## Introduction

This document provides a bibliography of documents authored or co-authored after January 1, 1995 by staff of the Indoor Environment Department at Lawrence Berkeley National Laboratory. The bibliography also provides many links to downloadable files containing reports or pre-publication versions of published documents.

You have two options for using this bibliography:

- (1) *Searching manually for citations of interest.* From the table of contents, below, click on any category to jump to the associated section of the bibliography. Then use the scroll bar or the page-up and page-down keys to look for a document of interest. If the report number is highlighted, you can click on the report number to download a full-text PDF file from the IED web site.
- (2) *Using key words or author names.* Click on the search button (binocular icon) of Adobe Acrobat Reader. In the dialog box, enter any word, phrase, or author name, then click the search button. The search results pane will provide links to every location in the bibliography with matching text. Note that the publication list typically gives authors' last names only.

The publication list works best with Adobe Acrobat Reader. On Macintosh, the Preview application does not follow the hyperlinks embedded in this document. To open with Acrobat Reader on Macintosh, either control-click the file and choose Acrobat from the "Open With" menu, or select the file, choose "Get Info" from the Finder's "File" menu, and change the opening application in the dialog box.

Several individuals contributed to the development of this bibliography. We thank Brian Smith, David Lorenzetti, and Sondra Jarvis for their important technical contributions. Olivia Salazar deserves our special thanks for her many hours of work assembling, updating, correcting, and entering the text.
