Re: Notice #4

Dear Sir or Madam,

I am writing in favor of option #2 proposed regarding Flavored Malt Beverages.

I have concerns that option #1 would cause many of the current FMB products to lose their market share in the alcohol industry in an unrightful manor. Not only would this affect the ultimate producer but also everyonn chaineddown tot he customers buying these products at retail. I say this not only to protect my job in beer delivery but also to bring attention to the chain reaction that could take place in the event of option #1.

Relize the consequences of option #1 when making your decision. Jobs and FMB consumers depend on you to support option #2.

Sincerely,

Lucas Sabal
