# INCIDENT MANAGEMENT SITUATION REPORT <br> TUESDAY, AUGUST 16, 2005 - 0530 MDT <br> NATIONAL PREPAREDNESS LEVEL 3 

## CURRENT SITUATION:

Initial attack activity was light nationally with 127 fires reported. No new large fires were reported. Three large fires were contained, one each in the Northwest, Southern California and Western Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Idaho, Minnesota, Montana, Nevada, Oregon, Utah and Washington.

## NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. The fire is adjacent to a significant Native American cultural area. Active fire behavior with crown runs and spotting were reported.

BLACKERBY, Maggie Creek Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Larsen) is assigned. This fire is six miles southeast of Grangeville, ID in timber. Private residences, outbuildings, endangered species habitat, and power lines remain threatened. Structure protection measures continue to be implemented. The fire is backing down the river canyon on the southeast and northern flanks.

LONG RUGGLES, Craig Mountain Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Blume) is assigned. This fire is 22 miles southwest of Craigmont, ID in timber and brush. Big game winter range habitat remains threatened. Steep, rocky terrain and limited access are impeding containment efforts. Isolated torching and spotting were reported. The interior continues to burn in heavy fuels.

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Poor access and heavy fuels continue to hinder containment efforts. The fire exhibited group torching and creeping surface fire.

DEVIL, Clearwater National Forest. This fire is 13 miles west of Lochsa, ID in timber and brush. Cultural sites along the Lolo Motorway remain threatened. Steep terrain is impeding containment efforts. The fire continues to creep and smolder.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Structure protection measures are being implemented. Minimal fire activity was reported. No further information was received.

WEST FORK, Nez Perce National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles south of Grangeville, ID in Douglas fir and ponderosa pine. Steep terrain and dangerous snags are impeding control efforts. The inversion lifted and fire became active within the interior. Burn out operations were completed.

SIGNAL ROCK, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Benes) will assume command of this fire. The fire is 17 miles southwest of Philipsburg, MT in timber. No further information was received.

I-90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) is assigned. This fire is one mile south of Alberton, MT in timber, and includes the West Mountain, Tarkio, Fish and Alberton East fires. Private residences, commercial properties, recreational sites and a major power grid remain potentially threatened. Short crown runs, group torching and intermittent surface fire was reported. Burn out operations are ongoing.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) has been ordered. This lightning-caused Wildland Fire Use (WFU) complex, comprised of El Capitan, Elk Lake and thirty seven other fires, is 26 miles southwest of Hamilton, MT in timber and grass. The complex is being managed to accomplish resource objectives. Deep Creek Campground, Hells Half Acre Lookout and Coopers Flat Ranger Station remain potentially threatened; structure protection measures continue to be implemented. Magruder Corridor Road is closed to through traffic. Trail closures are in effect. The incident reported single tree torching and short range spotting.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, abundant snags and limited access continue to hamper containment efforts. The Black Cnayon fire continues to exhibit crown runs and single tree torching in the interior. The Long Creek fire exhibited smoldering and creeping fire activity.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 10 miles northwest of Darby, MT in timber. Structures and cultural sites remain threatened. Narrow canyons, steep and rocky terrain continue to hamper containment efforts. Fire continues to spread in heavy fuels into a wilderness area.

RUNNING COMPLEX, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Running Lake, Mud Lake and Long Prairie fires is 30 miles east of Lowell, ID in subalpine fir and mixed conifer. The fire is being managed to accomplish resource objectives. No new information was reported. This will be the last report unless new information is received.

## NORTHWEST AREA INCIDENTS / LARGE FIRES:

BLOSSOM COMPLEX, Siskiyou National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Lohrey) and an Oregon Department of Forestry Incident Management Team (Hunt). This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Private structures, commercial rafting sites, historic mines and wildlife habitat along the Rogue River remain threatened. Inaccessible terrain and heavy fuel loading are hampering containment efforts. The fire is being held at the Rogue River. The incident continues to report backing fire and burning in the interior.

BURNT CABIN, Umatilla National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This fire is 16 miles southeast of Milton-Freewater, OR in timber. Road and trail closures are in effect. Residences, commercial properties, lynx habitat and a water source for Walla Walla, WA are threatened. Heavy fuel loading is contributing to rapid rates of spread. Torching and spotting continue.

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomeroy, WA in timber. Residences, recreational resources, improved sites, campgrounds and lookouts are threatened. Steep terrain and rolling debris are hampering containment efforts.

TRYON COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This complex, comprised of the Haas Ridge, Tryon and Cherry Creek fires, is 20 miles north of Imnaha, OR in timber and grass. A power transmission line, residences, heritage/cultural resources, grazing allotments and wildlife habitat remain threatened. Structure protection measures continue. Increased fire activity due to higher temperatures and lower relative humidity was observed.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. Structure protection assessment for a ranch is continuing. The Incident Command Post is being relocated to Riggins, ID. Poor nighttime relative humidity recovery and a lifting of the inversion caused active fire behavior throughout both burn periods.

MULE PEAK, Wallowa-Whitman National Forest. This previously reported fire is 20 miles southeast of La Grande, OR in timber. Steep terrain, limited access and heavy fuels are hampering containment efforts. No further information was received.

## EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADAGAN COMPLEX, Salmon-Challis National Forest. Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Private residences and commercial property remain threatened. Difficult access, rolling materials and steep terrain are hampering containment efforts. Temporary road closures are in effect due to aerial operations. Smoke is impacting nearby communities. Intense surface fire with torching, creeping and smoldering was reported.

FRANK CHURCH, Payette National Forest. A Fire Use Management Team (Bonefeld) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root, Center, Missouri Ridge and nine other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Structure protection measures are in place. The incident observed slow to moderate rates of spread with isolated torching and spotting.

JACOB, Arizona Strip, Bureau of Land Management. This fire is being managed in conjunction with the Brumley fire, 39 miles southwest of St. George, UT in brush and grass. Desert Tortoise habitat is threatened. Rough terrain and difficult access are hampering containment efforts. Smoldering fire behavior was observed.

## ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures at Dome Creek are threatened. Significant fire activity continues with 50-foot flame lengths observed.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This previously reported fire is 45 miles northwest of Fairbanks, AK in black spruce. The Wildwood Subdivision and Alyeska Pipeline Pump station is threatened. Structure protection measures have been implemented. Smoke is limiting aerial operations and visibility. Fire activity is characterized by torching, smoldering and creeping.

GRAYLING CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles northwest of Anvik, AK in timber. No new information was reported. This will be the last report unless new information is received.

## SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

COMB COMPLEX, Sequoia \& Kings Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral and is being managed to accomplish resource objectives. The interior continues to burn with smoldering and creeping reported.

NNS - Nevada Division of Forestry - Northern Region

## OUTLOOK:

Red Flag warning: For northwest Montana for winds and low humidity.
Weather Discussion: The weather disturbance off the California coast will move inland today over west-central Nevada for mainly wet thunderstorms over Nevada, Utah, Colorado and Arizona. A mixture of wet and dry thunderstorms is forecast for the Oregon-Idaho-Nevada triple point region. Expect low relative humidity in the interior Northwest, as well as eastern portions of Montana and Wyoming. Alaska will start to cool down as a weather disturbance moves in from the west with showers over the southwest portion of the state today.

| Geographic Area <br> Weather | High <br> Temperatures | Minimum Relative <br> Humidity | Wind |
| :--- | :--- | :--- | :--- |
| Eastern Area <br> Mostly cloudy with a slight <br> chance of showers and <br> thunderstorms across Northern <br> Minnesota. | 69 to 74. | 42 to $47 \%$. | Northwest 5 to 15 mph <br> becoming North. |

| Northern California <br> A chance of isolated afternoon or evening thunderstorms east of Goose Lake to Lassen National Park to Tahoe area. Otherwise fair to partly cloudy, with coastal fog areas. | Mid 70s to mid 80s mountains and 90s to near 100 in warmest interior valleys. | 15 to $27 \%$ drier inland areas. | Increasing in the afternoon to generally South to WSW 5 to12 mph, with local gusts to 20 mph . Brief erratic gusts 25 to 35 mph under or near thunderstorms due to down-draft winds. |
| :---: | :---: | :---: | :---: |
| Southern California Morning low clouds and fog coastal areas, otherwise mostly sunny in the morning becoming partly cloudy in the afternoon with a few showers and thunderstorms over the Sierra, Inyo and Death Valley. | 79 to 90 mountains. 85 to 92 valleys. 95 to 100 upper deserts. 95 to 105 lower deserts. | 15 to 30\%. | Southeast to southwest 5 to 15 mph . |
| Eastern Great Basin <br> Mostly sunny with isolated afternoon mountain thunderstorms Idaho. Scattered showers and thunderstorms Utah, more numerous over the mountains. | Idaho, Bridger-Teton: <br> 67 to 75 mountains. <br> 77 to 90 valleys. <br> Northern Utah: <br> 63 to 73 mountains. <br> 73 to 83 valleys. <br> Southern Utah, Arizona <br> Strip: <br> 65 to 80 mountains. <br> 80 to 94 valleys | Idaho, Bridger-Teton: <br> 20 to $30 \%$ mountains. <br> 13 to $20 \%$ valleys. <br> Northern Utah: <br> 40 to $50 \%$ mountains. <br> 25 to $40 \%$ valleys. <br> Southern Utah, Arizona <br> Strip: <br> 36 to $50 \%$ mountains. <br> 20 to $36 \%$ valleys. | Idaho, Bridger-Teton: <br> Upslope and light. <br> Northern Utah: <br> Upslope/upvalley 5 to 10 mph . <br> Southern Utah, Arizona <br> Strip: <br> South/southwest 15 mph . |
| Northwest Area <br> West of Cascades: morning clouds, partly to mostly sunny inland. Remaining cloudy coast. <br> East of Cascades: Partly to Mostly sunny. Isolated thunderstorm or two far Southeast Oregon. | West of Cascades: mid-70s north to near 90 south. Coast 60s. East of Cascades: generally 85 to 95 , warmest across the Columbia Basin. | West of Cascades: 35 to $50 \%$, highest near the coast. <br> East of Cascades: most areas 15 to 30\%. | West of Cascades: <br> West wind 5 to 10 mph . <br> East of Cascades: <br> West wind 10 to 15 mph...but locally 15 to 20 mph and gusty on the east slopes of Cascades. |
| Northern Rockies Upper level ridge flattens and westerly flow will dominate. Chance of some gusty west winds over northwest Montana. Isolated thunderstorms possible along Northern Divide. | West of Divide: 80 to 90 . East of Divide: 80 to 85 . North Dakota: 70 to 80 . | West of Divide: 20 to 25\%. <br> East of Divide: 20 to $30 \%$. <br> North Dakota: 30 to 45\%. | West of Divide: West 5 to 10 mph <br> with some higher gusts possible. <br> East of Divide: Northeast 5 to 10 mph . <br> North Dakota: light and variable. |
| Alaska <br> Mostly sunny and smoky with isolated evening showers or thunderstorms possible in the southern interior. | 70s and low 80s. | 25 to 40\%. | Northeast 10 to 15 mph . |

## SERIOUS INJURY PROCEDURES

Dealing with serious injuries on the fireline can add even more stress to our hectic work environment. In the event a fireline accident occurs, adherence to the following principles is important to insure an adequate and appropriate response is made.

- Before entering the scene, determine whether it is safe to approach. Look for hazards as well as what may have happened. It may be necessary to move the patient or to make the area safe before doing an assessment.
- Provide first aid and assess the extent of the injuries.
- Make contact with your supervisor. Depending on the complexity of the fire, that could be your crew boss, the Division Supervisor, the IC, or even dispatch. If your fire has a medical plan, follow the plan.
- Provide them with accurate, concise information on the following
- Number of people injured
- Type of injuries
- Severity of injuries (light, moderate, severe, life threatening)
- Mechanism of injury
- Vital signs (pulse, respirations, level of consciousness, etc)

Determine the best method of evacuation. Depending on the severity of injury or availability of resources, this decision my already be made for you.

- Keep the radio frequency clear of non-emergency traffic, provide updates of the patients condition and await instructions.
- If evacuation is by helicopter, it may be necessary to construct a helispot. Document treatment provided in case it is necessary to send the information along with the patient in the aircraft.
If the patient needs to be carried to a road, insure enough people are available to work in relays.
- Once the patient is clear, take a moment to write down witness statements, clean up notes and timelines, and document any other pertinent information.
