

III. Appendices

C. Food

1. The Sources of Residue Inputs for the Assessment of the Cumulative Dietary Exposure to Organophosphorus Pesticides on Foods

Table III.C.1. The Sources of Residue Inputs for the Assessment of the Cumulative Dietary Exposure to Organophosphorus Pesticides on Foods (foods in CSFII 1994-1998 are listed in descending order of relative per capita consumption by children 3-5 years old)¹

EPA Food Code	EPA Food Commodity Name	Per Capita Consumption Ranking	Relative % of Per Capita Consumption	Cumulative % of Per Capita Consumption	Source of Residue Input for Cumulative Exposure Assessment ²
27022240	Milk, water	1	32.796304	32.796304	PDP Monitoring
15004020	Wheat, flour	2	6.250845	39.047149	PDP Monitoring
11000100	Apple, juice	3	5.870102	44.917251	PDP Monitoring
10002410	Orange, juice	4	5.148442	50.065693	PDP Monitoring
27012230	Milk, nonfat solids	5	4.002840	54.068534	PDP Monitoring
15001240	Corn, field, syrup	6	3.979693	58.048226	PDP Monitoring
01013000	Potato, tuber, w/o peel	7	2.251024	60.299250	PDP Monitoring
21000440	Beef, meat	8	2.176239	62.475490	FDA Total Diet Study
95001760	Grape, juice	9	2.077754	64.553244	PDP Monitoring
11000070	Apple, fruit with peel	10	1.953363	66.506607	PDP Monitoring
95003620	Sugarcane, sugar	11	1.711318	68.217924	Assume negligible
40000930	Chicken, meat	12	1.691869	69.909793	PDP Monitoring
27002220	Milk, fat	13	1.649146	71.558940	PDP Monitoring
95000230	Banana	14	1.538813	73.097753	PDP Monitoring
06003500	Soybean, oil	15	1.532636	74.630388	PDP Monitoring
70001450	Egg, whole	16	1.439483	76.069871	FDA Monitoring
01010520	Beet, sugar	17	1.338297	77.408168	Assume negligible
08003770	Tomato, puree	18	1.321993	78.730161	PDP Monitoring
25002900	Pork, meat	19	1.015879	79.746040	FDA Total Diet Study
15001270	Corn, sweet	20	0.818669	80.564708	PDP Monitoring
08003750	Tomato	21	0.767095	81.331804	PDP Monitoring

EPA Food Code	EPA Food Commodity Name	Per Capita Consumption Ranking	Relative % of Per Capita Consumption	Cumulative % of Per Capita Consumption	Source of Residue Input for Cumulative Exposure Assessment ²
15002330	Oat, groats/rolled oats	22	0.733442	82.065246	PDP Monitoring
10002400	Orange	23	0.728717	82.793963	PDP Monitoring
11000110	Apple, sauce	24	0.700822	83.494786	PDP Monitoring
95001750	Grape	25	0.649534	84.144320	PDP Monitoring
15003230	Rice, white	26	0.646744	84.791064	PDP Monitoring
09013990	Watermelon	27	0.633156	85.424220	TRANSLATE cantaloupe

EPA Food Code	EPA Food Commodity Name	Per Capita Consumption Ranking	Relative % of Per Capita Consumption	Cumulative % of Per Capita Consumption	Source of Residue Input for Cumulative Exposure Assessment ²
02000510	Beet, garden, tops	394	0.000000	100.000000	Not Included

¹Percent per capita consumption for each food was estimated relative to the sum of per capita consumption for all foods in the survey. Only individuals with 2 days of reported consumption were counted.

²Data sources:

PDP Monitoring Data: Residue data were used directly or with application of a processing factor.

TRANSLATED: The indicated food was used as a surrogate in the absence of direct data. Chemicals were translated only if registered use exists on the food.

FDA Monitoring Data: Residue data from FDA Tolerance Enforcement Surveillance monitoring indicate that residues are negligible on these foods.

FDA Total Diet Study: The maximum index equivalent residue from 26 market baskets collected between 1991 and 1999 was assumed to be present in all of this food consumed.

Assume Negligible: Limited residue data available on these foods but available data from FDA Total Diet Study on sugar and maple syrup, PDP data on corn syrup, and a knowledge of the highly refined nature of these foods lead to the judgement that residues will be negligible.

Not Included: These foods have not been included in the preliminary assessment because of a lack of reliable residue data.
