

Technology Transfer

A Community-Based Treatment Perspective

Patrick M. Flynn, Ph.D.

Deputy Director

Institute of Behavioral Research, Texas Christian University

February 2, 2006

For more information, see www.ibr.tcu.edu

Services Research

A multidisciplinary field of scientific inquiry that:

Examines how:

Social Factors
Financing
Organization
Management
Technologies
Behaviors/Beliefs

Affect health care:

Demand
Accessibility
Utilization
Quality
Effectiveness
Costs

**For individuals & families, organizations & institutions,
communities & populations**

**How do
organizations
change practice
?**

Program Change Model

Reception & Utility

- Satisfaction
- Ease of use
- Values fit

Stages of Transfer

Staff

Time & Place

Program

Climate

Resources

Staff

Motivation

1-Exposure
(Training)

- Lecture
- Self Study
- Workshop
- Consultant

2-Adoption
(Leadership decision)

3-Implementation
(Exploratory use)

4-Practice
(Routine use)

Program Improvement
(Services/Process/
Management)

Institutional Supports

- Monitoring
- Feedback
- Rewards

1-Exposure (*Training*)

- Lecture
- Self Study
- Workshop
- Consultant

Exposure

➤ **National Registry for Evidence-Based Programs & Practices (EBP)**

- ✓ List/Library of available EBPs

➤ **EBPs & Materials**

- ✓ Complexity/receptivity/utility/transportability
- ✓ “Evidence-based practice developers and researchers must clearly demonstrate the relevance of their intervention to frontline clinicians.” (McGovern et al., 2004)

Exposure (continued)

➤ Training

- ✓ Training workshops & on-site visits better than just written materials (Sorensen et al., 1988)
- ✓ Interpersonal strategies

➤ Networks

- ✓ ATTCs national network as a vehicle for transfer

➤ Utilization

- ✓ Level of organizational functioning is related to utilization of training
- ✓ Staff attitudes predict utilization

Adoption

- **Readiness of EBP for transfer** (values & goals)
 - ✓ EBP must be acceptable to clients
 - ✓ (Gotham, 2004)
 - ✓ Must fit within therapeutic orientation and skills of users (Simpson, 2002)
 - ✓ Must demonstrate relevance of intervention to frontline clinicians (McGovern et al., 2004)

Adoption (continued)

➤ Readiness of EBP for transfer (values & goals)

- ✓ Importance of fit between EBP and organizational dynamics (Klein & Sorra, 1996)
- ✓ Compatibility of the EBP with existing social system (Rogers, 1995)

➤ Predictors

- ✓ Counselor characteristics are related to adoption

Implementation Issues

➤ Using/applying innovations as designed and tested

- ✓ reinvention—” the degree to which an innovation is changed or modified by a user in the process of its adoption and implementation” (Rogers 1995)
- ✓ degree of “drift” from original and level of tolerance before need for new evidence (Kelly et al., 2000)
- ✓ maintain core components to insure fidelity

Implementation Issues (continued)

- **Post-training technical assistance, supervision, follow-up experiences, adherence, and boosters**
- **Cost/support/incentives**
 - ✓ “Reimbursement is gradually being tied to the delivery of” EBPs (Miller, Zweben, & Johnson, 2005)

Implementation Issues (continued)

➤ Counseling Staff Attributes

- ✓ personal attributes are related to implementation and adoption

➤ Organizational Characteristics

- ✓ organizational climates are related to implementation and adoption

➤ Incorporating innovations into regular use

- ✓ obtain baseline measure(s)
- ✓ outcomes/effects of EBPs
- ✓ costs
- ✓ institutional supports & resources

➤ Sustaining the practice

- ✓ performance assessments and feedback
- ✓ staff turnover/retraining
- ✓ supervision & continuing education/booster sessions
- ✓ institutional supports & resources

The Research to Practice Gap

“To close this breach, more attention is being directed toward the characteristics of treatment organizations and the ways in which treatment settings affect the adoption of technologies.”

(Fuller, Rieckmann, McCarty, Smith, & Levine, 2005)

Organizational functioning

Technology Transfer

Treatment delivery

**How do we study
technology
transfer as a
science unto
itself ?**

TCOM

Treatment Costs and Organizational Monitoring

Sponsored by:

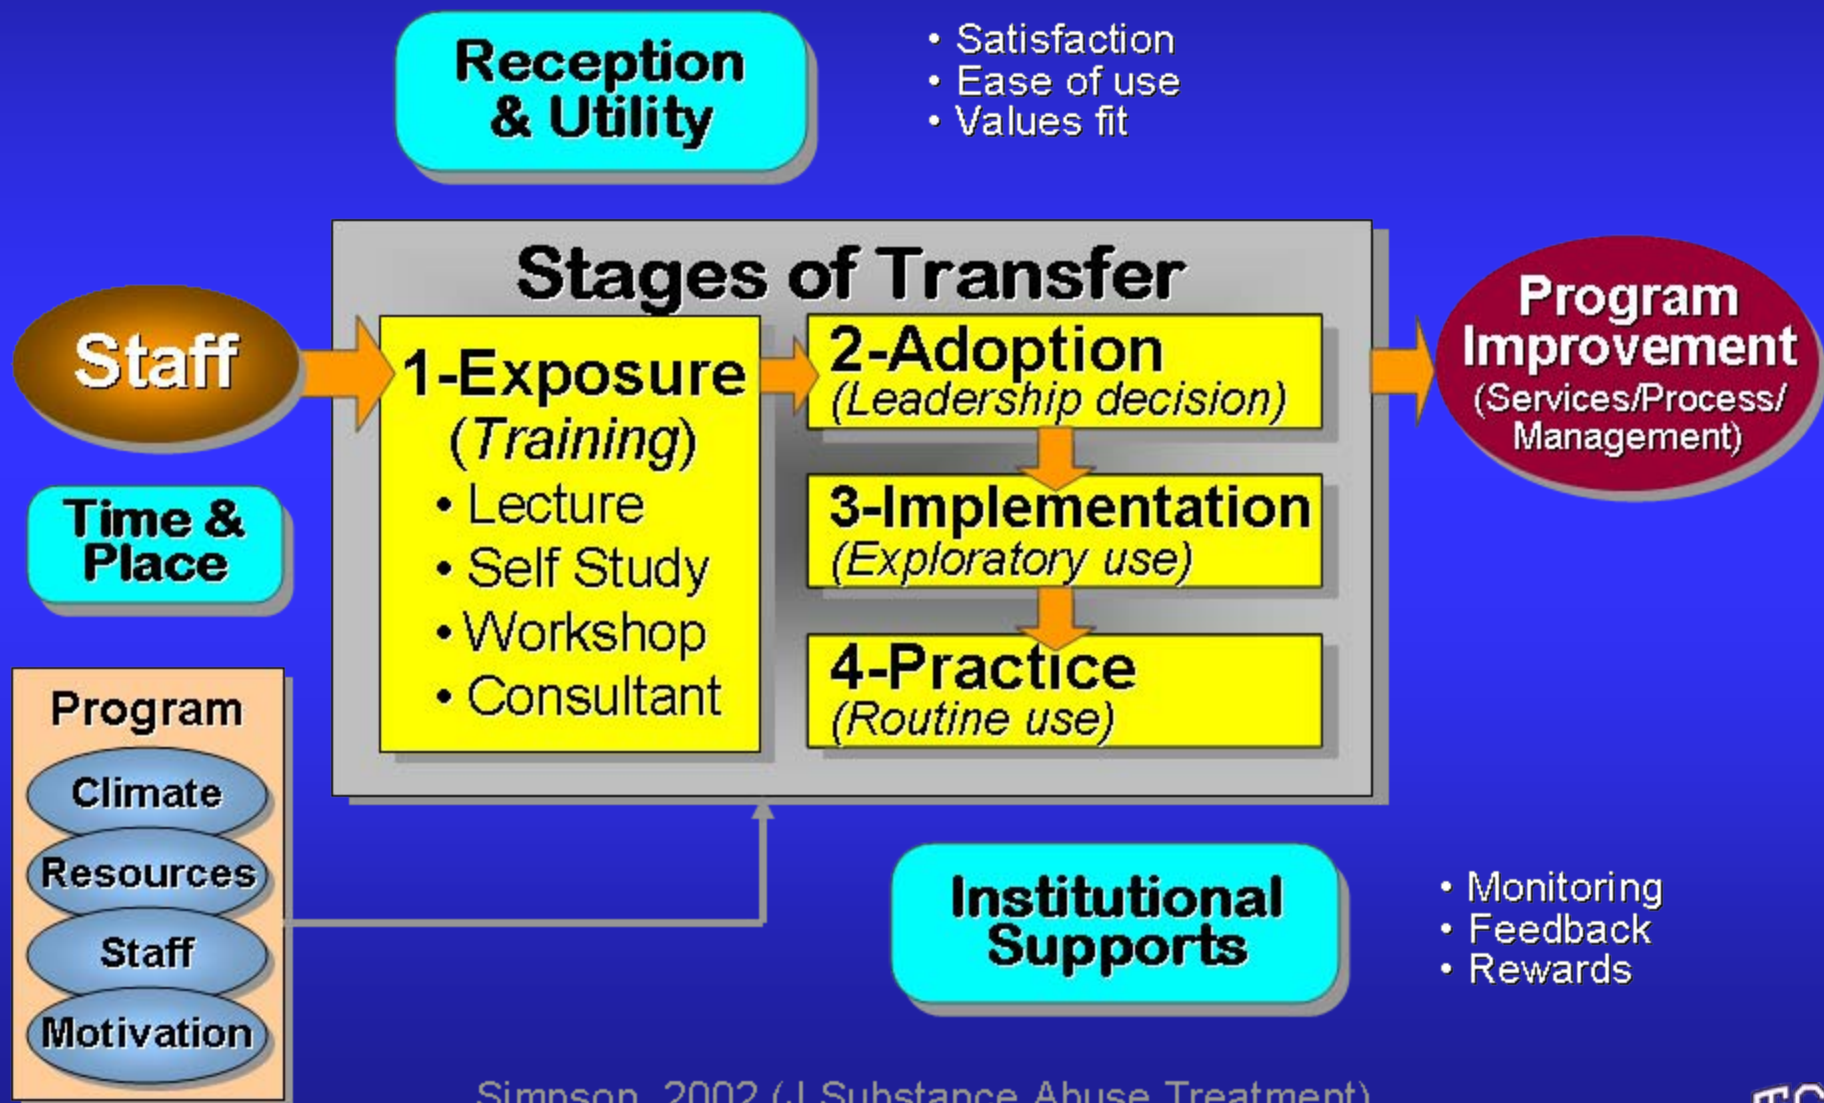

**100 Adult
Outpatient Drug-Free
Programs**

5-Year Study of Community-Based Providers

TCOM Goals

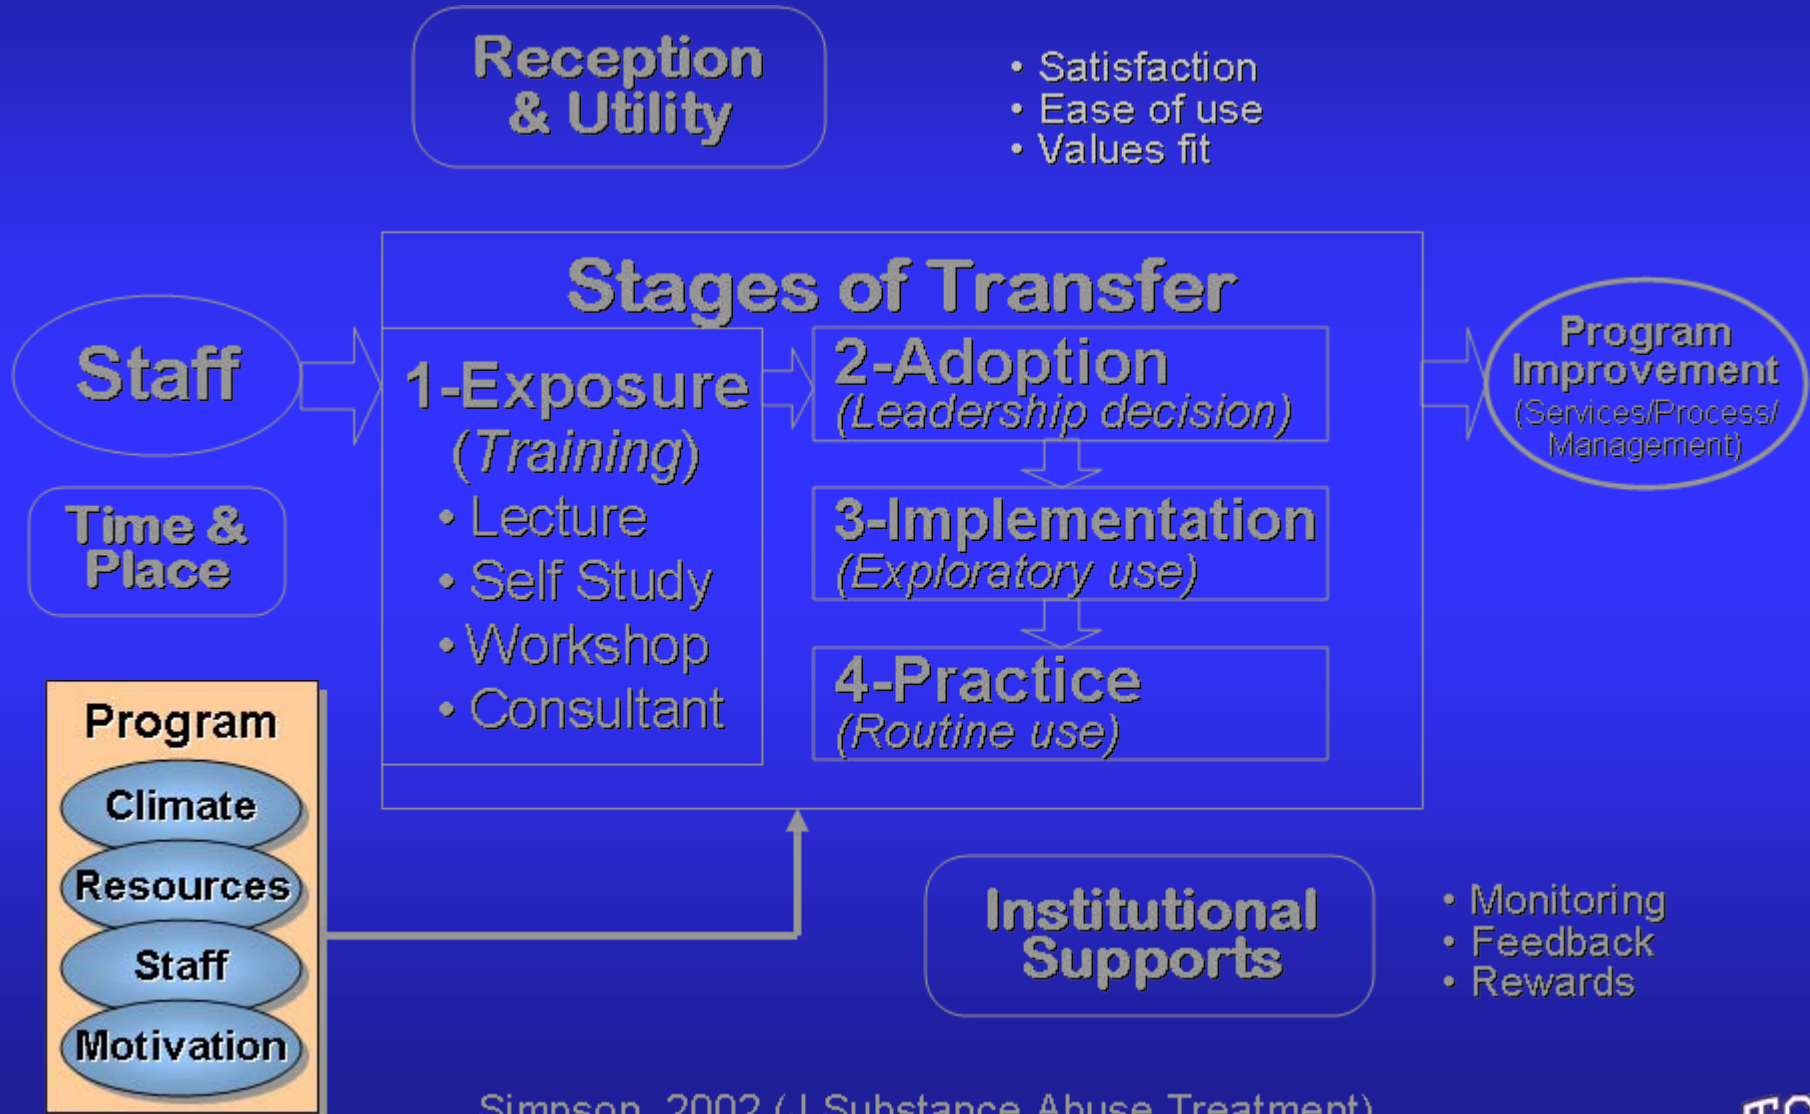

- Develop a system to provide meaningful, evidence-based information about a program's well being
- Move it from research to practice

Program Change Model

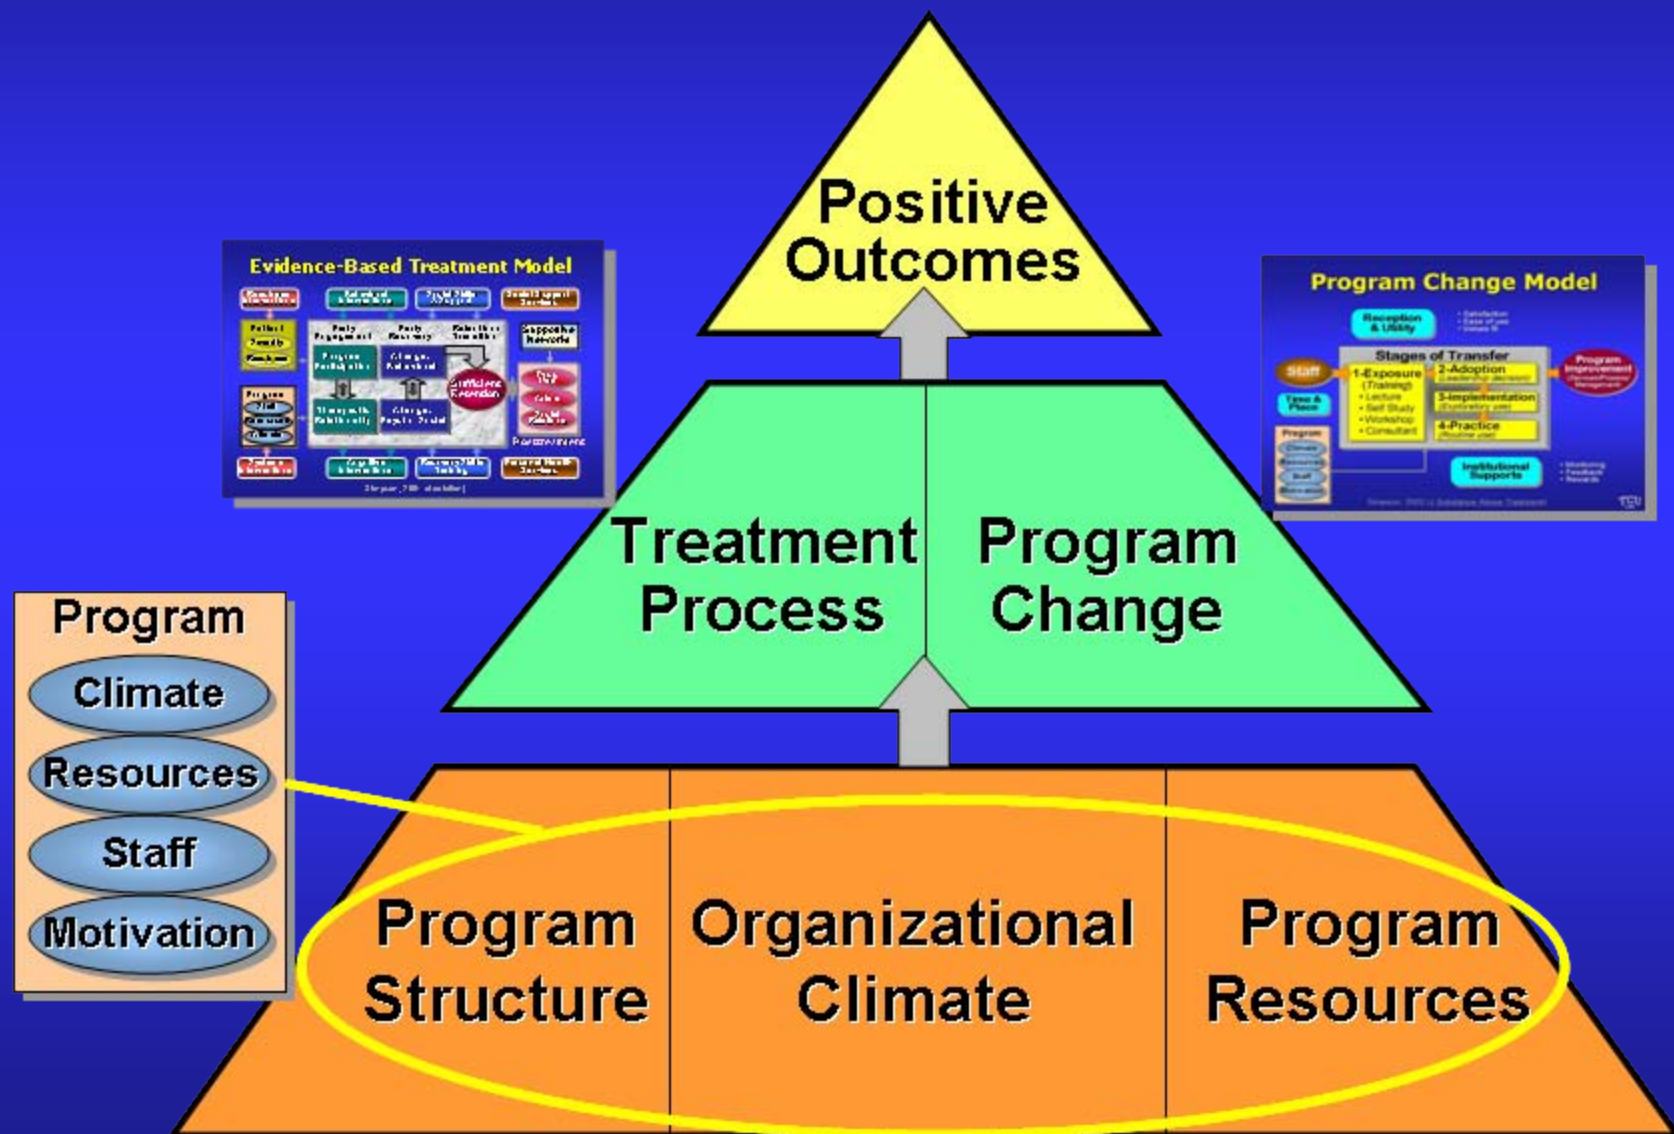

Simpson, 2002 (J Substance Abuse Treatment)

Program Change Model

Simpson, 2002 (J Substance Abuse Treatment)

Systems Infrastructure for Treatment Process and Change

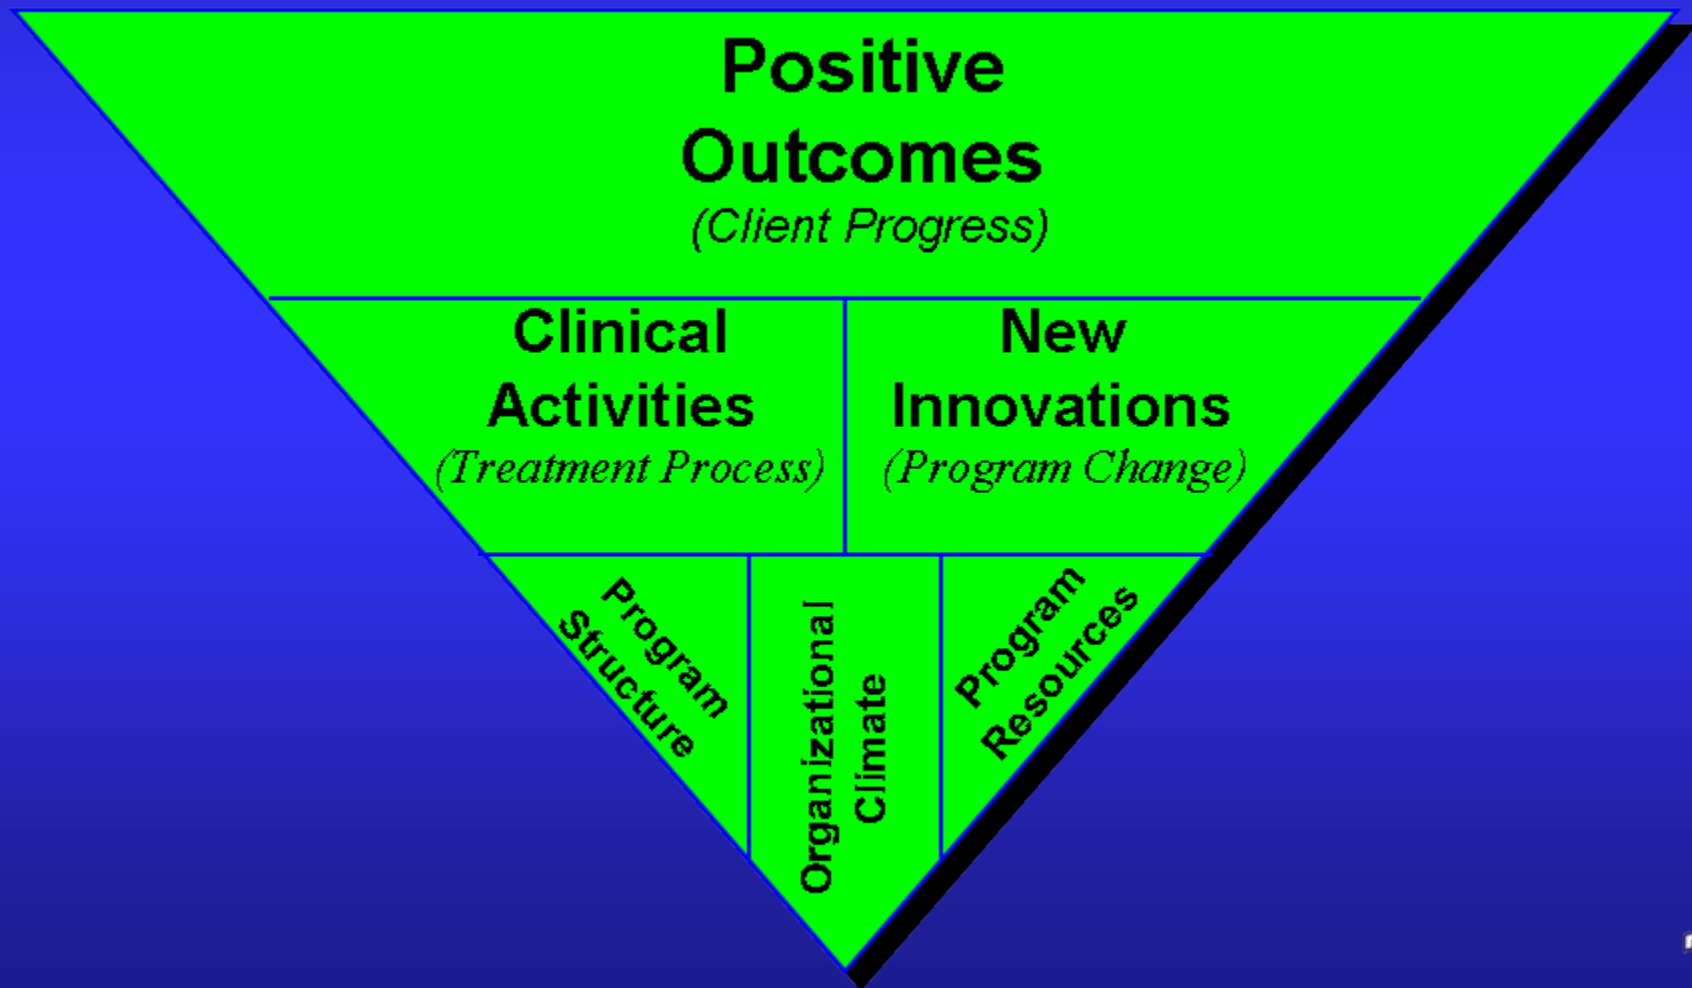

Conceptual Model of Organizational Foundations for Treatment Process and Change

Research Basis for Conceptual Model

Relative Number of Studies

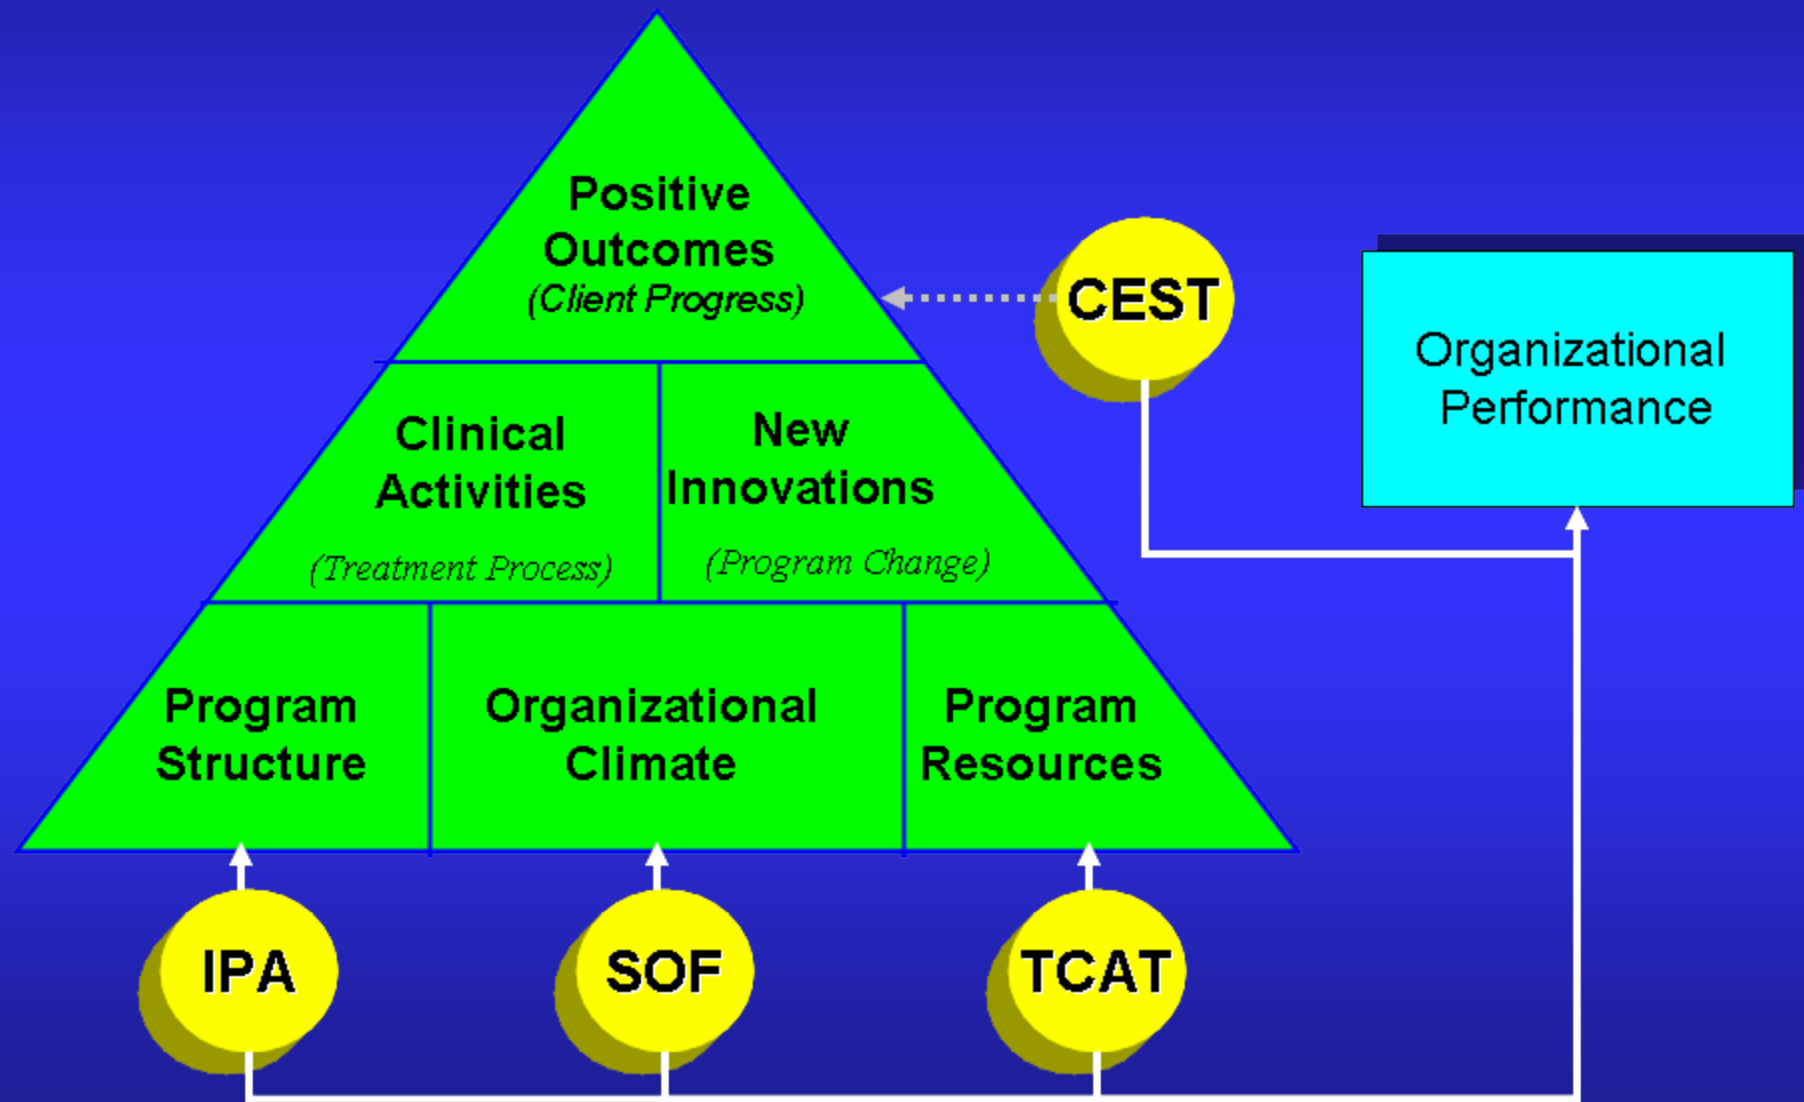

Assessments

- Initial Program Assessment (IPA)
- Survey of Organizational Functioning (SOF)
- Client Evaluation of Self & Treatment (CEST)
- Treatment Cost Analysis Tool (TCAT)

Research to Practice

Assessment Model of Organizational Foundations for Treatment Process and Change

Assessments

- **Survey of Organizational Functioning (SOF)**
- **Client Evaluation of Self & Treatment (CEST)**
- **Treatment Cost Analysis Tool (TCAT)**

Organizational Functioning

Climate:

- Mission
- Cohesion
- Autonomy
- Communication
- Stress
- Change

Resources:

- Offices
- Staffing
- Training
- Equipment
- E-Communications

Staff:

- Growth
- Efficacy
- Influence
- Adaptability

Motivation:

- Program Needs
- Training Needs
- Pressures

Job Attitudes:

- Burnout
- Satisfaction
- Director Leadership

Workplace Practices:

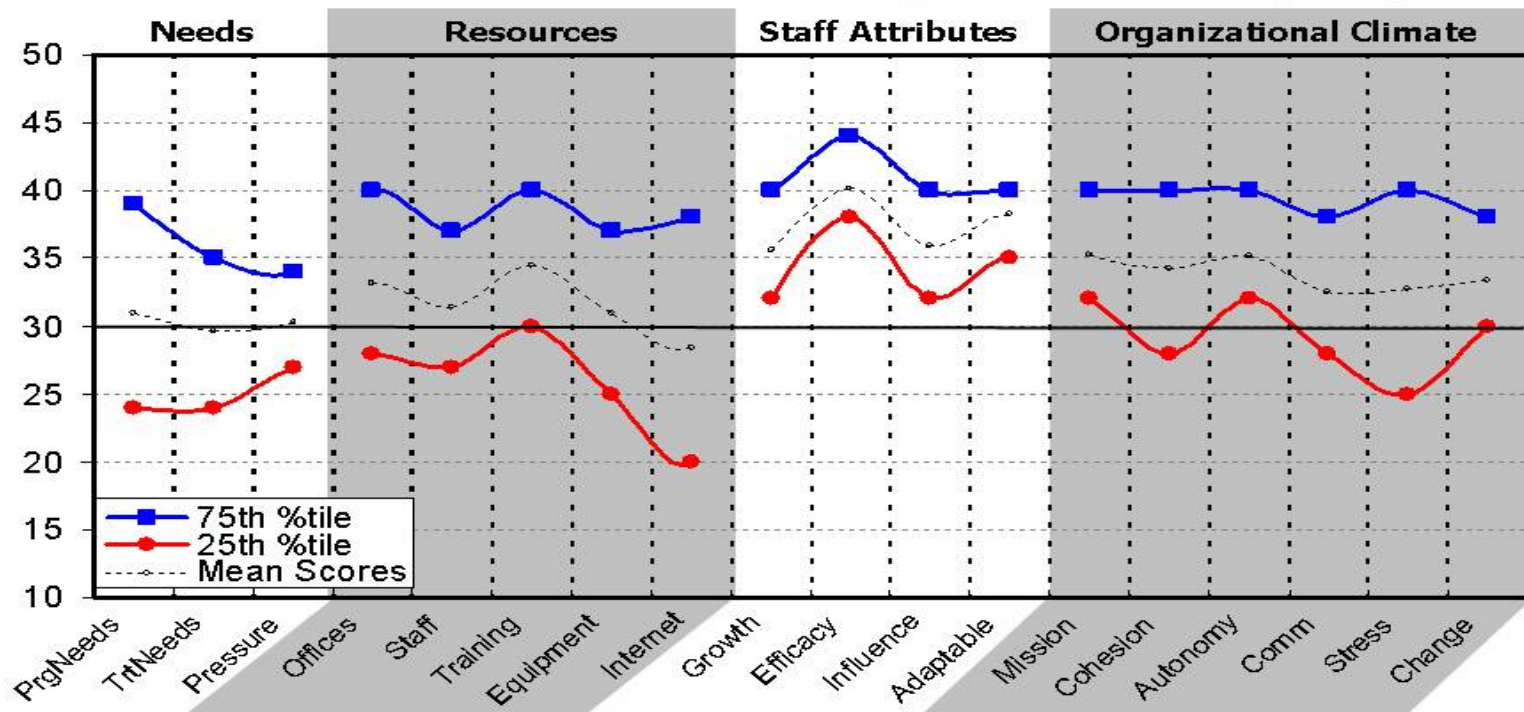

- Peer Collaboration
- Deprivatized Practice
- Collective Responsibility
- Focus on Outcomes
- Reflective Dialogue
- Counselor Socialization

Organizational Functioning & Readiness (based on Staff ratings)

Means & Norms for Organizational Functioning Scale Profiles

25th-75th Percentile ORC Scores (TCU Files N=2,031)

TCU Organizational Readiness for Change (ORC-S) Scores

Assessments

- **Survey of Organizational Functioning (SOF)**
- **Client Evaluation of Self & Treatment (CEST)**
- **Treatment Cost Analysis Tool (TCAT)**

Client Evaluation of Self & Treatment (CEST)

Psychosocial

- A. Motivational
- B. Psychological
- C. Social

- 6-8 item scales
- Scores = 10-50
(5-pt Agree-Disagree)
- $\alpha = .70 - .90$
- Validity evidence

Treatment Engagement

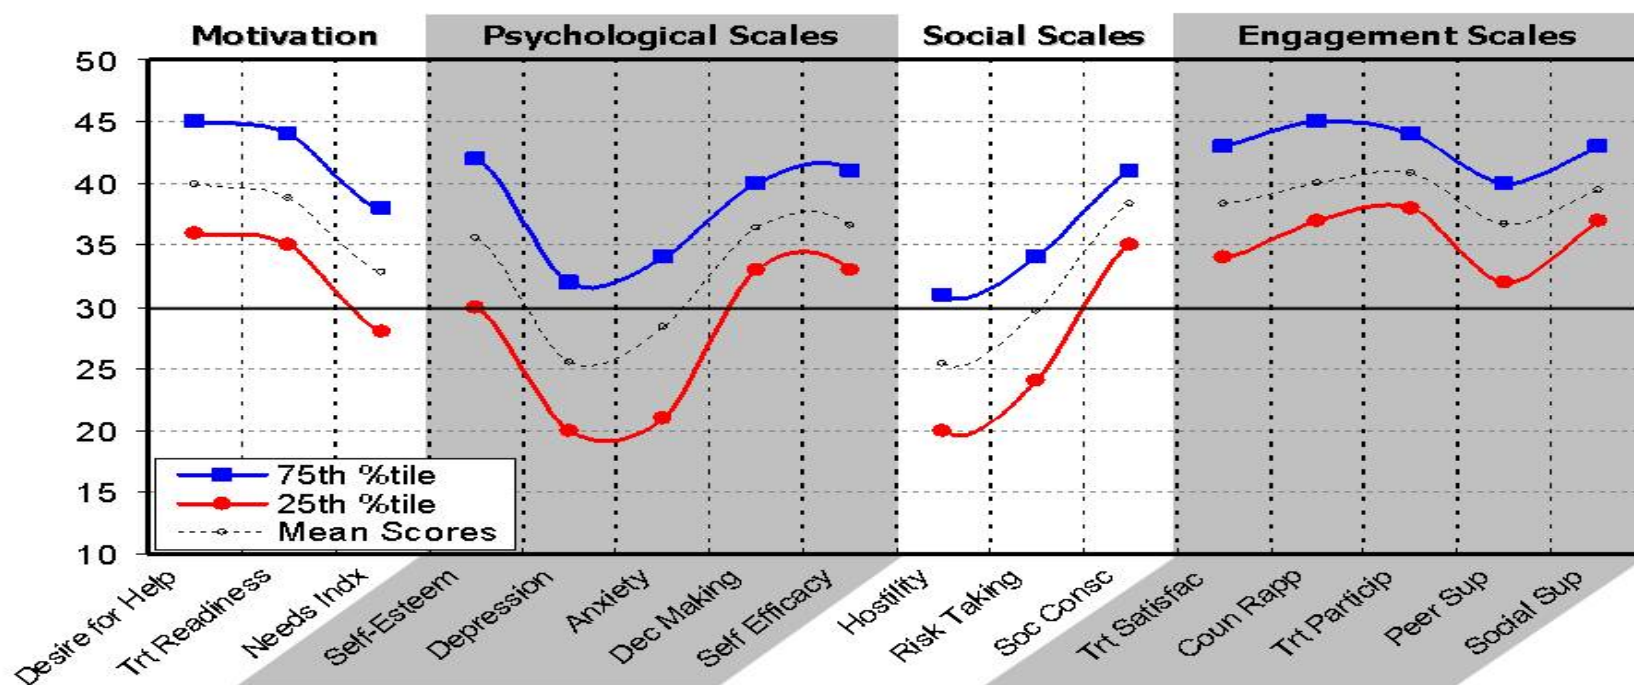

- A. Treatment Participation
- B. Treatment Satisfaction
- C. Counseling Rapport

- D. Peer Support (Clients)
- E. Social Support
(Family/Friends)

Client Engagement & Functioning in Treatment (for Client & Program)

Means & Norms for CEST Scale Profiles

25th-75th Percentile CEST Scores (TCU Files N=8,933)

TCU Client Evaluation of Self & Treatment (CEST) Scales

Nov 2004 - Copyrighted

Assessments

- **Survey of Organizational Functioning (SOF)**
- **Client Evaluation of Self & Treatment (CEST)**
- **Treatment Cost Analysis Tool (TCAT)**

Treatment Cost Analysis Tool (TCAT)

- ADSS (Brandeis) Methodology
- MS Excel-Based Workbook
- Linked Worksheets

Sample Program Cost Reports

Texas Christian University Treatment Costs and Organizational Monitoring (TCOM) Project	Source Codes - Documented Data WIS-Management Information AF-Budgeted Financial Statement AF-Annual Report OD-Other Documentation	Source Codes - Adjustments and Estimates ADJ-Adjustment of Documented Data WIS-Internal Estimate E-External Estimate
---	--	--

Page 11 - Key Data Summary (NO)

	Data Items	
1 Active Client Count	124	
2 Annual Admission Count	372	
3 Annual Discharge Count	372	
4 Average Length of Stay (Calendar Days)	124	
Total Costs of the Parent Treatment Facility/Organization Costs (including all sibling costs)	31,844,851	
Total Costs of the Identified Treatment Program for Cost Analysis		
6 Total Personnel Services Costs	\$ 378,285	Proportion of Costs to Total Derived Costs
7 Combined Total for Capital, Other Non-Personnel	\$ 272,822	
8 Purchased, and Donated Items	\$ 105,463	72% 28%
9 Total Derived Costs	\$ 378,285	100%
Cost Per Episode* (from Admissions)	1016.895161	N/A
10 Cost Per Enrolled Client Day** (from Admissions)	8.20076743	N/A
11 Cost Per Counseling Hour***	46.4682598	N/A
12 Cost Per Group Counseling Hour Per Client****	4.224387255	N/A
13		

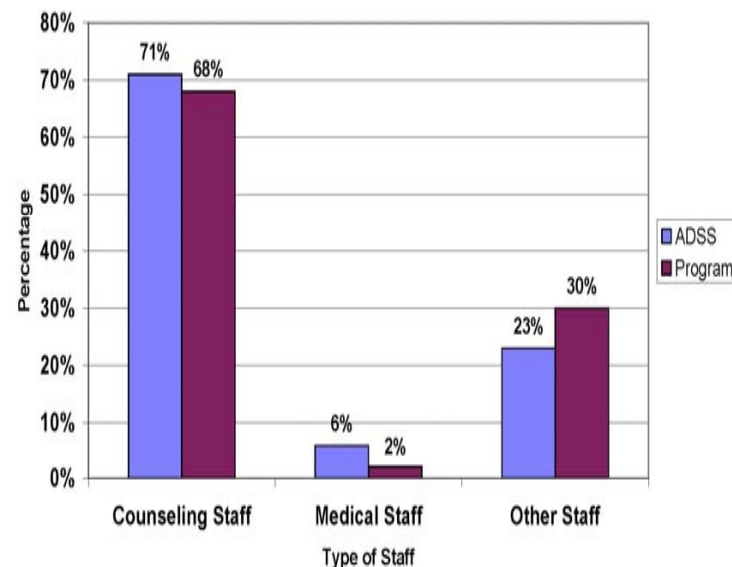

* Cost Per Episode is calculated as Total Costs of the Program/Total Admissions

** Cost Per Enrolled Client Day is calculated as (Total Costs of the Program/Total Admissions)/Average Length of Stay

*** Cost Per Counseling Hour is calculated as Total Costs of the Program/Total Counseling Hours Provided

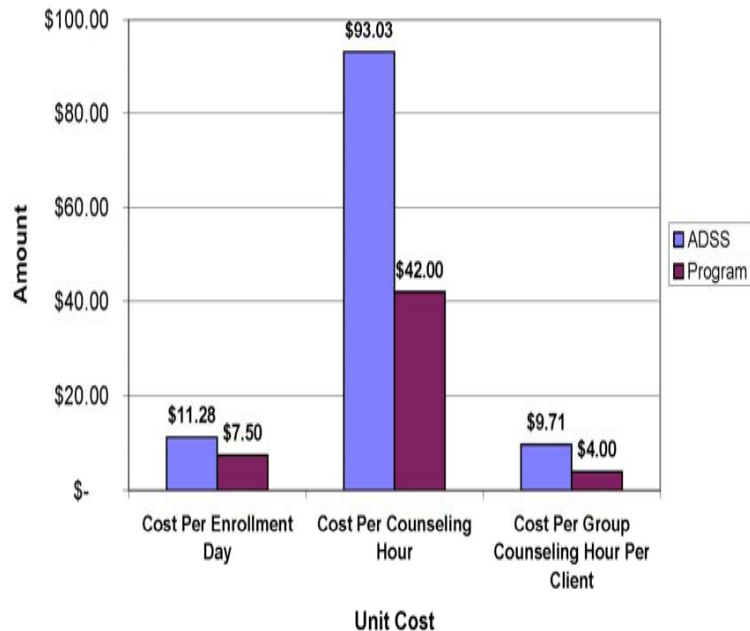

**** Cost Per Group Counseling Hour Per Client is calculated as Cost Per Counseling Hour/Mean Number of Clients Per Group

Percentage Distribution of Personnel Costs for
Outpatient Nonmethadone Treatment ADSS and
Selected Outpatient Program for Analysis

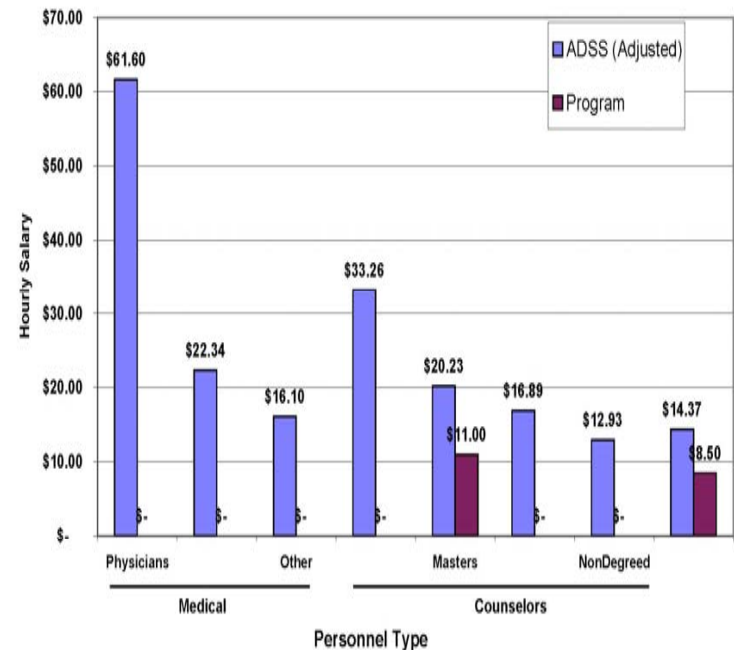

Sample Program Cost Reports

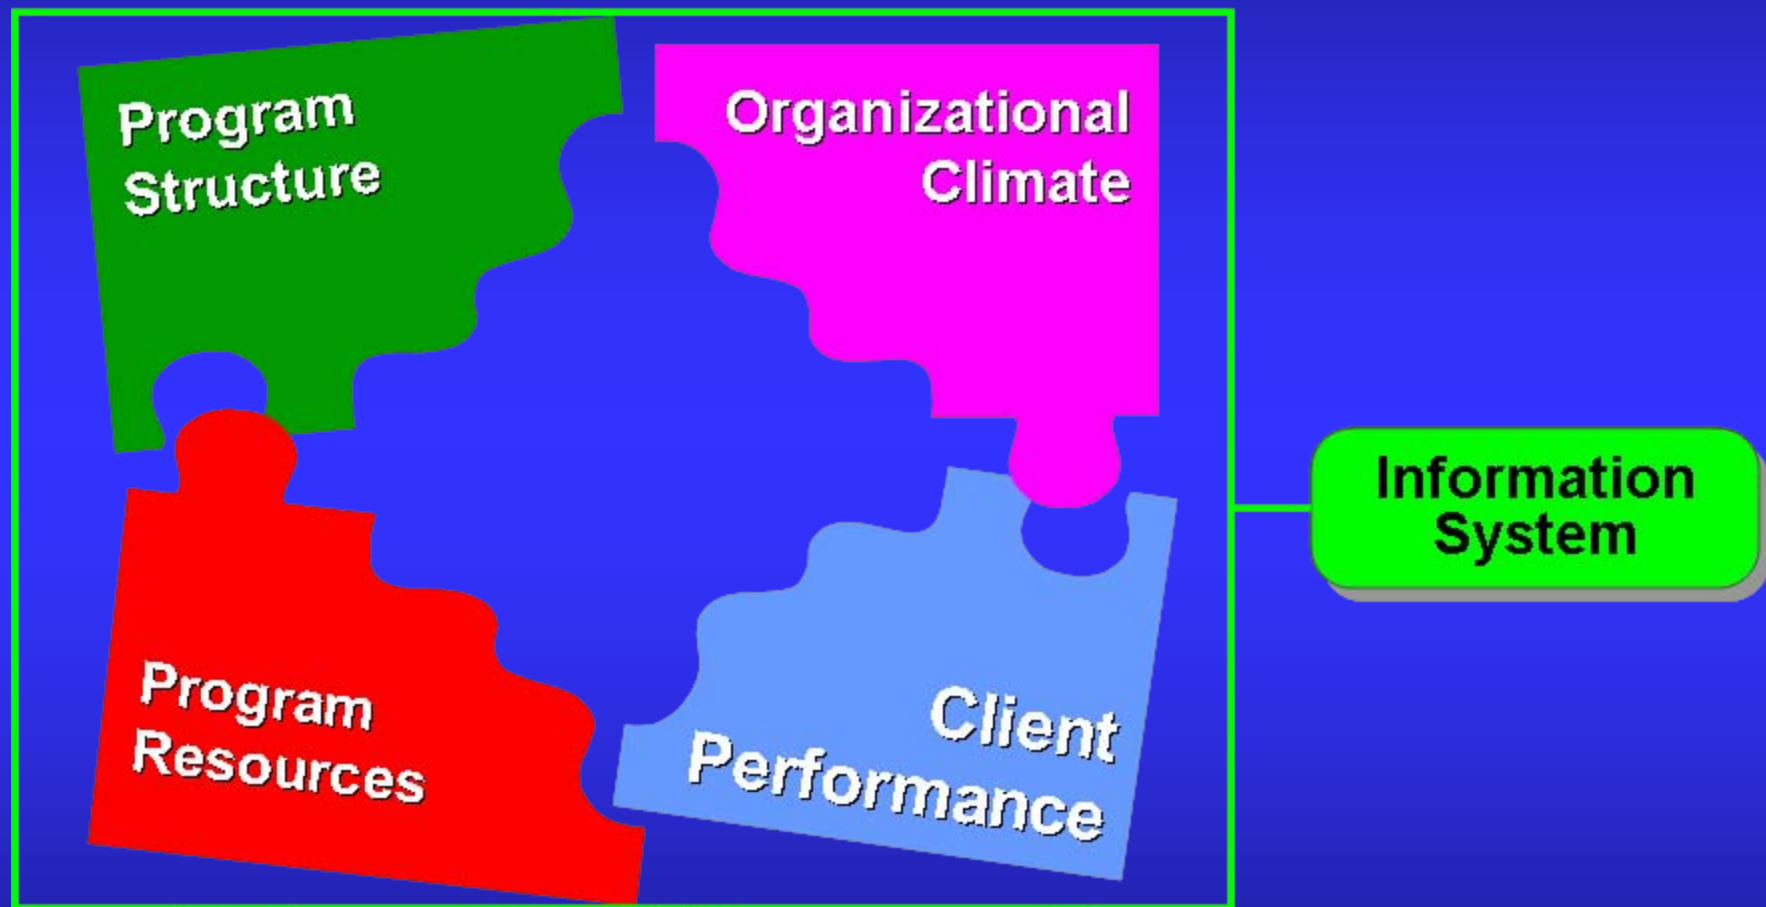

Average Program Costs: Adjusted ADSS and Program Data

Mean Hourly Personnel Rates, by Full-Time Staffing Category
