

July 2005

CURRICULUM VITAE

PERSONAL INFORMATION:

Name: **PETER PETRUSZ**

Social Security

Number: ---

Office Address: Department of Cell and Developmental Biology
University of North Carolina
CB# 7090, 108 Taylor Hall
Chapel Hill, NC 27599

Home Address: ---

Phone: (919) 966-2207 (office)
(919) 966-1856 (FAX)
(-) (home)

E-mail: petrusz@med.unc.edu (office)
--- (home)

Date of Birth: ---

Place of Birth: ---

Marital Status: ---

Citizenship: ---

Education: --- ---
--- Medical School, University of Pecs, Hungary
--- M.D. (General Medicine), University of Pecs, Hungary
--- Ph.D. (Reproductive Endocrinology), Karolinska Institute,
Stockholm, Sweden

Employment: 1985- Professor, Department of Cell and Developmental Biology
(-)
University of North Carolina, Chapel Hill, NC
1976-1985 Associate Professor, Department of Cell Biology & Anatomy
(-)
University of North Carolina, Chapel Hill, NC
1971-1976 Assistant Professor, Department of Anatomy

	(---
1967-1971	Research Associate, Reproductive Endocrinology Research Unit (---(---)
	Karolinska Hospital, Stockholm, Sweden
1966-1967	Laboratory Assistant, Department of Women's Diseases (---)
	Karolinska Hospital, Stockholm, Sweden
1963-1966	Junior to Senior Assistant Professor, Department of Anatomy (---)
	University Medical School, Pecs, Hungary
1960-1963	Instructor, Department of Anatomy (---)
	University Medical School, Pecs, Hungary

Certification/ Licensure:	---	License to Practice Medicine, Hungarian Ministry of Health
	---	ECFMG Certificate (USA)

Awards and Honors:

Member, Hungarian Academy of Sciences (elected May 3, 2004)

Professional Societies:

American Association of Anatomists/FASEB
 American Association for the Advancement of Science
 Endocrine Society
 Histochemical Society
 Hungarian Medical Association of America
 Hungarian Academy of Sciences
 Society for the Study of Reproduction

Other Memberships:

Carolina Population Center, University of North Carolina at Chapel Hill (Associate Member, 1972-)
 Laboratories for Reproductive Biology, University of North Carolina at Chapel Hill (Member, 1971-;
 Director, Radioimmunoassay Core, 1984-1997; Co-Director, Histochemistry Core, 1984-1997;
 Director, Immunotechnology & Histochemistry Core, 1997-);
 Neurobiology Program, University of North Carolina at Chapel Hill (1972-)

PROFESSIONAL SERVICES:

Editorial Boards:

American Journal of Anatomy (1987-1991)
 Anatomy and Embryology (1995-)

Applied Immunohistochemistry & Molecular Morphology (1998-)
Cell Biology International (1993-)
Cell Vision-Journal of Analytical Morphology (1993-1998)
Endocrinology (1994-1998)
Journal of Histochemistry and Cytochemistry (1978-1986; 1995-1998)
Journal of Chemical Neuroanatomy (1988-1990)
The Histochemical Journal (1990-; Consulting Editor, 1992-93; North American Editor, 1994-1997)
Neurobiology (1992-1995)
Orvosi Hetilap/Hungarian Medical Weekly (2001-)

Scientific Review Panels:

NIH, Special Reviewer, Reproductive Biology Study Section, 1980
NSF, Peer Reviewer, 1980-
NIH, Special Reviewer, Neurological Sciences Study Section, 1982, 1984
NIH, Member, Special Study Section (Site Visit: Departments of Pathology and Neurology, Albert Einstein College of Medicine), New York, 1982
Tobacco and Health Research Institute, External Reviewer, University of Kentucky, 1983
VA Medical Research Program, Consultant, Career Development Program, Washington, DC, 1983
NIH, Member, Special Study Section (Site Visit: Department of Pathology, University of Western Ontario, London, Ontario, Canada), 1984
NIH, Member, Special Review Committee (Site Visit: Laboratories for Neuroendocrinology, The Salk Institute, La Jolla, California), 1984
NIH, Special Reviewer, Biomedical Sciences 3 (ad hoc) Study Section, 1984
Duke University and VA Hospital, Reviewer, Stroke Center Program Project, Durham, NC, 1985
U.S. Environmental Protection Agency, Consultant, Research Triangle Park, NC, 1985, 1986
Blackwell Scientific Publications, Inc., Editorial Consultant, Palo Alto, CA, 1987
NIEHS, Member, SBIR Phase I Review Group, Research Triangle Park, NC, 1991; Phase II Review Group, 1992
Food and Drug Administration, Hematology and Pathology Devices Panel, Medical Devices Advisory Committee, Center for Devices and Radiological Health, (Consultant, 1995-2004; Member, 2004-)

Reviewed manuscripts for the following journals:

Acta Endocrinologica, Anatomical Record, American Journal of Anatomy, Applied Immunohistochemistry and Molecular Morphology, Biochimica and Biophysica Acta, Biology of Reproduction, Brain Research, Cell Biology International, Endocrinology, Endocrinology and Metabolism, Experimental Lung Research, Histochemical Journal, Hypertension, Journal of Andrology, Journal of Applied Physiology, Journal of Clinical Endocrinology and Metabolism, Journal of Chemical Neuroanatomy, Journal of Comparative Neurology, Journal of Histochemistry and Cytochemistry, Journal of Laboratory Investigation, Journal of Neuroscience Research, Life Sciences,

Neuroendocrinology, Peptides, Radiation Research, Reproductive Biology and Endocrinology, Science, Teratology.

Committees:

Histochemical Society: Symposium Organizer, 1982; Councilor, 1982-1986; Chairman, Nominations Committee, 1985; Secretary, 1987-1991; Chairman, Membership Committee, 1988-1991; Chairman, Bylaws Review Committee, 1988. Symposium Organizer, 1990; President-Elect, 1991; President, 1992-93; Symposium Organizer, 1993; Chairman, Nominations Committee, 1994.

Hungarian Medical Association of America: Member, Board of Directors, 1993-; Chairman, Editorial Board, 1995-; President-Elect, 1997; Symposium Organizer, 1998; President, 1999-2001; Past President and Chair of Nominations Committee, 2001-2003; Advisory Board, 2004-.

International Brain Research Organization (IBRO): Second World Congress, Workshop Organizer, 1987.

UNC School of Medicine: Neurobiology Program, Postdoctoral Admissions Committee, 1973-1974; Examinations Committee, 1985; UNC Institutional Self-Study Task Force: Subcommittee on Basic Science Departments, 1989. Faculty Council (1993-1996); CD1 (1st year course directors') Committee (2004-); Faculty Advisory Committee on Educational Technology (2005-); Member, Academy of Educators (2005-).

UNC Department of Cell and Developmental Biology: Histology Teaching Committee, 1976-; Graduate Studies Committee, 1977-1979; 1986-1989; Annual Report Committee, 1982-1983; Faculty Search Committee, 1983-1989; Graduate Examinations Committee, 1986-1989; Histology Summer Review, 1979, 1989, 1990, 1994, 1995, 1996. In-House Seminars, 1995-2004; Promotion Policy for Non-Tenure-Track Faculty Members, 2002; Promotions Committee for Non-Tenure-Track Faculty, 2003-.

GRANTS FUNDED:

Biology and Immunology of Gonadotropins. ---, 1971-1975.

Subcellular Localization of Gonadotropins. ---, 1971-1972.

Neuroendocrine Control of Reproduction. ---, 1973-1974.

Immunoperoxidase Localization of Ovarian Gonadotropin Binding Sites. ---, 1973-1974.

Human Pituitary Follicle Stimulating Hormone. ---, 1973-1974.

Ovarian Gonadotropin Binding Sites. Population Council, ---, 1974-1975.

Gonadotropins in Brain. ---, 1975 1977.

Neurobiology of Environmental Pollutants Program Project, Radioimmunoassay Group. NIH, 1975-1980.

FSH-Testis Interactions. NIH, 1976-1979.

Enkephalins and Other Biologically Active Peptides in Brain and Spinal Cord. ---, 1977-1978.

Secretory Proteins in the Male Reproductive System. ---, 1979-1980.

Epididymal Secretory Glycoproteins. ---, 1979-1980.

Secretory Proteins in the Male Reproductive System. NIH, 1979-1983. Continued: 1983-1987.

Travel Grant to the VI. ---). NSF, 1980.

Neuroendocrine Peptides in Brain and Pituitary. NIH, 1980-1984.

U.S.-Hungary Cooperative Science Project on Hypothalamic Control of the Anterior Pituitary. ---, 1986-1989.

Hypothalamic Control of the Anterior Pituitary. ---, 1986-1987.

Hypothalamic Control of the Anterior Pituitary. --- Research Council, 1987-1989.

Localization of the Excitatory Neurotransmitter Glutamate in the Rat Brain. ---, 1988-1989.
Production and Characterization of Antisera Against NMDA Receptor Ligands. ---, 1989-1991.
Endogenous Ligands for Glutamate Receptors in Brain. NIH, 1989-1993.
Laboratories for Reproductive Biology P30 Core Center Grant, Radioimmunoassay Core. NIH, 1984-1987; Continued: 1987-1992; 1992-1997.
Antibodies to the Human GnRH Receptor. ---, 1993-95.
Does ABP regulate apoptosis in testis? ---, 1996-97.
Molecular Regulation of Reproduction, U54 Center Grant, Immunotechnology & Histochemistry Core. NIH, 1997-2002; renewed 2002-2007.
ABP and the Regulation of Germ Cell Apoptosis in Testis. NIH, 1998-2001.
Differential gene expression in ABP-transgenic mice with impaired spermatogenesis. ---, 2000-2002.
Regulation of Gene Expression During Spermatogenesis, NIH 2003-2006.

TEACHING RESPONSIBILITIES

At the University of Pecs, Hungary (1960-1966) I taught gross anatomy, histology, embryology and neuroanatomy to medical students. I was responsible for laboratories in these subjects for an average of 10 hrs/week, two semesters per year.

At the Karolinska Institute (1967-1971) I contributed to a yearly seminar (graduate) course in reproductive endocrinology. My major responsibility was complete coverage of biostatistics and hormone assays.

At the University of North Carolina (1971-) my main teaching responsibility is as an instructor in Medical Histology (starting in 2004 as Course Director). This includes 6 contact hrs/week laboratory plus lectures (1-5 per semester) in the Spring Semester (total contact hours: 60 per semester until 2002; 40 per semester since 2003; total number of semesters taught to date: 33). The number of students is currently 160, or 32 in a laboratory. I have lectured on the following topics: epithelium, nervous system, immune system, skin, endocrine system, and male and female reproductive systems. In addition, for several years I was responsible for the Histology Summer Review (remedial) course for medical students. Starting in 2002-03, the Medical Histology course was shortened from 60 to 40 hours total contact time and scheduled in the spring instead of the fall semester. In 2003, together with Professor ---, we designed a new teaching tool, virtual microscopy, to replace microscope-based laboratory instruction with a computerized system using high-quality multi-resolution digital images. The first course using this system was successfully completed in the spring of 2004. I served (1972-1982) on the faculty of the Reproductive Biology course for 2nd year medical students. I gave 1-2 lectures (and laboratories) per year, covering neuroendocrinology, the pituitary gland, and gonadotropin hormones. In addition, I have given lectures in neuroanatomy and neurobiology courses.
