

SUMMARY: On December 26, 2002, the Department of Commerce (“the Department”) published in the Federal Register (67 FR 78772) a notice announcing the initiation of an administrative review of the antidumping duty order on circular welded non-alloy steel pipe from Mexico. This administrative review covered two Mexican manufacturers of circular welded non-alloy steel pipe, Niples Del Norte S.A. de C.V. (“NDN”) and Hylsa S.A. de C.V. (“Hylsa”), for the period of November 1, 2001, through October 31, 2002. The Department has now rescinded this review as a result of requests by both parties to withdraw from the review.

EFFECTIVE DATE: March 7, 2003.

FOR FURTHER INFORMATION CONTACT: John Drury or Abdelali Elouaradia, Enforcement Group III, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Room 7866, Washington, D.C. 20230; telephone (202) 482-0195 or (202) 482-1374, respectively.

SUPPLEMENTARY INFORMATION:

Scope of the Review

The products covered by these orders are circular welded non-alloy steel pipes and tubes, of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipes and tubes and are intended for the low pressure conveyance of water, steam, natural gas, and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses, and generally meet ASTM A-53 specifications. Standard pipe may also be used for light load-bearing applications, such as for fence tubing, and as structural pipe tubing used for framing and support members for reconstruction or load-bearing purposes in the construction, shipbuilding, trucking, farm equipment, and related industries. Unfinished conduit pipe is also included in these orders.

All carbon steel pipes and tubes within the physical description outlined above are included within the scope of these orders, except line pipe, oil country tubular goods, boiler tubing, mechanical tubing, pipe and tube hollows for redraws, finished scaffolding, and finished conduit. Standard pipe that is dual or triple

certified/stenciled that enters the United States as line pipe of a kind used for oil or gas pipelines is also not included in these orders.

Imports of the products covered by these orders are currently classifiable under the following Harmonized Tariff Schedule (HTS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90.

Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of these proceedings is dispositive.

Background

The Department published an antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico on November 2, 1992 (57 FR 49453). The Department published a notice of “Opportunity to Request an Administrative Review” of the antidumping duty order for the 2001/2002 review period on November 1, 2002 (67 FR 66612). Respondents NDN and Hylsa requested that the Department conduct an administrative review of the antidumping duty order on circular welded non-alloy steel pipe and tube from Mexico.

The Department received timely requests for withdrawal from the administrative review from NDN on December 20, 2002, and from Hylsa on December 19, 2002. The applicable regulation, 19 CFR 351.213(d)(1), states that the Secretary will rescind an administrative review under this section, in whole or in part, if a party that requested a review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. In light of the fact that all of the parties who initially requested an administrative review have withdrawn their requests in a timely manner, we are rescinding this review.

This notice is published in accordance with 19 CFR 351.213(d)(4).

Dated: February 28, 2003.

Faryar Shrizad,

Assistant Secretary for Import Administration.

Fresh Atlantic Salmon from Chile: Amended Final Results of 2000-2001 Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 7, 2003.

SUMMARY: On February 11, 2003, the Department of Commerce (the Department) published in the **Federal Register** the final results of the administrative review of the antidumping duty order on fresh Atlantic salmon from Chile for the period July 1, 2000, through June 30, 2001. See *Notice of Final Results of Antidumping Duty Administrative Review, Final Determination to Revoke the Order in Part, and Partial Rescission of Antidumping Duty Administrative Review: Fresh Atlantic Salmon From Chile*, 68 FR 6878 (February 11, 2003) (Final Results).

In those results the Department inadvertently omitted the effective date of revocation for those companies that were revoked from the order. This information is provided in the section entitled “Effective Date of Revocation.”

FOR FURTHER INFORMATION CONTACT: Vicki Schepker or Constance Handley, at (202) 482-1756 or (202) 482-0631, respectively, AD/CVD Enforcement Office V, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On February 11, 2003, the Department published the final results in this administrative review. In those results, the Department revoked the antidumping duty order as to Cultivos Marinos Chiloe, Ltda. (Cultivos Marinos), Marine Harvest (Chile) S.A. (Marine Harvest), Salmones Mainstream S.A. (Mainstream), and Salmones Pacifico Sur S.A. (Pacifico Sur). However, the Department inadvertently failed to indicate the effective date of revocation.

Scope of Review

The product covered by this review is fresh, farmed Atlantic salmon, whether imported “dressed” or cut. Atlantic salmon is the species *Salmo salar*, in the genus *Salmo* of the family *salmoninae*. “Dressed” Atlantic salmon refers to

salmon that has been bled, gutted, and cleaned. Dressed Atlantic salmon may be imported with the head on or off; with the tail on or off; and with the gills in or out. All cuts of fresh Atlantic salmon are included in the scope of the review. Examples of cuts include, but are not limited to: crosswise cuts (steaks), lengthwise cuts (fillets), lengthwise cuts attached by skin (butterfly cuts), combinations of crosswise and lengthwise cuts (combination packages), and Atlantic salmon that is minced, shredded, or ground. Cuts may be subjected to various degrees of trimming, and imported with the skin on or off and with the "pin bones" in or out.

Excluded from the scope are (1) fresh Atlantic salmon that is "not farmed" (*i.e.*, wild Atlantic salmon); (2) live Atlantic salmon; and (3) Atlantic salmon that has been subject to further processing, such as frozen, canned, dried, and smoked Atlantic salmon, or processed into forms such as sausages, hot dogs, and burgers.

The merchandise subject to this review is classifiable under item numbers 0302.12.0003 and 0304.10.4093, 0304.90.1009, 0304.90.1089, and 0304.90.9091 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Effective Date of Revocation

The revocation of the order applies to all entries of subject merchandise that are produced and exported by Cultivos Marinos, Mainstream, Marine Harvest, and Pacifico Sur, entered, or withdrawn from warehouse, for consumption on or after July 1, 2001. The Department will order the suspension of liquidation ended for all such entries and will instruct the U.S. Customs Service (Customs) to release any cash deposits or bonds. The Department will further instruct Customs to refund with interest any cash deposits on entries made after June 30, 2001.

Therefore, we are amending the Final Results to reflect the above noted effective date of revocation.

Assessment Rates

Absent an injunction from the U.S. Court of International Trade, the Department will issue appropriate assessment instructions directly to Customs within 15 days of publication of these amended final results of review.

We are issuing and publishing this determination and notice in accordance

with sections 751(a)(1) and 777(i) of the Act.

Dated: February 28, 2003.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Mechanical Transfer Presses from Japan: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on mechanical transfer presses (MTPs) from Japan in response to a request by Hitachi Zosen Corp. (HZC), and its subsidiary, Hitachi Zosen Fukui Corporation, doing business as H&F Corporation (H&F). This review covers shipments of this merchandise to the United States during the period of February 1, 2001, through January 31, 2002. We have preliminarily determined that U.S. sales have not been made below normal value (NV). If these preliminary results are adopted in our final results, we will instruct the U.S. Customs Service to liquidate entries without regard to antidumping duties. Interested parties are invited to comment on these preliminary results. See Preliminary Results of Review section of this notice.

EFFECTIVE DATE: MARCH 7, 2003.

FOR FURTHER INFORMATION CONTACT:

Jacqueline Arrowsmith or Doug Campau, Antidumping/Countervailing Duty Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone (202) 482-5255 or (202) 482-1395, respectively.

Background

The Department published an antidumping duty order on MTPs from Japan on February 16, 1990 (55 FR 5642). On February 19, 2002, the Department received a timely request for an administrative review of the antidumping duty order on MTPs from HZC and its subsidiary, H&F. On February 28, 2002, the Department

received a timely request from the petitioner, IHI-Verson Press Technology, LLC, for an administrative review of HZC, H&F, Komatsu Corporation, Ltd. (Komatsu) and Komatsu American Industries, LLC. On March 27, 2002, we published a notice initiating an administrative review of MTPs (67 FR 14696) for HZC, and HZC's subsidiary, H&F, and Komatsu. On May 22, 2002, we published *Mechanical Transfer Presses from Japan: Final Results of Antidumping Duty Administrative Review and Revocation, in-Part*, in which we revoked the antidumping order with respect to Komatsu. The revocation was effective for subject merchandise entered, or withdrawn from warehouse, for consumption on or after February 1, 2001. See 67 FR 35958.

Due to complicated issues in this case, on October 25, 2002, the Department extended the deadline for the preliminary results of this antidumping duty administrative review until no later than February 28, 2003. See *Mechanical Transfer Presses From Japan: Extension of Time Limit for Preliminary Results and Preliminary Rescission, in Part, of Antidumping Administrative Review* 67 FR 14696 (November 1, 2002).

Scope of the Antidumping Duty Order

Imports covered by this order include mechanical transfer presses (MTPs) currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) item numbers 8462.99.8035, 8462.21.8085, and 8466.94.5040. The HTSUS subheadings are provided for convenience and Customs purposes only. The written description of the scope of this order is dispositive. The term "mechanical transfer presses" refers to automatic metal-forming machine tools with multiple die stations in which the work piece is moved from station to station by a transfer mechanism designed as an integral part of the press and synchronized with the press action, whether imported as machines or parts suitable for use solely or principally with these machines. These presses may be imported assembled or unassembled.

The Department published in the **Federal Register** several notices of scope rulings with respect to MTPs from Japan, determining that (1) spare and replacement parts are outside the scope of the order (*see Notice of Scope Rulings*, 57 FR 19602 (May 7, 1992)); (2) a destack sheet feeder designed to be used with a mechanical transfer press is an accessory and, therefore, is not within the scope of the order (*see Notice of Scope Rulings*, 57 FR 32973 (July 24, 1992)); (3) the FMX cold forging press is
