

Attachment 84-MX

**AM Mutually Exclusive Applications Subject to Auction**

The mutually exclusive AM application groups listed in this attachment encompass three categories. Processing treatment will reflect the particular category type. Specifically:

**Category I:** Mutually exclusive AM application groups which include at least one AM major modification application or one noncommercial educational application and are therefore entitled to settle or otherwise resolve mutual exclusivities by means of engineering solutions. Category I applicants seeking to resolve mutual exclusivities must file a settlement agreement, an engineering solution, or an amendment addressing 307(b) criteria by September 16, 2005. *See* 47 C.F.R. § 1.2105(c).

**Category II:** Mutually exclusive AM application groups ineligible for settlement, but for which a Section 307(b) showing is required. If the Section 307(b) determination is not dispositive, these mutually exclusive AM application groups will proceed to auction.

**Category III:** Mutually exclusive AM application groups ineligible for settlement and for which no Section 307(b) showing is required. These groups need submit nothing at this time and will proceed to auction.
