

Comment Info: =====

General Comment:Congress and the American people want the slaughter of America's horses to

stop - we want the foreign-owned companies to close their slaughterhouses and stop the butcher of our horses. The American people and Congress want the USDA to enforce the wished of the people who live in this country - not the very

few who run this murderous business only to make a profit from our beautiful horses and their slaughter. Please stop the slaughterhouses now ... please listen

to the will of the American people & their representatives.
