is voluntary; it represents TIA's view of Commission requirements. The
Telecommunications Industry Association and the American Council of Independent
Laboratories (ACIL) have made this document available on their sites for free
download (no logging on or registration required). The pages on their individual

INFORMATION FOR PART 68 REGISTRATION APPLICANTS

1- INCLUDE ALL ADDRESS INFORMATION WHEN CONTACTING NSD

We need your E-mail, FAX, phone number and postal mailing address

2- HELP US TO IDENTIFY YOUR APPLICATION EARLIER

Please use the "call sign" field (field 19a) of Form 159 to enter identifying information, such as model number or prior registration number. This will enable us to identify specific applications as soon as they are logged in by Mellon Bank.

3- PROBLEMS THAT DELAY APPLICATION PROCESSING

- Application sent directly to FCC must go to Mellon Bank before processing.
- Surge B test must be reported on Form 730.
- Re-registration applications must include original registration number.
- Re-registration of an original not yet granted must identify the original.
- E-mail: Include FAX & Phone & include Postal address for Registration form.

4- CREDIT CARD PAYMENT CAUSES DELAY IN PROCESSING

Use of the credit card payment method will cause a delay of two business days.

5- EXTENSION OF DATE FOR TESTING IS NO LONGER IN EFFECT

DA 99 - 818 provided clarification of requirements and extended the compliance date under rules Part 68, as amended by the Harmonization Order, to December 19, 1999. Re-testing or re-registration is not required when equipment is modified 2000. solely to comply with Section 68.2(j)(3).

6- VOLUME CONTROL REQUIREMENT

All telephones manufactured or imported on or after 1/1/2000 must provide volume control (Section 68.6). Applications for previously registered equipment that has been modified to provide volume control should be resubmitted for modification of registration. Telephone headsets are exempt from the volume control requirement.

ISSUES IN THE PART 68 REGISTRATION PROCESS

1- PROCESSING DELAYS ANTICIPATED

Diminishing resources, problems with the new registration data base, redirection of some resources to support the privatization of the registration process (TCB program), and redirection of some resources to respond to petitions for waiver are adversely affecting the Commission's ability to support processing of Part 68 applications. Consequently, substantial delays in processing should be anticipated in coming months.

2- STATUS INFORMATION

Please check the FCC Web Site for Reports of Applications Received and Public Notices of Registrations Granted. Please allow two weeks from the date an application is received by the FCC Network Services Division before inquiring about status by contacting the staff member listed for your application.
