BUREAU OF
LAND MANAGEMENT

Friends at BLM

2008 JAN 14 P 12:32

I am 65 years old and in my youth worked for the United States Department of the Interior as a Forest Service employee. I planted tens of thousands of Douglas firs, Worked in Timber Stand Improvement and was a foreman on a fire crew for a fire season. I love tree's, I live in a wood frame house and like to build with wood.

EUGENE DISTRICT OFFICE
EUGENE, OREGON

That said, as a taxpaying American citizen and partial owner of all federal lands, I demand that NO old growth trees or the areas where they grow be included in any bid or sale. I also demand that NO new roads be built into my/our forests. I also demand that NO changes be made to the current setback rules for harvesting timber.

Thanks you for your attention

Sincerely

Ray Robinson
