Dear FCC:

I'm sure this will fall on deaf ears as I know as an American you being the US Government must protect me from words and ideas which I'm not capable of protecting myself from.

You must understand that I have lived in the Los Angeles area my entire life and have never been satisfied with any of the broadcast radio offered. Then came XM&Sirius the chance for me to hear the kind of music and programming I prefer. In my opinion I feel Sirius has the better content while XM has the better equipment, how nice it would be to combine both features. Now as a tax paying citizen I have to ask one question; What is the delay in firming up the proposed merger and why? I can tell why I think there is a delay, and that probably falls in line with my first sentence, you feel you need to protect me. Do not give me the rational that you need to protect the children , because my child barks a lot and I don't think he would understand. So with that in mind let's see if any of you geniuses will respond because to date I have not received a response yet.

Sincerely,

Edward Concialdi
