

Please abolish the ADIZ.

For several years now pilots from MTN and many other GA airports under the ADIZ have been enduring a draconian rule that has been shown thru experience to have NO practical effect on the safety of the federal complex.

The ADIZ has destroyed many businesses as well as stripped pleasure of flying from many other pilots --- for apparently NO practical reason.

The ADIZ makes entry into it extremely complicated and dangerous and puts a heavy load onto controllers that have many other important matters to attend to. Experience clearly demonstrates that the ADIZ adds NOTHING to national security and surely adds a high level of stress to GA flight operations.

ABOLISH THE ADIZ NOW.
