4812 (passenger)	3.16			X		Freight transportation arrangement services	Arranging for the international or domestic transportation of goods, including all necessary customs clearances for international freight transportation, regulatory requirements, and related documentation for a shipment of goods. The service provider receives the power of attorney for one of the parties to the shipment, and represents the party in all aspects of ensuring that the shipment is transported according to the time and place specifications of the client. In addition to handling the regulatory aspects of the shipment, and ensuring the execution of the transportation, the service-provider also ensures that the proper payments are made by the parties to the shipment. Service usually includes arrangement of transportation for the goods, either with a client-specified provider on an existing contract, or under arrangements made entirely by the service-provider.  Includes: • non-vessel-operating common-carrier [NVOCC] service which bundles freight transportation arrangement services with the service of providing space in an intermodal container.
