposed Rule Change and Amendment No. 1 To Amend the CHX Membership Dues and Fees Schedule To Provide a Tape Credit of 50% to Specialists Trading Tape A and Tape B Securities

July 7, 2004.

On May 18, 2004, The Chicago Stock Exchange, Incorporated ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend its membership dues and fees schedule, effective February 1, 2004, to provide a tape credit of 50% to specialists trading Tape A and Tape B securities. On May 18, 2004, the CHX filed an amendment to the proposed rule change ("Amendment No. 1"), which amendment completely replaced and superseded the original proposed rule change. The proposed rule change, as amended, was published for comment in the **Federal Register** on June 2, 2004.³ The Commission received no comments on the proposal. This order approves the proposed rule change, as modified by Amendment No. 1.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the

rules and regulations thereunder applicable to a national securities exchange⁴ and, in particular, the requirements of Section 6 of the Act⁵ and the rules and regulations thereunder. As set forth in its July 2, 2002 Order of Summary Abrogation ("Abrogation Order"),⁶ the Commission will continue to examine the issues surrounding market data fees, the distribution of market data rebates, and the impact of market data revenue sharing programs on both the accuracy of market data and on the regulatory functions of self-regulatory organizations. In the interim, the Commission believes it is reasonable to allow the CHX to provide a tape credit of 50% to specialists trading Tape A and Tape B securities, because the proposal will allow the CHX to operate a market data revenue-sharing program that is substantially similar to market data revenue-sharing programs operated by other markets.⁷

The Commission finds specifically that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁸ in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating securities transactions, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

The decision to allow the CHX to provide a 50% tape credit to specialists trading Tape A and Tape B securities, however, is narrowly drawn, and should not be construed as resolving the issues raised in the Abrogation Order, and does not suggest what, if any, future actions the Commission may take with regard to market data revenue sharing programs.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act⁹ that the proposed rule change (SR-CHX-2004-08) be, and it hereby is, approved, as amended.

⁴ In approving this proposed rule change, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).
