INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, SEPTEMBER 2, 2000 - 0700 MDT
NATIONAL PREPAREDNESS LEVEL V

## CURRENT SITUATION:

A total of five new large fires were reported, four in the Southern Area and one in Western Great Basin. Crews reached containment goals on four large fires in the Southern Area, Northern Rockies and Western Great Basin. Initial attack activity was light except moderate in the Southern Area. An area of low pressure will linger over the Pacific Northwest bringing showers and thunderstorms and much cooler temperatures over most of the western states. Very high to extreme fire indices have been reported in most of the western states, Kansas, Arkansas, Oklahoma, Mississippi and Texas.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

WILLIE, Custer National Forest. A Type I Incident Management Team (Frye) is assigned. This fire is five miles southwest of Red Lodge, MT. Residents were allowed to return to their homes and Highway 212 was reopened to piloted traffic. Crews made significant progress on direct fireline construction.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. A burnout operation was completed on the Fat fire.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Fire activity moderated with the cooler temperatures and higher relative humidity.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type II Incident Management Team (Hendricks) is assigned. This fire is three miles northwest of Hamilton, MT. Fire activity remained light.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 15 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the

Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Fire spread was minimal due to scattered rain showers.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. The complex received .20 to .60 inch of precipitation.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. Crews were pulled off of the fire due to slippery conditions and hazardous access.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This fire is 31 miles southeast of Missoula, MT. The fire received very little moisture, but cooler temperatures and higher relative humidity helped limit fire growth. Structure protection remains in place.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Wands) is assigned. The fires are 15 miles east of Seeley Lake, MT. Fire growth was minimal today. Light precipitation occurred across the fire area.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. No new information was received.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Fire behavior was less active due to the area receiving isolated showers.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. Two Type II Incident Management Teams (Joki and Greene) are assigned. These fires are 25 miles northeast of Belgrade, MT. Light rain was received on portions of the fire.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires which have now burned together. Fire activity was reduced due to the area receiving . 15 inch of precipitation.

STONE YOUNG, Kootenai National Forest. A Type II Incident Management Team (Kearney) is assigned. The complex is 65 miles northeast of Libby, MT. Cliff Point and the Loop fires have burned together according to control strategy. The fire received . 25 inch of rain. Fire activity remains minimal with slow ground fire in the heavy fuels.

KOOTENAI COMPLEX, Kootenai National Forest. A Type I Incident Management Team (Longpre) is assigned. These fires are 20 miles northwest of Libby, MT. Minimal fire activity was observed with no gain in acreage.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. This complex of fires is near Troy, MT. The complex received rain, cooler temperatures and higher relative humidity which moderated the fire activity.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire continues to move to the east as it encounters lighter fuels. Continual spotting to the northeast is of concern. Monitoring continues on the northeast flank of the fire to aid in preparation of contingency plans.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire is on both sides of the Salmon River, 29 miles from Elk City, ID. No new information was received.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. Low fire activity was observed. Fire is being monitored by aerial reconnaissance.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. Natural barriers combined with helicopter bucket work aided in slowing fire growth. Creeping and isolated torching was observed in the unburned islands of fuel.

CYCLONE RIDGE, Flathead National Forest. This fire is 35 miles north of Kalispell, MT. There was no significant acreage increase.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. The Unlucky, Moose and Plateau fires are staffed with monitors to observe fire activity. No new information was received.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. No significant activity observed.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Fire activity has been low. The National Park Service is monitoring the fire with daily aerial observation flights. Confinement strategy is in place as well as structure protection for three cabin sites in the area. Wetting rains and cooler temperatures were received.

POACHER, Clearwater National Forest. This lightning-caused fire is 13 miles southeast of Powell, ID. Minimal fire activity was observed. The fire received . 17 inch of rain. It is being monitored by U.S. Forest Service personnel.

LIGHTNING MOUNTAIN 17, Idaho Panhandle National Forest. This fire is 18 miles northeast of Sandpoint, ID. Fuels are subalpine fir, Engleman spruce, brush and grass. Crews completed fireline construction on the
southwest flank of the fire.
COPPER, Clearwater National Forest. This fire is 40 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No new information was received.

PORPHYRY, Clearwater National Forest. This fire is 18 miles southeast of Powell, ID. No new information was received. U.S. Forest Service personnel are monitoring the fire.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. No new information was received. The fire is being monitored by U.S. Forest Service personnel.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. The fire received .17 inch of rain.

LONG RIDGE, Nez Perce National Forest. This fire is in the SelwayBitterroot Wilderness, 14 miles southwest of the Moose Creek Ranger Station. The fire is being monitored by reconnaissance flights and by the Gardiner Lookout. No new information was received.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. The fire is a backing fire with no significant activity noted. U.S. Forest Service personnel are monitoring the fire's activity.

EAST THUNDER 14, Idaho Panhandle National Forest. This fire is 23 miles east of Sandpoint, ID. Fuels are subalpine fir, spruce, brush and grass. Forest Service personnel are monitoring the fire. Crews completed fireline construction objectives.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. The fire activity remained low.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of Powell, ID. The fire is being monitored by U.S. Forest Service personnel. Smoke has not been observed for several days.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No new information was received.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. U.S. Forest Service personnel are monitoring the fire.

COLLINS CREEK, Clearwater National Forest. The fire is 25 miles northeast of Pierce, ID. No new information was reported.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. It is steadily backing into Young's Creek and Marshall Creek drainages. No new information was received. The fire is being monitored by U.S. Forest Service personnel.

LONE SHEEP, Nez Perce National Forest. This lightning-caused fire is 20 miles southwest of Elk City, ID. The area received . 17 inch of precipitation overnight.

## EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CLEAR CREEK, Salmon-Challis National Forest. A Type I Incident Management

Team (Hutchison) is assigned. The fire is ten miles west of Salmon, ID. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina are in field training. Some areas in the southern portion received up to . 67 inches of rain resulting in decreased fire activity. Rehabilitation may begin soon. Structure protection and fireline construction remain a priority.

MARLIN SPRINGS, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This fire is burning along the ridge between Montana and Idaho, 40 miles northwest of Salmon, ID. This complex consists of the Marlin Springs, Full Circle and Sister fires. The fire received some rain resulting in very little fire growth.

TETON COMPLEX, Grand Teton National Park, NPS. A Type II Incident Management Team (Murphy) is assigned. This complex is north of Jackson, WY. It consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Structure protection remains in place. Acreage adjustments are due to new GPS data. Containment problems for the fires in this complex include high winds, low relative humidity and heavy fuels.

YELLOWPINE COMPLEX, Payette National Forest. A Type I Incident Management Team (Melton) is assigned. This complex consists of Nick and Indian/Prospect fires and is located 20 miles east of McCall, ID. Structure protection and evacuation plans are in place if needed. The fire activity today was reduced due to high humidity and afternoon precipitation.

BLIND TRAIL COMPLEX, Bridger-Teton National Forest. A Type II Incident Management Team (Burdick) is assigned. This complex consists of the Blind and Boulder fires. The fires are 26 miles southeast of Jackson, WY. The heavy fuels and burning duff received some rain that aided in the containment effort.

FONTENELLE, Bridger-Teton National Forest. A Type II Incident Management Team (Mesenbrink) is assigned. This lightning-caused fire is 20 miles north of Kemmerer, WY. The fire continues to grow despite the rain that has been received. Control and mopup efforts continue. Steep slopes and limited access are hampering progress.

BURGDORF JUNCTION, Payette National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is 23 miles north of McCall, ID. The west side of the fire received approximately . 25 inches of rain, slowing the rate of spread and cooling hot spots. The fire continues to spread in the Warren Creek area.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. Very little fire activity was observed today with scattered clouds and high relative humidity. Efforts have been directed toward containing perimeter spots.

SIDDOWAY, Targhee National Forest. This fire is burning in moderate to heavy timber 14 miles east of Swan Valley. Limited access, torching and spotting is hampering control efforts. The fire did receive some precipitation today which moderated fire activity.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) has been assigned. Eleven wildland fires are
currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Moisture was received across the area slowing fire growth. Closure orders remain in effect for areas in and around the fires.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. Structure protection continues at Root Ranch. No new information to report.

DIAMOND COMPLEX, Payette National Forest. These lightning-caused fires are 42 miles northeast of McCall, ID. This complex consists of the Lookout, Point, North Shellrock and South Shellrock fires. Structure protection remains in place for Big Creek and Edwardsburg. No new information to report.

## NORTHWEST AREA LARGE FIRES:

EASTSIDE COMPLEX, Wallowa-Whitman National Forest. A Type II Incident Management Team (Gardner) is assigned. The complex consists of 11 fires adjacent to the Snake and Imnaha Rivers, 37 miles northeast of Enterprise, OR. Light to moderate precipitation was received over the fire allowing crews to make good progress on direct fireline construction along portions of Jim Creek and Deep Creek.

CARROL CREEK, Wallowa-Whitman National Forest. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. The fire is ten miles east of Wallowa Lake, OR. Rainfall was minimal over most of the fire.

HASH ROCK, Ochoco National Forest. A Type II Incident Management Team (Jackson) is assigned. This fire is 18 miles northeast of Prineville, OR. Fire activity diminished, except was active in small pockets of heavy fuels.

WESTERN GREAT BASIN AREA LARGE FIRES:
PHILLIPS RANCH, Humboldt-Toiyabe National Forest and Great Basin National Park. The fire is 50 miles southeast of Ely, NV, and is being monitored by Park Service personnel. Steady progress toward containment objectives was made due to precipitation.

CHERRY, Ely Field Office, BLM. This fire is 30 miles northwest of Ely, NV. Wildlife habitat and the Goshute Wilderness Study Area remain threatened. BLM personnel are monitoring the fire.

HOT SPRINGS RANCH, Winnnemucca Field Office, BLM. The fire is east of Valmy and is contained at this time.

ROCKY MOUNTAIN AREA LARGE FIRES:
JASPER, Black Hills National Forest. This fire is 15 miles east of Newcastle, WY. A Type I Incident Management Team (Waterbury) is assigned. Burnout operations have been successful to strengthen control lines. Highway 16 has been reopened and evacuees have been allowed to return to their homes. Jewel Cave National Monument remains closed.

## SOUTHERN AREA LARGE FIRES:

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. This previously contained fire escaped due to high temperatures and low relative humidity. The fire burned through a subdivision and several homes were damaged, but none were destroyed.

SNAKE EYES, National Forest in Mississippi. This fire is located near Potts Camp, MS. Extremely hot and dry conditions are creating intense fire behavior. Rattlesnakes, dehydration and heat exhaustion are serious hazards to the firefighters.

WEST NUECES, Texas State Forest Service. This fire is 50 miles northeast of Del Rio, TX. Seven homes are threatened, and one ranch house was saved. The fire is burning in heavy mesquite, oak and juniper fuels in rough terrain.

YELLOW BAYOU, Texas State Forest Service. The fire is burning in a pine plantation 100 miles northeast of Houston, TX. Extreme fire behavior due to high temperatures and low relative humidity has been observed.

HUFFINES, Texas State Forest Service. This fire is burning in a pine plantation 80 miles northeast of Tyler, TX.

RANGER HILLS, Texas State Forest Service. The fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. Parts of the fire remained active today. National Guard helicopters assisted in securing firelines.

MCGEE CREEK \#2 COMPLEX, Oklahoma Division of Forestry. This fire is near Antlers, OK.

## OUTLOOK:

A Pacific cold front will push into the Northern Rockies bringing cool temperatures along with showers and thunderstorms to the Pacific Northwest, Great Basin, Montana and Northern California. An area of low pressure will linger across the Pacific Northwest. This may bring a possibility of high elevation mountain snow showers to this region. Across the Southwest partly cloudy skies and locally windy conditions are expected.

In the north temperatures will generally be in the 50's to mid 60's in the mountains, the mid 60's to near 80 in the lower elevations. In the Southwest areas temperatures will be in the 60's and 70's mountains and 80's to 100 in the valleys.

Winds will generally be from the west $10-20 \mathrm{mph}$. Winds out ahead of the front will be from the west to southwest at $15-30 \mathrm{mph}$.

Relative humidity will generally be in the 20's and 30's with 40's to near 70 percent in the cooler and wetter areas of the North.
