Report No. 148

November 29, 2000

MASS MEDIA BUREAU MULTIPOINT DISTRIBUTION SERVICE AND INSTRUCTIONAL TELEVISION FIXED SERVICE APPLICATIONS TENDERED FOR FILING

Notice is hereby given that the applications listed below for Multipoint Distribution Service (MDS) and Instructional Television Fixed Service (ITFS) were tendered for filing for the initial filing window, August 14 through 18, 2000. *See Public Notice*, 15 FCC Rcd 11466 (DA 00-1481, rel. June 30, 2000).

Following this public notice, applicants have a period of sixty (60) days to amend their applications. These amendments must not result in any increase in interference to any previously proposed or authorized station, or to facilities proposed during the filing window, absent consent of the licensee of, or applicant for, the authorized or proposed station that would receive such additional interference. *See* 47 C.F.R. §§ 21.27 and 74.911. All amendments must be filed electronically via the Internet through the Mass Media Bureau's Broadband Licensing System (BLS) at: <http://www.fcc.gov/mmb> no later than the close of business January 29, 2001. MDS and ITFS applicants for two-way authority shall submit electronically their amendments using FCC Form 331. All amendments and modifications to ITFS **main** stations must be filed electronically on FCC Form 330, including proposals for two-way transmissions of the **main** station.

Each amendment must identify the MDS or ITFS application by its file number and the proposed or authorized station by its facility identification number. Response station hubs, signal booster stations and I channels are considered stand-alone stations and thus have unique facility ID numbers separate from the associated main stations. The correct facility ID number can be found through a BLS public access search. If an amendment results in a change in the required Methodology, the applicant must submit a revised CD-ROM or 3.5-inch diskette showing the amended Methodology to the FCC Reference Information Center, 445 12th Street, SW, Room CY-A257, Washington, DC, 20554. The applications and any amendments will be available for public inspection and copying during regular business hours at the FCC Reference Information Center. In addition, applicants and members of the public have online access to MDS and ITFS applications and station information through the BLS.

After this 60-day amendment period, the Commission will issue a public notice announcing those applications accepted for filing. All petitions to deny such applications must be filed no later than the sixtieth (60th) day after the date of that public notice. *See* 47 C.F.R. §§ 21.27, 21.909, 21.913, 74.911, 74.939 and 74.985.

For further information, contact Melvin Collins at (202) 418-1622 or Nazifa Naim at 418-7059.
