7:30 — 8:30 am	Hyperbilirubinemia and Kernicterus	Dr. Hamstra
8:30 — 9:30	Emergency Medicine for Navajo Children	Dr. Flaherty

Gynecology Breakout Session (Location TBA)

7:30 — 8:30 am	Evaluation of Dysmenorrhea	Dr. Slocumb
8:30 — 9:30	Polycystic Ovary Syndrome: Current Understanding of an Old Disease	Dr. Byrn

9:30 Adjourn

Faculty:

Francis Byrn, MD
Chief, Division of Reproductive Endocrinology
Dept. of Obstetrics and Gynecology
University of New Mexico
Albuquerque, NM

Eve Espey, MD
Dept. of Obstetrics and Gynecology
University of New Mexico
Albuquerque, NM

James Flaherty, MD
Navajo Area Consultant, EMS services,
Tuba City Indian Medical Center
Tuba City, AZ

William Green, MD
IHS Chief Clinical Consultant, Pediatrics
Albuquerque Indian Hospital
Albuquerque, NM

Scott Hamstra, MD
Senior Pediatrician
Whiteriver Indian Hospital
Whiteriver, AZ

Jean Howe, MD
NAIHS Ob/Gyn Consultant
Chief of Obstetrics and Gynecology
Chinle Comprehensive Healthcare Facility
Chinle, AZ

Diana Hu, MD
NAIHS MCH Consultant
Tuba City Indian Medical Center
Tuba City, AZ

Ursula Knoki-Wilson, CNM
IHS Chief Clinical Consultant for Advanced Practice
Clinicians
Chinle Comprehensive Healthcare Facility
Chinle, AZ

Larry Leeman, MD
Director of Family Practice Maternal and Infant Care
University of New Mexico
Albuquerque, NM

Kimberly Leslie, MD

Alaska Native Medical Center
Anchorage, AK

Charles North, MD
IHS Chief Clinical Consultant, Family Medicine,
Albuquerque Indian Hospital
Albuquerque, NM

Karen Peterson, MD
Dept. of Internal Medicine
Denver Health and Hospitals
Denver, CO

Laura Shelby
Public Health Assistant
STD Coordinator,
Epidemiology Branch, IHS HQW
Albuquerque, NM

John Slocumb, MD
Dept. of Obstetrics and Gynecology
University of Colorado
Denver, CO

Judith Thierry, MD
IHS Maternal Child Health Consultant
IHS HQE
Rockville, MD

Planning Committee
Diana Hu, MD
Ursula Knoki-Wilson, CNM
Martha Morgan, MD
Alan Waxman, MD, MPH — Program Director

Accreditation

The Indian Health Service (IHS) Clinical Support Center is accredited by the Accreditation Council for continuing Medical Education to sponsor continuing medical education for physicians.

The IHS Clinical Support Center designates this continuing education activity for up to **12 hours of Category 1 credit** toward the Physician s Recognition Award of the American Medical Association. Each physician should claim only those hours of credit he or she actually spent in the educational activity.

This Category 1 credit is accepted by the American Academy of Physician Assistants and the American College of Nurse Midwives.

The Indian Health Service Clinical Support Center is accredited as a provider of continuing education in nursing by the American Nurses Credentialing Center Commission on Accreditation and designates this activity for **14.4 contact hours** for nurses.

Learning Objectives:

At the conclusion of this session, participants will be better able to
(Headquarters Update)

- List national and area IHS priorities regarding women's and children's health for 2002.

(Dr. Thierry)

- Discuss how morbidity and mortality reviews can enhance preventive care for children.
- Discuss the use of the death certificate as a reporting tool and as a resource for vital statistics data abstraction.

(Ms. Shelby, Dr. Anderson)

- List two risk factors in the epidemiology of the recent syphilis outbreak on the Navajo Reservation.
- Better diagnose and treat syphilis in clinical settings.

(Ms. Knoki-Wilson)

- Discuss the Navajo views of health and illness.
- Identify three ways to give culturally appropriate care to Navajo patients.

(Dr. Green)

- Review evidence for increase in asthma in American Indian children.
- Review 1997 NIH Guidelines for the Diagnosis and Management of Asthma.

(Dr. Espey)

- List two indications for the levonorgestrel containing IUD.
- Explain how to insert the levonorgestrel containing IUD.

(Dr. Leslie)

- Interpret three tests commonly used for genetic screening in pregnancy.
- Discuss the elements of genetic counseling that are a part of routine prenatal care.

(Dr. Hu)

- List the inherited diseases that occur with higher frequency in the Navajo population, describe their clinical presentations, and list which of these are amenable to prenatal diagnosis.
- Discuss the WHO guidelines for genetic screening of populations and the pragmatic applications to the Navajo population.

(Dr. Leeman)

- Discuss management considerations particular for infants of mothers positive for GBS, infants of diabetic mothers, and infants delivered with vacuum extraction.

(Dr. Hamstra)

- Review prevention strategies for neonatal hyperbilirubinemia.
- Discuss current management of kernicterus.

(Dr. Flaherty)

- List unmet EMS needs for NAIHS.

(Dr. Slocumb)

- Review the etiology of primary and secondary dysmenorrhea.
- List two management regimens for the treatment of dysmenorrhea.

(Dr. Byrn)

- Discuss the current consensus definition of polycystic ovary syndrome.
- Appreciate the assumed role of insulin resistance in the pathophysiologic spectrum of polycystic ovary syndrome and the role of insulin-sensitizing agents in its management.
