485	1					Long-distance, fixed-route passenger transportation by road	Providing long-distance passenger transportation by a road vehicle, from one point to another point, usually over fixed routes on a regular schedule. Long-distance transportation is generally between two separate metropolitan areas or rural areas of equivalent distance to a separate metropolitan area. Service is carried out by provision of individual space on the road vehicle for a one-way trip, round trip, open jaw trip, or for unlimited trips in a time period under a pass. Service is usually scheduled, but may operate on regular and semi-regular fixed intervals. Includes charges for incidental services, such as transportation of excess baggage. Includes: <ul style="list-style-type: none"> • transportation sold directly to passengers through tickets and passes and to third-party payers. • transportation sold to other passenger transportation providers (airlines, rail, and bus, etc.) or to tour operators for resale. • transportation paid-for in whole or in part by "points" initially sold to third-parties and redeemed through a "Loyalty Program." • transportation provided under interlining agreements. Continued below.	485	485210	485210				
485	1 Cont'd						Excludes: <ul style="list-style-type: none"> • local, fixed-route, passenger transportation by road is in product 2, Local, fixed-route, passenger transportation by road and transit rail. • bus charters are in product 3, Long-distance passenger transportation by road, except fixed-route. • transporting passengers by road vehicles, including obsolete vehicles (e.g., horse-drawn carriages and pedicabs), for sightseeing tours, not bundled with overnight accommodation, is in products under 7.1, Sightseeing services by ground vehicles, except rail. • providing passenger transportation by road vehicles bundled with accommodation (perhaps with entertainment and/or dining services) is in products under 5, Packaged tours with overnight accommodation and transportation by ground vehicles, except rail.

485	1.1.3				X	Unlimited long-distance, fixed-route passenger transportation by bus on an interurban network, bus passes	Providing long-distance, fixed-route passenger transportation by a bus operating on an interurban network, sold as a package of unlimited trips during a specific timeframe. This service provides the customer with a high level of flexibility of departure and arrival times, as well as a high degree of flexibility to reach a number of distinct destinations in a single trip without making successive round trips or purchasing continuous one-way tickets. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage. Excludes: • unrestricted bus service provided on a per-trip basis in product 1.1.1, Long-distance, fixed-route passenger transportation by bus on an interurban network, regular terms. • bus service provided under terms of any ticket requiring an advanced purchase or carrying some other restriction is in product 1.1.2, Long-distance, fixed-route passenger transportation by bus on an interurban network, restricted terms.		485210 (Si existiera el producto)	485210				
485	1.1.4			X		Long-distance, fixed-route passenger transportation by bus on an interurban network, luxury-class bus	Providing long-distance, fixed-route passenger transportation by a luxury-class bus operating on an interurban network. Luxury-Class buses are the latest models that are equipped with air conditioning, video monitors, restrooms, cafeteria services, refrigeration, and attention of aides. The bus has a maximum of 25 passengers. The trips are made directly between main terminals without making flag-down stops. These buses are sometimes known as "Executive Class." Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	Service Does Not Exist in the US				
485	1.1.5			X		Long-distance, fixed-route passenger transportation by bus on an interurban network, first-class bus	Providing long-distance, fixed-route passenger transportation by a first-class bus operating on an interurban network. These buses can be up to 10 years old when entering service and are equipped with 38 seats, restrooms, air conditioning, and video monitors. The trips are made directly between main terminals without making flag-down stops. Refrigeration is not provided. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	485210				
485	1.1.6			X		Long-distance, fixed-route passenger transportation by bus on an interurban network, economy-class bus	Providing long-distance, fixed-route passenger transportation by an economy-class bus operating on an interurban network. These buses are 12-15 years old when entering service, and do not necessarily have restrooms, air conditioning, or video monitors. The service routes are on state and federal highways, and often make flag-down stops. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	485210

485	1.1.7			X		Long-distance, fixed route passenger transportation by bus on an interurban network, feeder-class bus	Providing long-distance, fixed-route passenger transportation by a feeder-class bus operating on an interurban network. These buses are 15 years old when entering service, and do not necessarily have restrooms, air conditioning, or video monitors. The service routes connect ranches, sawmills, farms, and other rural areas with the nearest towns. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	485210				
485	1.1.8			X		Long-distance, fixed route passenger transportation by bus on an interurban network, mixed-class bus	Providing long-distance, fixed-route passenger transportation by a mixed-class bus operating on an interurban network. These buses are divided into two compartments, one for passengers and their luggage, another for cargo. These buses do not have air conditioning, video monitors, or restrooms. These buses do make flag-down stops. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	Service Does Not Exist in the US				
485	1.1.9			X	X	Long-distance, fixed-route passenger transportation by road on an interurban network, except by bus	Providing long-distance, fixed-route, passenger transportation by a road vehicle, except a bus, operating on an interurban network. Includes service by camionetas, delivery trucks, minibuses, combis, and other vehicles. The service is conducted over federal and state highways. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.		485210	485210				
485	1.2	X				Long-distance, fixed-route passenger transportation by road, except on an interurban service network	Providing long-distance, fixed-route, passenger transportation by a road vehicle on a route that is not part of an interurban network. These routes are usually specialized for a specific destination, such as a casino, airport, or seaport - or else the route is devoted to commuter service, rather than to general interurban passengers. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.	485	485210	485210 485510				
485	1.2.1				X	Long-distance, fixed-route passenger transportation by casino bus service	<p>Providing long-distance, fixed-route, passenger transportation by bus to a specific casino. Service is bundled with tokens, chips, coupons, or discounts at the destination casino. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage.</p> <p>Excludes:</p> <ul style="list-style-type: none"> • providing fixed-route service to bus stations in cities with casinos, such as the bus stations in Las Vegas, Reno, or Atlantic City, etc. is in the products under 1.1, Long-distance, fixed-route passenger transportation by road on an interurban network. • bus charters to a casino are included in the products under 3, Long-distance passenger transportation by road, except fixed-route 			485210 485510

485	1.2.2				X	Long-distance, fixed-route passenger transportation by commuter bus service	Providing long-distance, fixed-route, passenger transportation by a bus operating on a route devoted to commuter service. Service originates in a distinct metropolitan area from the destination and typically ends at major places of employment, rather than at bus stations. Service is offered exclusively during the mornings and evenings on weekdays, when employees wish to travel between home and work. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage. Excludes: • local commuter service is in the products under 2.5, Local, fixed-route, common-carrier passenger transportation on road and transit rail systems.			485210 485510				
485	1.2.3			X	X	Long-distance, fixed-route passenger transportation by airport and seaport bus service	Providing long-distance, fixed-route, passenger transportation by a bus operating on a route devoted to serving an airport or seaport, with few to no intermediate stops between the origin metropolitan area and the separate and distinct metropolitan area containing the airport or seaport. Service is scheduled and includes charges for incidental services, such as transportation of excess baggage. Excludes: • passenger transportation on local routes servicing an airport or seaport is in the products under 2.5, Local, fixed-route, common-carrier passenger transportation on road and transit rail systems.		485210	485210 485510				
485	2	X				Local, fixed-route, passenger transportation by road and transit rail	Providing local, fixed-route, passenger transportation from one point to another point by a road or rail transit vehicle, principally traveling locally over fixed routes. Service is carried out by provision of individual space on the road or rail transit vehicle for a one-way trip, round trip, open jaw trip, or for unlimited trips in a time period under a pass. Service is usually scheduled, but may operate on regular and semi-regular fixed intervals. Includes: • transportation sold directly to passengers through tickets and passes and to third-party payers. • service on buses, subways, commuter rails, streetcars, and trolleys, among others. • contract provisions of school route service • contract provision of local, fixed-route transportation to hotels, universities, and large corporations. 485	2.2		X			Urban transit service	<p>Passenger transportation operated on a network of regular routes and on regular schedules. Service is centered on an urban area and covers urban and suburban areas and areas from which they draw commuters. Commuter services that primarily carry passengers to and from the urban centre are included. Transportation may involve one or more types of vehicles, such as buses, subways, streetcars, commuter trains and ferries. Passengers are permitted to pay on a per-trip basis, and the fare may be calculated on a zone basis. Includes urban transit services whether paid for by passengers or by contracts.</p>							485111 485112 485113 485119 814110	
485	2.3		X			Shuttle service	<p>Passenger transportation operated on regular routes and on regular schedules or on regular routes on an unscheduled but frequent basis. Service is typically between a limited number of pick-up and drop-off points, with no local service for other points along the route; or on a circular route with frequent stops. The service is not part of a network. As many passengers as can be accommodated are carried on a first-come first-served basis. Passengers may or may not be charged a per-trip fee. Includes shuttle service whether paid for by passengers or by contracts.</p>							485111 485113 485999	
485	2.4		X			Other local fixed-route passenger transportation service by road	<p>Local fixed-route passenger transportation service by road except urban transit service, transportation of students between home and school on a regular basis, and shuttle service. Includes transportation of employees between home and work on a regular basis, and transportation in carpools and vanpools which members of the public join on their own initiative.</p> <p>Employee transportation to work arranged by the employer is operated on regular routes and schedules. Vehicles used are typically buses but may be smaller vehicles such as vans and cars, and may be accessible to people using wheelchairs and other mobility aids. Passengers are not charged a per-trip fee. Includes employee transportation to work whether paid for by passengers or by contracts.</p> <p>Carpool transportation is provided by arranging and administering pools and providing a vehicle to members of each pool in exchange for a monthly fee to cover operating costs. One or more pool members must act as driver. Excludes provision of driving service. Excludes services that only facilitate contacts among people wishing to organize or join a carpool.</p>					485
