

To Whom It Should Concern,

I adjure you to please defend First Amendment Constitutional rights of free speech by allowing Christian radio to broadcast with the proposed restrictions and conditions. I love to listen to K-Love and WYGS (out of Columbus, Indiana), and do not want to see their programming changed or ended by the proposed regulations. This supposed to be a free country, one that other nations look to for an example of freedom. Please don't turn us into a restricted nation! Do what you know to be right! Take the high road! Support freedom and the U. S. Constitution!
