

INCIDENT MANAGEMENT SITUATION REPORT
 WEDNESDAY, AUGUST 11, 1999 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Good progress was made on large fires in the Western Great Basin Area. Initial attack activity was reported in the Northwest, Northern California and Eastern Great Basin Areas. Very high to extreme fire indices were reported in the Northwest. Very high fire indices were reported in the Southern California, Northern Rockies, Eastern Great Basin, Western Great Basin and Eastern Areas. New Jersey reported extreme fire danger.

WESTERN GREAT BASIN LARGE FIRES:

An Area Command Team (Meuchel) is assigned to support large fires within the Western Great Basin.

SADLER COMPLEX, Elko Field Office, BLM. A Type I Incident Management Team (Storey) is assigned. This fire is 45 miles south of Elko, NV. A few short runs were observed in the sagebrush yesterday. High relative humidities kept the fuels from carrying the fire. A major wind event yesterday caused significant damage to the base camp, yet had little effect on the fire. Following the wind event, heavy rain with hail was received on the fire.

EUREKA COMPLEX, Battle Mountain Field Office, BLM. This complex includes the Trail Canyon fire. The fire was relatively inactive yesterday due to increased relative humidities, cooler temperatures and precipitation received. A major wind event Tuesday morning caused extensive damage to the fire camp. Significant effort was required to make the camp operational and to re-establish communications.

EAST CANYON, Elko District, BLM. This fire is located 35 miles southeast of Jackpot, NV. High winds were observed on the fire yesterday afternoon with no increase in fire size. Rain was being received on the fire at the time of the report.

CCD = Carson City Field Office, BLM.
 WID = Winnemucca Field Office, BLM.

NORTHWEST LARGE FIRES:

LAKE WENATCHEE COMPLEX, Wenatchee National Forest. A Type II Incident Management Team (Furlong) is assigned. This fire is fifteen miles northwest of Leavenworth, WA. The complex contains 20 fires of which 16 are controlled. New starts continue to affect the containment date.

LAKE WENATCHEE	WA	WEF	80	90	8/11	159	2	2	2	0	NR	1.19M

EASTERN GREAT BASIN LARGE FIRES:

SOLDIER, Salmon/Challis National Forest. A Fire Use Team (Sexton) is assigned. Fire activity has been minimal due to higher relative humidities and lower temperatures.

RAMEY, Payette National Forest. A Fire Use Team (Hescock) is assigned. This Wildland Fire Use incident is being monitored by the Sheepeater Lookout and aerial reconnaissance. Fire activity was minimal.

SCOTT CREEK, Sawtooth National Forest. A Fire Use Team (Fay) is assigned. Activity was limited to single tree torching and light ground movement. The fire is being monitored by fixed wing reconnaissance.

ALLEN CREEK	MT	SOS	1200	100	----	70	0	20	0	0	NR	10K

EASTERN AREA LARGE FIRES:

CROW'S NEST, New York State. This 900 acre fire is on the northern edge of West Point Military Reservation, two miles south of Cornwall-on-Hudson, New York. The fire has crossed over into Palisades Interstate Park. The fire area has been used since the 1830's as an artillery impact area for the U.S. Military Academy. This fire was previously named Black Bear Mountain. Suppression activities are being conducted jointly by: Palisades Interstate Park Commission, New York State Department of Environmental Conservation, Department of Defense - West Point, New York National Guard and local volunteer fire departments.

OUTLOOK:

Nevada, Utah and Idaho will continue to have scattered thunderstorms generated by an upper level low pressure area and associated jet stream moving through the Great Basin. The west coast will be cloudy with drizzle and fog in the morning. Northern California and Oregon will have widely scattered showers and possible thunderstorms. Washington will be dry.

High temperatures will range from the 60's along the west coast to the 70's in the mountains. The valleys will be in the mid 80's to the upper 90's.

Oregon, Washington and Utah winds will be 15 to 25 mph, with gusts to 35 mph. Otherwise, winds will be light away from the thunderstorms.
