

# Federal Government Lean Six Sigma

An Oklahoma Forum for  
Promoting Continuous Improvement in Government Orgns

April 7, 2009

**Join us in a participative one-day workshop** to help establish a local federal community of *Lean Six Sigma* (LSS) practitioners. This event is a first step in establishing an Oklahoma area forum for federal LSS practitioners to share best practices and lessons learned; and to assist one another in implementing or improving LSS programs & practices in our respective organizations.

**This is an excellent opportunity to:**

- Leverage LSS expertise between federal agencies, departments, and offices
- Support cross-agency LSS mentoring and coaching
- Develop economies of scale for contracting of LSS training and miscellaneous services

**A compelling need:** Government agencies and departments are increasingly tasked with "doing more with less" - to more effectively and efficiently support our respective missions with increasingly constrained resources and budgets.

To meet this challenge a growing number of federal organizations are implementing *Lean Six Sigma* programs.

*Lean Six Sigma* is both a business philosophy and a process improvement methodology that is applicable to all business activities across the federal government.

**This workshop will include** such topics as How to Deploy a LSS Program, Overview of 7 Basic Quality Tools, Lean and Six Sigma?, and How to Find a Good LSS Project.
