

§ 134.2

reimbursement of the cost of such system and to which land, water for irrigation purposes can be delivered from such system, shall pay, on or before November 15, 1920, a sum equal to 5 percent of the per acre cost, as of June 30, 1920, of the construction of the system under which such land is situated. The per acre cost of a given system as of June 30, 1920, shall be determined by dividing the total amount expended for construction purposes on such system up to that day by the total area of land to which water for irrigation purposes can be delivered on that date; and on November 15 of each year following the year 1920, until further notice, the land owners, as therein prescribed, shall pay 5 percent of the per acre construction cost as of June 30, of the current year, such per acre cost to be determined by dividing the cost of the system to June 30 of that year by the total area of land to which water for irrigation purposes can be delivered from the system on that date. Provision is contained that no payments shall be required under the regulations in behalf of lands still in process of allotment or prior to the issuance of the first or trust patent therefor, nor for lands reserved for school, agency, or other administrative purposes where the legal title still remains in the United States.

§ 134.2 Landowners financially unable to pay.

Considerable difficulty has been encountered in collecting charges under the regulations in this part owing to the fact that Indians have been financially unable to pay the charges, the result being that the construction charges have accrued against the lands and in cases where the land is sold for the benefit of the allottee or his heirs under the regulations, the purchaser is to pay the accrued and future irrigation charges which make it difficult in some instances, to sell the land at as favorable terms as might otherwise be secured.

§ 134.3 Period for payments extended.

Furthermore, in recent legislation dealing with specific projects in the Bureau and also all reclamation projects the policy has been to extend

25 CFR Ch. I (4-1-03 Edition)

the payment of such charges over a longer period of years.

§ 134.4 Annual payment reduced.

In view of these conditions the regulations governing this matter are hereby modified so as to distribute the unaccrued installments over a period of time so that 2½ percent of the total amount yet due shall be due and payable on November 15 of each year until further notice. You shall accordingly ascertain the per acre cost after deducting the amount of the accrued charges and take 2½ percent of that amount and a like sum each year so that the amount of the annual installments will be the same each year. Superintendents are obligated to submit all proposed lists of sales involving allotments containing irrigable allotments to the project or supervising engineer for checking, as to the irrigable acreage and amounts of unpaid construction, operation, and maintenance charges against such allotments. Each sale forwarded to the Bureau for action shall be accompanied by contract executed on Form 5-462b where irrigable acreage is involved and after approval thereof a copy of contract on said form shall be sent to the project engineer for his records and the charges paid by the purchaser shall be turned over to the disbursing agent for credit and deposit as instructed in the next paragraph. The regulations in this part shall not apply to lands in the Wapato project, on the Yakima Indian Reservation, nor to the irrigation projects on the Blackfeet, Fort Peck, Flathead, and Crow Reservations, Montana, for which special regulations have been issued nor to the Fort Hall Reservation, Idaho, or the San Carlos project, Arizona.¹

CROSS REFERENCES: For special regulations applying to San Carlos project, see part 137 of this chapter. For further information concerning Form 5-462b, see part 159 of this chapter.

¹The special regulations for Wapato, Fort Peck, and Flathead, were not codified. Operations of the Blackfeet project were discontinued by the Bureau, July 20, 1938, effective September 30, 1933.
